2.2 Product Description

Investment objectives	The Fund seeks to deliver strong, long-term returns by rationally allocating assets among different asset classes to seize investment opportunities for stocks, bonds and other assets at various market stages in both bullish and bearish markets.
Investment philosophy	<p>1. Active asset allocation strategy</p> <p>The Fund follows the investment philosophy of “right time, right proportion and right stocks” and utilizes both “top-down” and “bottom-up” stock selection methods. In the process of investment decision making, by incorporating information about forecasted global economic growth, inflation and interest, the Fund captures the future trends of China’s stock and bond markets. Moreover, the Fund combines strategic asset allocation with selective timing to flexibly and actively adjust the allocation of the Fund’s assets in stocks, fixed income and cash based on the long-term investment approach. At the same time, the Fund adjusts the types and amounts of specific investment varieties among different asset classes according to the changes in their basic elements participating in the market.</p> <p>2. Stock selection strategy integrating relative and absolute valuation methods</p> <p>Not limited to a single standard of value or growth, the Fund conducts a comprehensive growth and value analysis of stocks and selects listed companies whose valuations and growth levels are underestimated. Growth indicators include primary business revenue growth rate, primary business profit growth rate, price/earnings ratio (P/E), rate of return on equity (ROE), etc. Value indicators include price per book value (P/B), earnings per share (EPS), annual cash flow/share price, dividend yield, etc. Meanwhile, through careful fundamental analysis [financial, corporate governance and structural analysis with CFROI (cash flow return on investment)] as the key indicator and field research in the company, the Fund is able to select the most suitable investment objectives.</p>
Benchmark for performance comparison	50% * Return Rate of MSCI China A Onshore Index + 50% * Return Rate of ChinaBond New Composite Index (full price)
Risk and return characteristics	The Fund is a mixed fund, a type of securities investment fund with medium risks and returns among open-end funds.

Notes:

- ① Income realized in the reporting period represents the balance of the Fund's interest income, investment return, and other income (not including income from change in fair value) after deducting relevant costs and fees and credit impairment losses in the reporting period; the profit in the reporting period represents the balance of the Fund's realized income in the reporting period together with the gain from change in fair value in the reporting period;
- ② Distributable profit at the end of the reporting period refers to the lower of the undistributed profit and the realized income in the undistributed profit in the balance sheet at the end of reporting period (the profit shall be the balance at the end of reporting period, not the amount incurred in the reporting period);
- ③ The above financial indicators of the Fund are exclusive of subscription fees or trading expenses of the Fund (e.g., the subsequent subscription and redemption fees of the open-ended fund, dividend reinvestment fee, Fund switching fee, etc.), and the actual returns after the deduction of the fees are lower than the figures in the table above;
- ④ The Class H Units of HSBC Jintrust Dynamic Strategy Mixed Securities Investment Fund under the Mutual Recognition of Funds Scheme arrangement inceptioned on 28 June 2016. The Class C Units of HSBC Jintrust Dynamic Strategy Mixed Securities Investment Fund inceptioned on 1 August 2022.

3.2.2 Comparison between the Cumulative Net Asset Value Growth Rate of the Fund Units and the Yield Benchmark of Performance Comparison for the Same Period since the Inception of the Fund

- Notes:1. As stipulated in the Fund Contract, the percentage and scope of stock investment of the Fund are that 30%-95% of the Fund's assets can be invested therein. The percentage and scope of other assets investment (exclusive of stocks) are that 5%-70% of the Fund assets can be invested therein. The Fund shall make an investment of at least 5% of the Fund's Net Asset Value in cash (not including settlement provisions, guarantee deposits paid, subscription amount receivables etc.) or government bonds with their maturity dates within one year. In addition, as stipulated in the Fund Contract, the Fund shall complete the position building within 6 months from the effective date of the Fund Contract. As at 9 October 2007, all investment percentages of the Fund satisfied the percentages agreed in the Fund Contract.
2. From 9 April 2007 (the effective date of the Fund Contract) to 31 May 2014, the Fund's benchmark of performance comparison was "50% * Return Rate of MSCI China A Share Onshore Index + 50% * Return Rate of CITIC S&P All Bond Index". Since 1 June 2014, the Fund's benchmark of performance comparison has been 50% * Return Rate of MSCI China A Share Onshore Index + 50% * Return Rate of ChinaBond New Composite Index (full price). The calculation of the return rate of indices over the same period has taken into account the income of dividends on shares of constituent stocks of MSCI China A Share Onshore Index which were generated in the reporting period. The Return Rate of ChinaBond New Composite Index (full price) in the Fund's benchmark of performance comparison is the yield of the ChinaBond New Composite Full Price (Total Value) Index, which is an index value calculated at the full price of the bond, and the interest after the bond's payment of interest is no longer included in the index.
3. MSCI China A Share Index was renamed as MSCI China A Share Onshore Index on 1 March 2018.

HSBC Jintrust Dynamic Strategy Mixed Fund Class H
 Chart of historical trend of comparison between the accumulated Fund Net Asset Value
 per Unit growth rate of and the yield benchmark of performance comparison
 (28 June 2016 to 31 December 2024)

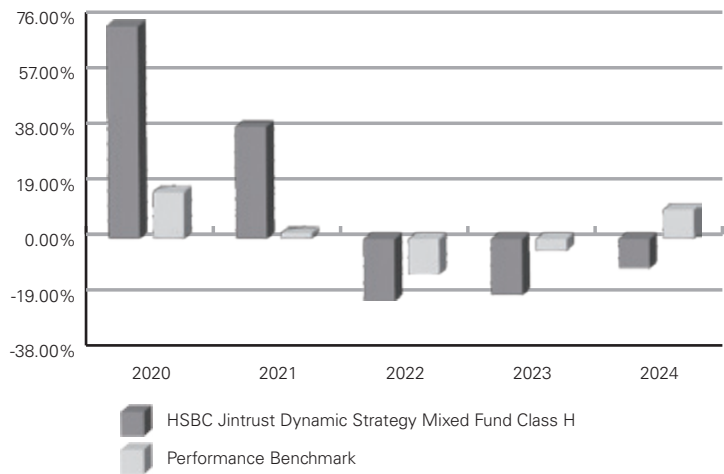

- Notes: 1. As stipulated in the Fund Contract, the percentage and scope of stock investment of the Fund are that 30%-95% of the Fund's assets can be invested therein. The percentage and scope of other assets investment (exclusive of stocks) are that 5%-70% of the Fund assets can be invested therein. The Fund shall make an investment of at least 5% of the Fund's Net Asset Value in cash (not including settlement provisions, guarantee deposits paid, subscription amount receivables etc.) or government bonds with their maturity dates within one year.
2. The Fund's benchmark of performance comparison was "50% * Return Rate of MSCI China A Share Onshore Index + 50% * Return Rate of ChinaBond New Composite Index (full price)". The calculation of the return rate of indices over the same period has taken into account the income of dividends on shares of constituent stocks of MSCI China A Share Onshore Index which were generated in the reporting period. The Return Rate of ChinaBond New Composite Index (full price) in the Fund's benchmark of performance comparison is the yield of the ChinaBond New Composite Full Price (Total Value) Index, which is an index value calculated at the full price of the bond, and the interest after the bond's payment of interest is no longer included in the index.
3. MSCI China A Share Index was renamed as MSCI China A Share Onshore Index on 1 March 2018.
4. The Class H Units of HSBC Jintrust Dynamic Strategy Mixed Securities Investment Fund under the Mutual Recognition of Funds Scheme arrangement incepted on 28 June 2016.

HSBC Jintrust Dynamic Strategy Mixed Fund Class C
 Chart of historical trend of comparison between the accumulated Fund Net Asset Value
 per Unit growth rate of and the yield benchmark of performance comparison
 (1 August 2022 to 31 December 2024)

- Notes: 1. As stipulated in the Fund Contract, the percentage and scope of stock investment of the Fund are that 30%-95% of the Fund's assets can be invested therein. The percentage and scope of other assets investment (exclusive of stocks) are that 5%-70% of the Fund assets can be invested therein. The Fund shall make an investment of at least 5% of the Fund's Net Asset Value in cash (not including settlement provisions, guarantee deposits paid or subscription amount receivables etc.) or government bonds with their maturity dates within one year.
2. The Fund's benchmark of performance comparison = 50% * Return Rate of MSCI China A Share Onshore Index + 50% * Return Rate of ChinaBond New Composite Index (full price). The calculation of the return rate of indices over the same period has taken into account the income of dividends on shares of constituent stocks of MSCI China A Share Onshore Index which were generated in the reporting period. The Return Rate of ChinaBond New Composite Index (full price) in the Fund's benchmark of performance comparison is the yield of the ChinaBond New Composite Full Price (Total Value) Index, which is an index value calculated at the full price of the bond, and the interest after the bond's payment of interest is no longer included in the index.
3. The Class C Units of HSBC Jintrust Dynamic Strategy Mixed Securities Investment Fund inceptioned on 1 August 2022.

3.2.3 Comparison between the Annual Net Asset Value Growth Rate of the Fund and the Annual Benchmark Yield in the Past 5 Years

Note:

As the C share class of HSBC Jintrust Dynamic Strategy Mixed Securities Investment Fund inceptioned on 1 August 2022, the C share class has operated for less than five years as of 31 December 2024.

The annual Fund Net Asset Value growth rate of HSBC Jintrust Dynamic Strategy Class C in the year which the class took effect is calculated on a pro rata basis instead of on the basis of an entire calendar year.

3.3 Fund Profit Distribution in the Past 3 Years

None.

Yan Shi	Portfolio Manager Assistant of HSBC Jintrust Fund Management Company Limited	25 December 2021	20 December 2024	12	Ms. Yan Shi, master degree holder, previously worked as the credit analyst of E Fund Management Company Ltd, the Portfolio Manager Assistant in Fullgoal Fund Management Company Ltd, Wanjia Asset Management Company Ltd and HSBC Jintrust Fund Management Company Ltd, currently works as the Portfolio Manager of HSBC Jintrust China Money Market Securities Investment Fund and HSBC Jintrust 63-Month Fixed Term Bond Securities Investment Fund.

Notes:

1. The above appointment dates are the appointment dates determined by the company and the departure dates are the termination dates determined by the company; The appointment date of the first Portfolio Manager is the effective date of the fund contract.
2. Seniority in the securities industry represents the number of working years the Portfolio Manager/the Portfolio Manager Assistant was engaged in security investment related activities.

4.2 Fund Manager's Report on Compliance and Creditability of the Fund Operation in the Reporting Period

The Fund Manager manages and operates the Fund assets on the principles of honesty, credibility, prudence, diligence and conscientiousness, with a premise of strict risk control in order to maximize the benefits of the Fund Unitholders in strict compliance with the *Law of the People's Republic of China on Securities Investment Funds* and other provisions, regulations formulated by the China Securities Regulatory Commission (the CSRC), and the Fund Contract in the reporting period. There were no activities that might jeopardize the interests of the Fund Unitholders in the reporting period.

4.3 Fund Manager's Special Report on Fair Trading in the Reporting Period

4.3.1 The Fair Trading Policy and Controlling Methods

To ensure that different investment portfolios managed by the Fund Manager are treated equally and to fully protect the legal rights and interests of the Fund Unitholders, the Fund Manager stipulated the *Fair Trading Policy of HSBC Jintrust Fund Management Company Limited* (hereinafter referred to as the "*Fair Trading Policy*").

According to the *Fair Trading Policy*, different investment portfolios must be treated equally in the investment management process. Benefit transfers between different investment portfolios directly or through a third party are strictly prohibited. The *Fair Trading Policy* applies to the entire investment process and is used to regulate fund-investment-related activities, including authorisation, research and analysis, investment decision making, trading implementation, and various investment management activities related steps including monitoring on activities and performance evaluation involved in the investment management process.

The controlling methods for fair trading include: 1. fair trading in the exchange market is achieved through the Hang Seng Investment Trading System, which is enforced by the Hang Seng Investment Trading System by the opening of the fair trading process; 2. the inter-bank transaction is allocated by the executive dealer on the principle of price-first and pro rata basis allocation in fair trading, to ensure that each portfolio can achieve fair trading opportunities; 3. for the purchase of bonds in primary market, the transactions in the name of the fund manager, such as the purchase of non-public offering shares, the portfolio manager determines the price and amounts of each portfolio independently before the transaction, and the trading department will allocate the trading results on the principle of price-first and pro rata basis allocation; 4. the use of risk management and performance evaluation system of XQuant, making regular report analysis and checking the fair trade situation.

4.3.2 Implementation of the Fair Trading Policy

During the reporting period, the relevant departments of the Company carried out the investment management, research and analysis, and dealings in compliance with Fair Trading Policy. In the meanwhile, the company honored its obligations of monitoring, analyzing and reporting of fair trading and made relevant records.

During the reporting period, the Company analyzed the trading spreads of the transactions in same direction made by different investment portfolios managed by the Company under different time windows (e.g. within 1 day, 3 days or 5 days) for four consecutive quarters. The Company conduct T-test on the average premium rate of the transactions in the same securities and in same direction made by different investment portfolios. For transactions that fail the T-test, the Company calculated and analyzed, on a specialized basis, the proportion of same-direction transactions, the contribution rate, the degree of freedom, the transaction quantity and the transaction timing, as well as other indexes. The calculation and analysis results showed that the above indexes were all within their normal range and no unfair acts which involve benefit transferring were found in the transactions in the same direction made by different portfolios on nearby trading days.

No unfair trading between different investment portfolios or benefits transportation either directly or through dealing with any third party was found during the reporting period

4.3.3 Special Report on Abnormal Trading

The Company has stipulated the *Abnormal Trading Monitoring and Reporting Policy of HSBC Jintrust Fund Management Company Limited* (hereinafter referred to as the “*Abnormal Trading Monitoring and Reporting Policy*”) to guard against a possible benefit transfer between different investment portfolios and to closely watch for any abnormal trading that might jeopardize the interests of the Fund Unitholders.

In the reporting period, the Company monitored and analysed the trading of the same investment portfolio and different investment portfolios based on the *Guiding Opinions on the Fair Trading Policy of Securities Investment Fund Management Companies* and *HSBC Jintrust Monitoring and Reporting Policy of Abnormal Trading*. No abnormal trading was found in the reporting period.

There existed no abnormal trading of the Fund that its trading in a security listed on the open market in one day exceeded 5% of the total trading volume which has the less amount in two of the trading directions of that security on the same day in the reporting period.

4.4 Fund Manager’s Report on Investment Strategy and Fund Performance in the Reporting Period

4.4.1 Analysis of Fund Investment Strategy and Operation Analysis during the Reporting Period

In 2024, there has been a significant divergence in the performance of various market indices. The Shanghai and Shenzhen 300 Index has risen by 14.68%, the CSI 500 Index by 5.46%, the CSI 1000 Index by 1.20%, the ChiNext Index by 13.23%, and the STAR 50 Index by 16.07%. The divergence in the performance of different industries has been even more pronounced. Among CITIC Tier-1 industries, sectors such as banking, non-banking finance, home appliances, and communications have seen increases of over 20%, while sectors like composite, pharmaceuticals, agriculture, forestry, animal husbandry and fishery, consumer services, real estate, and food and beverages have experienced declines of over 5%. In terms of market style, capital has been highly concentrated in large-cap value sectors. The Shanghai and Shenzhen 300 Value Index has increased by 24.85%, the Shanghai and Shenzhen Growth Index by 4.24%, the CSI 500 Value Index by 6.24%, and the CSI 500 Growth Index by 0.92%. The market has experienced significant volatility throughout the year, with noticeable shifts in investor sentiment. At one point, capital was heavily concentrated in low-risk assets represented by value and dividend sectors, while continuous outflows from growth sectors compressed the valuation levels of high-quality companies within those industries, leading to divergent performance.

Our investment framework, which has consistently integrated earnings and valuation, has faced certain challenges over the past few years. On one hand, the cyclical fluctuations in investment returns have diminished, or for various reasons, persisted for extended periods, making it difficult to predict future investment returns based on weak assumptions, which has caused some confusion in our fundamental research. On the other hand, assessing market valuation levels based on historical data has also encountered empiricist dilemmas. Market risk preferences often lead to extreme valuation compression or expansion, posing significant tests for contrarian and early-stage investment styles. However, the market changes after late September have also reminded us that cycles remain constant, and value discovery and revaluation will eventually occur. We will continue to adhere to thorough fundamental research and valuation comparisons to identify investment opportunities in the market.

4.4.2 Fund Performance in the Reporting Period

The Fund's Net Asset Value per Fund Unit growth rate of Class A was-9.02% in the reporting period, whilst the benchmark yield was 10.08% in the same period. The Fund's performance of Class A is under the performance benchmark in the same period by 19.10%; The Fund's Net Asset Value per Fund Unit growth rate of Class H was-9.12% in the reporting period, whilst the benchmark yield was 10.08% in the same period. The Fund's performance of Class H is under the performance benchmark in the same period by 19.20%. The Fund's Net Asset Value per Fund Unit growth rate of Class C was-9.44% in the reporting period, whilst the benchmark yield was 10.08% in the same period. The Fund's performance of Class C is under the performance benchmark in the same period by 19.52%.

4.5 Outlook on the National Economy, Securities Market and Industrial Trends

Over the past few months, pro-growth policies have been continuously introduced, and multiple economic support measures have effectively driven a steady recovery in infrastructure investment and retail sales of consumer goods, with improved growth momentum. The sales volume of second-hand housing in first-tier cities has also significantly rebounded, and societal confidence in stable economic development has continued to strengthen. Going forward, fiscal policy is expected to remain proactive, complemented by accommodative monetary policy, which is expected to further aid in the significant recovery of the domestic economy. However, more uncertainties may arise from external factors, with exports potentially becoming a wildcard for economic growth in 2025. Nevertheless, it is anticipated that the recovery strength of domestic demand will be sufficient to counteract the impact of adverse external factors, providing robust macroeconomic support for the performance of the capital markets. Currently, the risk premium rates of major indices remain above historical averages, indicating that equity assets still possess considerable allocation value. With the optimization of supply and demand brought about by economic support policies and the capacity cycles of industries themselves, certain sectors are set to reach an upward turning point. From a valuation perspective, as liquidity easing continues both domestically and internationally, the market has already met the conditions for valuation expansion. Looking ahead, the equity market is expected to enter a favorable investment period.

The investment strategy of the Dynamic Strategy Fund primarily combines valuation metrics and industry cycles to identify directional sectors for portfolio construction. It integrates both sector-level and company-specific fundamentals, adopting a mid-level and bottom-up approach to select individual stocks. From a valuation perspective, the fund focuses on three key allocation directions:

1. Price-to-Sales (PS) Valuation: Companies in this category typically have high gross margins and front-loaded R&D expenses, which often result in relatively weaker early-stage financial performance. However, once their products achieve significant market traction, they demonstrate considerable revenue and profit elasticity. These companies are predominantly concentrated in the technology and pharmaceuticals sectors.
2. Price-to-Earnings (PE) Valuation: High-quality companies with strong earnings visibility offer long-term investment value. Improvements in industry competitive dynamics can further unlock valuation flexibility. These companies are mainly found in midstream sectors such as advanced manufacturing and renewable energy.
3. Price-to-Book (PB) Valuation: During market corrections, some companies have seen their market capitalization dip below their net asset value. These are typically capital-intensive stocks. As market risk appetite recovers, these companies are expected to continue unlocking significant valuation flexibility.

4.6 Internal Compliance Report

In the reporting period, the Fund Manager has adhered to the principle of compliance operation, risk prevention and protection of the interests of fund unitholders in the internal compliance work of the Company. Compliance staff who are independent from business departments have conducted routine compliance supervision, regular compliance inspection and ad hoc compliance check on company operation and management, fund investment and the employees' conduct so as to locate problems in time and urge relevant departments to rectify. Based on the compliance check results, compliance staff have completed regular compliance reports and filed with regulators.

In the reporting period, major internal compliance tasks of the company are as follows:

- (1) Through regular inspection and ad hoc check, to conduct compliance supervision over the Company's routine operation and fund investment operation; on identifying any problem, to require relevant department and relevant personnel on solving the problem in time and tracing the result of problem treatment, and to conduct risk education in specific aspect to relevant staffs, so as to prevent possible risk of the Company in the business and fund investment operation;
- (2) To disclose all the statutory information documents of the Company and funds timely, accurately and completely in designated media in accordance with laws and regulations and CSRC's rules, ensure fund investors and the public timely, accurately and completely access to the Company and the fund public information;
- (3) To file the regulatory reports regularly and irregularly with CSRC, CSRC Shanghai bureau, Asset Management Association of China and People's Bank of China and other regulators timely and accurately;
- (4) To enhance compliance inspection on business departments and to issue the compliance report on the inspection results to relevant supervisor of each department, to update relevant company policies and to propose suggestion for the purpose of improvement and, to urge business departments to follow up and make improvements;
- (5) Complete the compliance review of the fund launch application materials, marketing materials, fund distribution agreements, fund participant business units lease agreements and other legal routine work;
- (6) To regularly conduct training for the Company's employees concerning the Company's compliance policies, and conduct ad hoc compliance training when laws or regulations are newly promulgated; to publicize the Company's business concept to the employees which is to comply with the laws and regulations, to strengthen the compliance culture in the Company, and to conduct ad hoc training to employees who work in the investment management department and distribution department, so as to further normalize and standardize the fund's investment and distribution operation;
- (7) According to requirements of the regulators, to regularly finish the Company's compliance report, and then file with the Board of Directors for them to review.

In the daily work, the Fund Manager will persist in the principle of honesty and dedication in management of the fund assets, continuously conduct and optimize the compliance and supervision work in a more scientific and effective way, and make efforts to prevent risks, so as to seek the best interests for the fund unitholders, as well as to ensure the safety of the funds and the operation compliant with laws.

4.7 Fund Valuation Procedures in the Reporting Period

In order to ensure the net value of the Fund's units is valued in a timely, accurate, fair and reasonable manner and better protect the legitimate rights and interests of Fund's unit holders, the Fund Manager of the Fund shall value the investment categories held by the Fund in accordance with the Accounting Standards for Business Enterprises, relevant provisions of the China Securities Regulatory Commission and relevant guidelines of the Asset Management Association of China, in combination with the provisions of the Fund's fund contract on valuations.

The Company has specially established a Valuation Committee to serve as the major decision-making body for the Company's fund valuations. The Valuation Committee is responsible for organizing the formulation and timely revision of the Fund's valuation policies and procedures and guiding and supervising the whole valuation process. The members of the Valuation Committee have years of experience in securities and funds, are familiar with relevant laws and regulations, and maintain professional competence in fields such as investment, research, risk management, legal compliance and fund valuation operations. There is no significant conflict of interest among the members to the Valuation Committee. The portfolio manager may participate in the discussions on valuation principles and methods, but does not participate in the final decision-making of valuation principles and methods and the execution of daily valuations.

The Fund Manager has entered into service agreements with the China Central Depository & Clearing Co., Ltd. and China Securities Index Co., Ltd. which will respectively provide the valuation data of the securities traded in the inter-bank market and exchanges as agreed.

4.8 Fund Manager's Report on Profit Distribution in the Reporting Period

According to fund related laws, regulations and requirements of the Fund contract and considering the actual operation of the Fund, the Fund did not distribute dividends in the reporting period.

4.9 Warning Regarding the Number of Unitholders and Net Asset Value of the Fund in the Reporting Period

The Fund was not in any situation that the number of Unitholders was less than 200 for 20 consecutive Working Days or the Net Asset Value of the Fund was below RMB50 million Yuan for 20 consecutive Working Days in the reporting period.

§5 Fund Custodian's Report

5.1 Fund Custodian's Report on Compliance and Creditability in the Reporting Period

The Fund Custodian has carried out its duties with due diligence and in strict compliance with the *Law of the People's Republic of China on Securities Investment Funds* and other laws, regulations, the Fund Contract, and the Fund Custodian Agreement in the reporting period. There exist no activities that might jeopardize the interests of the Fund Unitholders in the reporting period.

5.2 Fund Custodian's Report on Compliance and Creditability of the Fund Operation, Fund Net Asset Value Calculation and Profit Distributions in the Reporting Period

In the Fund Manager's operations and investment, Fund Net Asset Value calculation, Unit subscription and redemption price calculation, Fund expenditures and the profit distributions of the Fund, the Fund Custodian has not found any actions that might jeopardize the interests of the Fund Unitholders in the reporting period.

5.3 Fund Custodian’s Report on the Truthfulness, Accuracy and Integrity of the Financial Statement in the Annual Report

The Fund Custodian has reviewed the financial indicators, Net Asset Value performances, profit distributions, and other related content in the financial statement and portfolio report and has deemed them true, accurate and complete in the reporting period.

§6 Audit Report

Title	Auditor’s Report
Recipient	THE UNITHOLDERS OF HSBC JINTRUST DYNAMIC STRATEGY MIXED SECURITIES INVESTMENT FUND
Opinion	<p>What we have audited</p> <p>We have audited the accompanying financial statements of HSBC Jintrust Dynamic Strategy Mixed Securities Investment Fund (hereinafter “HSBC Jintrust Dynamic Strategy Fund”), which comprise:</p> <ul style="list-style-type: none">the balance sheet as at 31 December 2024;the income statement for the year then ended;the statement of changes in net assets (fund net assets) for the year then ended; andnotes to the financial statements. <p>Our opinion</p> <p>In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of HSBC Jintrust Dynamic Strategy Fund as at 31 December 2024, and its financial performance and changes in net assets for the year then ended in accordance with the requirements of Accounting Standards for Business Enterprises (“CASs”) and the current regulations issued and practice guidelines of the fund industry that are allowed by the China Securities Regulatory Commission (hereinafter “CSRC”) and Asset Management Association of China (hereinafter “AMAC”) as stated in the notes to the financial statements.</p>

Title	Auditor's Report
Basis for Opinion	<p>We conducted our audit in accordance with China Standards on Auditing ("CSAs"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.</p> <p>We are independent of HSBC Jintrust Dynamic Strategy Fund in accordance with the Code of Ethics for Professional Accountants of the Chinese Institute of Certified Public Accountants ("CICPA Code"), and we have fulfilled our other ethical responsibilities in accordance with the CICPA Code.</p>
Emphasis of Matter	–
Other Matter	–
Other Information	–
Responsibilities of Management and Those Charged with Governance for the Financial Statements	<p>Management of HSBC Jintrust Fund Management Company Limited, the manager of HSBC Jintrust Dynamic Strategy Fund (hereinafter "Fund Manager"), is responsible for the preparation and fair presentation of these financial statements in accordance with the CASs, the current regulations issued and practice guidelines of the fund industry that are allowed by the CSRC and AMAC, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.</p> <p>In preparing these financial statements, management of Fund Manager is responsible for assessing HSBC Jintrust Dynamic Strategy Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management of Fund Manager either intends to liquidate HSBC Jintrust Dynamic Strategy Fund or to cease operations, or has no realistic alternative but to do so.</p> <p>Those charged with governance of Fund Manager are responsible for overseeing HSBC Jintrust Dynamic Strategy Fund's financial reporting process.</p>

Title	Auditor's Report
Auditor's Responsibilities for the Audit of the Financial Statements	<p data-bbox="309 244 1034 435">Our objectives are to obtain reasonable assurance about whether these financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with CSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.</p> <p data-bbox="309 464 1034 507">As part of an audit in accordance with CSAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:</p> <ul data-bbox="309 536 1034 1257" style="list-style-type: none"> <li data-bbox="309 536 1034 699">• Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. <li data-bbox="309 727 1034 799">• Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of internal control. <li data-bbox="309 828 1034 900">• Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management of Fund Manager. <li data-bbox="309 928 1034 1161">• Conclude on the appropriateness of management of Fund Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on HSBC Jintrust Dynamic Strategy Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in these financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause HSBC Jintrust Dynamic Strategy Fund to cease to continue as a going concern. <li data-bbox="309 1190 1034 1257">• Evaluate the overall presentation (including the disclosures), structure and content of the financial statements, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation. <p data-bbox="309 1286 1034 1378">We communicate with those charged with governance of Fund Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.</p>

7.4 NOTES TO THE FINANCIAL STATEMENTS

7.4.1 FUND BACKGROUND

HSBC Jintrust Dynamic Strategy Mixed Securities Investment Fund (“the Fund”) was successfully launched by HSBC Jintrust Fund Management Company Limited in accordance with the *Securities Investment Funds Law of the People’s Republic of China* and the *Fund Contract of HSBC Jintrust Dynamic Strategy Mixed Securities Investment Fund*, following the official approval from the China Securities Regulatory Commission (“the CSRC”) (Zheng Jian Ji Jin Zi [2007] No.64). The Fund is a contractual open-ended fund with an indefinite operating period. The initial public offering of the Fund raised aggregate net proceeds of RMB5,264,523,342.19 excluding the interest on subscription proceeds. Relevant subscription proceeds were verified by a capital verification report (KPMG-B (2007) CR No.0020) prepared by KPMG Huazhen LLP (special general partnership) (formerly known as KPMG Huazhen CPA Co., Ltd.). The Fund Contract came into effect on 9 April 2007 upon completion of the filing with the CSRC, with total number of units being 5,265,643,757.13 on that day, including the conversion of interest on subscription proceeds during initial offering period into fund units of 1,120,414.94. The Fund has appointed HSBC Jintrust Fund Management Company Limited as its Fund Manager and Bank of Communications Co., Ltd. as its custodian.

In accordance with the *Announcement Concerning the Set-up of New Unit Class of HSBC Jintrust Dynamic Strategy Mixed Securities Investment Fund and the Amendment of Fund Contract* and the updated *Prospectus of HSBC Jintrust Dynamic Strategy Mixed Securities Investment Fund*, starting from 28 June 2016, the Fund is divided into different unit classes for different distribution targets. Class A Units are distributed in the Chinese mainland for the Chinese mainland investors while Class H Units are distributed in Hong Kong for Hong Kong market investors. Class A Units and Class H Units have separately designated fund codes, with their net asset value (“NAV”) per unit and accumulated NAV per unit being calculated and published separately. No switching is allowed between the two unit classes until the Fund Manager makes specific announcement as future conditions allow.

In accordance with the *Announcement Concerning the Set-up of Class C Units of HSBC Jintrust Dynamic Strategy Mixed Securities Investment Fund and the Amendment of Fund Contract and Custody Agreement* and the updated *Prospectus of HSBC Jintrust Dynamic Strategy Mixed Securities Investment Fund*, starting from 1 August 2022, the Fund newly sets up Class C Units, without charging subscription fee, but accruing sales service fee from the fund assets. The Fund's original charging model for Class A and Class H units remains unchanged. Class A and Class C units are both distributed in the Chinese mainland for the Chinese mainland investors, while Class H Units are distributed by Hong Kong distributors for Hong Kong market investors. NAV per unit of Class A, Class C and Class H units is calculated and disclosed separately due to their different charging methods. In accordance with the *Securities Investment Funds Law of the People's Republic of China* and the *Fund Contract of HSBC Jintrust Dynamic Strategy Mixed Securities Investment Fund*, the Fund shall invest in financial instruments including listed stocks (A share stocks and other kinds of stocks in other stock market under the permission of regulator) legally issued and traded within the People's Republic of China, bonds (including government bonds, financial bonds, corporate bonds and convertible bonds that are traded in inter-bank market and exchange market), short-term financial instruments (including bonds, bonds repurchase, central bank bills, cash in bank and short-term financing bond with maturity within one year), cash assets, warrants, asset-backed securities investments and other financial instruments authorized by regulations and laws or the CSRC. The Fund's target asset allocation keeps 30% to 95% of its net assets in stocks, and 5% to 70% in other assets excluding stocks, of which no less than 5% of net assets in cash (excluding settlement deposit, refundable deposit, amounts receivable for subscription of units.) or government bonds with maturity within one year. From the effective date of the fund contract to 31 May 2014, the Fund's performance benchmark was $50\% \times \text{Return Rate of MSCI China A Index yield} + 50\% \times \text{Return Rate of Citic S\&P Composite Bond Index yield}$. Since 1 June 2014, the Fund's performance benchmark has been adjusted to $50\% \times \text{Return Rate of MSCI China A Index yield} + 50\% \times \text{Return Rate of China Bond New Composite Index (Full Price) yield}$. Since 1 March 2018, the MSCI China A Share Index has been renamed as MSCI China A Onshore Index.

The financial statements were approved and issued by its Fund Manager, HSBC Jintrust Fund Management Company Limited on 26 March 2025.

7.4.2 BASIS OF PREPARATION

The financial statements of the Fund were prepared in accordance with the *Basic Standards of the Accounting Standards for Business Enterprises*, the various specific accounting standards, the *Provisions on Accounting Treatment Related to Asset Management Products* and other relevant regulations issued by the Ministry of Finance on 15 February 2006 and thereafter (hereafter referred to as "the Accounting Standards for Business Enterprises" or "CASs"), the *CSRC Announcement XBRL Template of Information Disclosure for Securities Investment Fund No.3 'Annual and Interim Report'*, the *Guidance for the Accounting for Securities Investment Fund* issued by the Asset Management Association of China ("AMAC"), the *Fund Contract of HSBC Jintrust Dynamic Strategy Mixed Securities Investment Fund* and the current practice guidelines of the fund industry that are stated in Note 7.4.4 to the financial statements and allowed by the CSRC and the AMAC.

The financial statements are prepared on a going concern basis.

7.4.3 STATEMENT OF COMPLIANCE WITH THE ACCOUNTING STANDARDS FOR BUSINESS ENTERPRISES AND OTHER RELEVANT REGULATIONS

The financial statements of the Fund for the year ended 31 December 2024 fairly and completely presented the financial position of the Fund as at 31 December 2024, and the operating results and the changes in net assets for the year then ended in compliance with the Accounting Standards for Business Enterprises.

7.4.4 SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES

7.4.4.1 Accounting year

The Fund's accounting year starts on 1 January and ends on 31 December.

7.4.4.2 Recording currency

The recording currency of the Fund is the Renminbi (RMB).

7.4.4.3 Classification of financial assets and financial liabilities

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. A financial asset, a financial liability or an equity instrument is recognized when the Fund becomes a party to the contractual provisions of the instrument.

(1) Financial assets

Financial assets are classified into the following categories at initial recognition: financial assets at amortized cost; financial assets at fair value through other comprehensive income; and financial assets at fair value through profit or loss. The classification of financial assets depends on the business model of the Fund's management of the financial assets and the contractual cash flow characteristics of the financial assets. The Fund has no financial assets at fair value through other comprehensive income.

Debt instruments

The debt instruments held by the Fund refer to the instruments that meet the definition of financial liabilities from the perspective of the issuer, and are measured in the following two categories:

Measured at amortized cost:

The Fund's business model of managing is to hold the financial assets measured at amortized cost is to take the collection of the contractual cash flows as the objective, and the contractual cash flow characteristics are consistent with a basic lending arrangement, which gives rise on specified dates to the contractual cash flows that are solely payments of principal and interest on the principal amount outstanding. Financial assets measured at amortized cost held by the Fund mainly comprise cash in bank, financial assets purchased under agreements to resell and other various receivables.

Measured at fair value through profit or loss:

Debt instruments held by the Fund that do not meet the criteria for amortized cost, are measured at fair value through profit or loss. Financial assets at fair value through profit or loss held by the Fund are mainly bond investments and are listed under trading financial assets in the balance sheet.

Equity instruments

The equity instruments refer to the instruments that meet the definition of equity from the perspective of the issuer. Equity instruments (mainly including stock investments), over which the Fund has no control, joint control or significant influence, are measured at fair value through profit or loss and are listed under trading financial assets in the balance sheet.

(2) Financial liabilities

Financial liabilities are classified as financial liabilities at amortized cost and financial liabilities at fair value through profit or loss at initial recognition. The Fund does not assume any financial liabilities that are classified as financial liabilities at fair value through profit or loss for the time being. Financial liabilities at amortized cost held by the Fund include financial assets sold under agreements to repurchase and other various payables.

(3) Derivative financial instruments

Derivative financial instruments held by the Fund are measured at fair value through profit or loss under derivative financial assets/liabilities in the balance sheet.

7.4.4.4 Initial recognition, subsequent measurement and derecognition of financial assets and financial liabilities

At initial recognition, the financial assets and financial liabilities are measured at fair value. In the case of financial assets and financial liabilities at fair value through profit or loss, related transaction costs are recognized in profit or loss for the current reporting period. Interest of bond investments from the initial accrual date or the last coupon date to the purchase date, shall be recognized as accrued interest and included in the carrying amount of trading financial assets. Transaction costs of other financial assets and financial liabilities are included in their initial recognition amounts.

Financial assets at fair value through profit or loss are subsequently measured at fair value; receivables and other financial liabilities are subsequently measured at amortized cost using the effective interest method.

The Fund recognizes loss provision on the basis of the expected credit losses ("ECL") for financial assets measured at amortized cost.

Giving consideration to reasonable and supportable information about past events, current conditions and forecasts of future economic conditions that is available without undue cost or effort at the balance sheet date, weighted by the probability of default, the Fund recognizes the ECL as the probability-weighted amount of the present value of the difference between the contractual cash flows receivable and the cash flows expected to be collected.

At each balance sheet date, the ECL of financial instruments at different stages is measured respectively. A 12-month ECL provision is recognized for financial instruments in Stage 1 which have not had a significant increase in credit risk since initial recognition; a lifetime ECL provision is recognized for financial instruments in Stage 2 which have had a significant increase in credit risk since initial recognition but are not deemed to be credit-impaired; and a lifetime ECL provision is recognized for financial instruments in Stage 3 that are credit-impaired since initial recognition.

For those financial instruments with a low credit risk as at the balance sheet date, the Fund assumes that there is no significant increase in credit risk since initial recognition. The Fund treats them as financial instruments in Stage 1 and recognizes a 12-month ECL provision. For those financial instruments in Stages 1 and 2, the interest income is calculated by applying the effective interest rate to the carrying balances (before net of any ECL provision). For the financial instrument in Stage 3, the interest income is calculated by applying the effective interest rate and the amortized cost (net of ECL provision) to carrying balances.

The Fund recognizes the provision or reversal for losses in profit or loss for the current reporting period.

Financial assets are derecognized when one of the following conditions is met: (1) the contractual rights to receive cash flows from the investments have expired; (2) the financial assets have been sold and all substantial risks and rewards of ownership of the financial assets have been transferred; (3) when the financial assets have been sold and the Fund neither transfers nor retains substantially all risks or rewards of ownership of the financial asset but has not retained control of the financial asset.

When the financial assets are derecognized, the difference between the carrying amount and the consideration received is recognized in profit or loss for the current reporting period.

The financial liabilities should be derecognized when the current obligations have been wholly or partially relieved. The difference between the carrying amount of the derecognized portion of the financial liability and the consideration paid is recognized in profit or loss for the current reporting period.

7.4.4.5 Valuation principles of financial assets and financial liabilities

Stock and bond investments held by the Fund are measured at fair value as determined by the following principles:

- (1) The fair value of the financial instrument that is traded in an active market is determined by reference to the market price on valuation date. When there is no transaction on valuation date and no material events that would impact the price since the last transaction date, fair value is determined by reference to market price of the most recent transaction date. When sufficient evidence shows that the market price on valuation date or the most recent transaction date cannot truly represent the fair value, fair value will be determined by using the adjusted market price. For the financial instrument of the same investment category with different characteristics, its fair value is determined based on that of identical assets or liabilities and the impact of different characteristics should be taken into consideration in valuation techniques. Characteristics refer to restrictions on the disposal or usage of assets, etc. If the restrictions are against the asset holders, these elements should not be considered as characteristics in valuation techniques. In addition, the Fund Manager should not consider the premium or discount resulting from holding a large quantity of relevant assets or liabilities.
- (2) When there is no active market for a financial instrument, the Fund establishes its fair value by using valuation techniques which are appropriate under the current circumstances as well as supported by sufficient available market data and other information. Using a valuation technique to determine the fair value, the observable inputs are preferred and unobservable inputs will be used only when observable inputs are not available or impractical to be obtained.
- (3) When there is significant change in economic circumstances or material events arising from security issuers that would impact the fair value of financial instruments, fair value is determined by adjusting the valuation.

7.4.4.6 Offsetting of financial assets and financial liabilities

The assets held and the liabilities assumed by the Fund are mostly financial assets and financial liabilities. Financial assets and liabilities are offset and presented in the balance sheet on net basis when: (1) there is a legally enforceable right to offset the recognized amounts and this right can be executed immediately; and (2) when there is an intention on the part of both parties to settle on a net basis.

7.4.4.7 Paid-in capital

Paid-in capital represents the total subscription amounts relating to the total number of units in issue after deducting the amounts that are allocated to equalization of gains/(losses). Changes in paid-in capital resulting from subscriptions and redemptions are recognized on the effective date of the applications for unit subscriptions and redemptions. The aforementioned subscriptions and redemptions include units transferred in and units transferred out respectively as a result of fund switching.

As resaleable instruments, the units issued by the Fund have the following characteristics: (1) the unitholders have the right to obtain the fund net assets in proportion to their units upon liquidation. The fund net assets are the remaining assets after deducting all claims to the Fund's assets that have priority over the units; and the proportion here refers to the equal amount of the Fund's net assets split at the time of liquidation, multiplied by the number of units held by the unitholders; (2) the category to which the instruments belong is subordinate to all other categories, i.e. the Fund's units do not need to be converted into other instruments before they fall into the category, and there is no claim to the Fund's assets over other instruments at the time of liquidation; (3) in the category to which the instruments belong (which is subordinate to all other categories), all instruments have the same characteristics (e.g. all of them must be resaleable and the formula or other methods used to calculate the repurchase or redemption price are the same); (4) the instruments do not have any other characteristics of financial liabilities other than the contractual obligation of the issuer to repurchase or redeem the units of the Fund in cash or by other financial assets; (5) the total estimated cash flows of the instruments over the lifetime should be substantially based on the profit or loss of the Fund, changes in recognized net assets and changes in the fair value of recognized and unrecognized net assets (excluding any impacts of the Fund) over the lifetime.

A resalable instrument is a financial instrument that is contractually obligated to be sold back to the issuer for the right to receive cash or other financial assets or is automatically sold back to the issuer upon the occurrence of an uncertain future event or upon the death or retirement of the holder.

The Fund does not have other financial instruments or contracts that combine the following characteristics: (1) total cash flows are substantially based on the Fund's profit or loss, changes in recognized net assets, and changes in the fair value of recognized and unrecognized net assets (excluding any effects of the Fund or contract); (2) substantially limits or fixes the residual return earned by the holder of the said instrument.

The Fund classified the paid-in capital into equity instruments, and presented it as net assets.

7.4.4.8 Equalization of gains/(losses)

Equalization of gains/(losses) includes equalization of realized gains/(losses) and equalization of unrealized gains/(losses). Equalization of realized gains/(losses) represents part of the issuance price of units issued or redemption proceeds of the units redeemed, which is calculated based on the proportion of accumulated realized gains/(losses) in the net assets, while equalization of unrealized gains/(losses) represents the other part which is calculated based on the proportion of accumulated unrealized gains/(losses) in the net assets. Equalization of gains/(losses) is recognized on the effective date of the applications for unit subscriptions and redemptions, and transferred to undistributed profits/(accumulated losses) at period end.

7.4.4.9 Recognition and measurement of revenue/(losses)

Cash dividends arising from stock investments during the holding period are recognized as investment income, after netting off individual income tax withheld by the stock issuers. Interest on bond investments over the holding period calculated based on coupon rate (interest on discounted debts is calculated at their issuance price) or the contract rate is recognized as investment income, after netting of individual income tax withheld by the bond issuers and value-added tax ("VAT") paid by the Fund Manager under applicable circumstances. The net amount of fair value change of financial assets at fair value through profit or loss during the holding period, after netting of interest over the holding period calculated based on coupon rate (interest on discounted debts is calculated at their issuance price) or the contract rate, is recognized as gains/(losses) from fair value change. The difference between the fair value upon disposal and the initially recognized amount, after netting of related transaction costs, is recognized as investment income upon derecognition, which includes the accumulative fair value change carried forward from gains/(losses) from fair value change. Interest on receivables is accrued by effective interest method over the holding period. Straight-line method can be used if the difference between the amounts determined by straight-line method and effective interest method is relatively insignificant.

7.4.4.10 Recognition and measurement of expenses

Management fee, custodian fee and sales service fee are calculated at rates and formula agreed upon in the Fund Contract over relevant expense covering period daily.

Interest on other financial liabilities measured at amortized cost is accrued by effective interest method over the holding period. Straight-line method can be used if the difference between the amounts determined by straight-line method and effective interest method is relatively insignificant.

7.4.4.11 Profit distribution policy

Each unit within the same class of the Fund is entitled to equal distribution rights. The Fund shall distribute dividend in cash. The unitholders of Class A and Class C can either receive dividend in cash or have the option to reinvest dividend in the form of additional fund units based on the NAV per unit on the ex-dividend date. The unitholders of Class H can only receive dividend in cash. If there are unrealized gains in undistributed profits at period end, including unrealized gains from the Fund's operating activities and equalization of unrealized gains from unit transactions, the realized gains in undistributed profits represents distributable profits. If unrealized losses are incurred in undistributed profits at period end, the entire balance of undistributed profits (realized gains after netting off unrealized losses) represents distributable profits.

Profit distribution is transferred out of net assets on ex-dividend date after the distribution plan is announced.

7.4.4.12 Segment reporting

The Fund identifies operating segments based on the internal organization structure, management requirement and internal reporting, and then discloses segment information of reportable segment which is based on operating segment. An operating segment is the component of the Fund that all of the following conditions are satisfied: (1) that component can earn revenues and incur expenses from ordinary activities; (2) whose operating results are regularly reviewed by the Fund Manager to make decisions about resources to be allocated to the segment and assess its performance; and (3) for which the information of financial position, operating results and cash flows is available to the Fund. If two or more operating segments have similar economic characteristics, and certain conditions are satisfied, they may be aggregated into a single operating segment.

The Fund is operating in one operating segment for the time being and the segment information disclosure is not required.

7.4.4.13 Other significant accounting policies and accounting estimates

In accordance with valuation principles of the Fund and the current practice guidelines of the fund industry that are allowed by the CSRC, valuation methods and related critical assumptions to determine the fair value of the following categories of stock and bond investments are set out below: (1) For listed stocks that are suspended due to significant event or are traded inactively (including inactive trading caused by price limit mechanism), pursuant to the *Guidance to Valuation Practices of Securities Investment Funds* promulgated by the CSRC (CSRC Announcement [2017] No.13), the Fund has adopted "Index Earning Method" or other valuation techniques as referred to in the *Notice on the Issuance of AMAC Fund Industry Stock Valuation Index* based on specific conditions. (2) For restricted negotiable stocks such as non-public offered stocks within lock-up period, stocks publicly offered by shareholders during IPO and stocks with lock-up period obtained through block trade, pursuant to the *Guideline for Valuation of Restricted Negotiable Stocks Invested under Securities Investment Fund (for Trial Implementation)* as appendix to the *Circular on Issuing the 'Guideline for Valuation of Restricted Negotiable Stocks Invested under Securities Investment Fund (for Trial Implementation)'* (Zhong Ji Xie Fa [2017] No.6) issued by the AMAC (hereafter the "Guideline"), the valuation is based on the fair value of the same stock traded on the stock exchange on the valuation date after deducting the amount of the liquidity discount during the remaining lock-up period of the restricted negotiable shares provided by China Securities Index Co., Ltd. independently according to the Guideline. (3) For fixed income securities listed or quoted in the stock exchange (excluding convertible bonds) and fixed income securities traded in inter-bank market, the fair value is determined by using valuation techniques according to the *Guidance to Valuation Practices of Securities Investment Funds* (CSRC Announcement [2017] No.13) promulgated by the CSRC and the *Valuation Standards for Fixed Income Securities* of as appendix to the *Circular on Issuing the 'Valuation Standards for Fixed Income Securities'* under Securities Investment Fund (Zhong Ji Xie Zi [2022] No.566) issued by the AMAC. For the fixed income securities held by the Fund, listed or quoted in the stock exchange (excluding convertible bonds), the fair value is determined by using valuation results provided by China Securities Index Co., Ltd. For those traded in inter-bank market, the fair value is determined by using valuation results provided by ChinaBond Pricing Center Co., Ltd.

7.4.5 EXPLANATION ON THE CHANGES IN ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES AS WELL AS ACCOUNTING ERROR CORRECTION

7.4.5.1 Explanation on changes in accounting policies

There was no change in accounting policies in the current reporting period.

7.4.5.2 *Explanation on changes in accounting estimates*

There was no change in accounting estimates in the current reporting period.

7.4.5.3 *Explanation on the accounting error correction*

There was no accounting error correction in the current reporting period.

7.4.6 TAXATION

As stipulated in Cai Shui [2002] No.128 *Notice on Issues Concerning Taxation on Open-end Securities Investment Funds*; Cai Shui [2008] No.1 *Notice Concerning Certain Preferential Policies on Corporate Income Tax*, Cai Shui [2012] No.85 *Notice on Issues Regarding Implementation of Differentiated Individual Income Tax Policies on Dividends from Listed Companies*, Cai Shui [2015] No.101 *Notice on Issues Concerning Differentiated Individual Income Tax Policies on Dividends from Listed Companies*, Cai Shui [2015] No.125 *Circular Concerning Tax Policy on Fund Mutual Recognition between Mainland and Hong Kong*, Cai Shui [2016] No.36 *Circular on Comprehensively Promoting the Pilot Program of the Collection of Value-added Tax in Lieu of Business Tax*, Cai Shui [2016] No.46 *Circular on Further Specifying the Policies on Financial Industry under the Comprehensive Promotion of the Pilot Collection of Value-added Tax in Lieu of Business Tax*, Cai Shui [2016] No.70 *Supplementary Circular on Value-added Tax Policies on the Inter-bank Transactions of Financial Institutions*, Cai Shui [2016] No.140 *Circular on Value-Added Tax Policies on Finance, Real Estate Development, Education Support and Other Services*, Cai Shui [2017] No.2 *Supplementary Circular on Value-Added Tax Policies on Assets Management Products*, Cai Shui [2017] No.56 *Circular on Issues Concerning Value-added Tax Policies for Asset Management Products*, Cai Shui [2017] No.90 *Circular on Value-added Tax Policies on the Deduction of Input Tax on Rented Fixed Assets and Other Matters* and other relevant fiscal and tax regulations and current industry practice, taxations applicable to the Fund are as follows:

- (1) The Manager of asset management products is regarded as VAT taxpayer for taxable activities during the operation of such products. VAT taxable activities in connection with the operation of asset management products are temporarily subject to simplified tax calculation method at the rate of 3%. For taxable activities occurred during the operation prior to 1 January 2018, VAT is exempted if not yet collected, or otherwise deducted from VAT payable by managers of asset management products for subsequent months. As for fund assets managed by securities investment fund managers, realized gains on sale of stocks and bonds are exempt from VAT. Interest income from government bonds, local government bonds and inter-bank transactions with financial institutions are also exempt from VAT. Interest income and income in the nature of interest generated subsequent to 1 January 2018 are deemed as the sales amount of loan services rendered by the Manager for the operation of asset management products.
- (2) Income from securities market, including realized gains on sale of stocks and bonds, dividend income, interest income on bond investments and other income is temporarily exempt from corporate income tax.

- (3) For the unit class that are held by the Chinese mainland investors, interest income on corporate bonds is subject to 20% individual income taxes that are withheld by the issuers of respective bonds. Individual income tax on dividend income is calculated using differentiated method based on holding period of respective stocks, i.e., dividend income is 100% included as taxable amount for calculation of individual income taxes for a stock holding period of no more than one month (inclusive), 50% included as taxable amount for a stock holding period of one month (exclusive) to one year (inclusive), and exempt from individual tax for a stock holding period of more than one year. For restricted stocks held by the Fund, interests, dividend income obtained after lifting of the restriction is subject to individual income tax in accordance with the above regulations, with holding period being calculated since the date of the lifting; only 50% of interests, dividend income before the lifting is subject to individual income tax temporarily. Individual income tax rate for the above income uniformly is 20%. For the unit class that are held by Hong Kong market investors under Mutual Recognition of Funds Scheme, interest income on corporate bonds is subject to 7% individual income taxes that are withheld by the issuers of respective bonds. Dividend income is subject to 10% individual income taxes that are withheld by the Chinese mainland listed companies.
- (4) Sales of stocks by the Fund are subject to stamp duties at 0.1% of the transacted volume, whilst purchases of stocks are exempt from stamp duties. Pursuant to the *Announcement of the Ministry of Finance and the State Taxation Administration on Halving Stamp Duty on Securities Trading* (Announcement [2023] No.39), the stamp tax for securities trading will be halved from 28 August 2023.
- (5) City maintenance and construction taxes as well as educational surcharges and local educational surcharges are calculated and paid at their respective applicable rates based on actual VAT paid.

7.4.10.2.1 Management fee payable for the period by the Fund

Unit: RMB Yuan

Item	Current reporting period From 1 January 2024 to 31 December 2024	Last comparative period From 1 January 2023 to 31 December 2023
Management fee payable for the period by the Fund	41,519,328.19	98,443,305.70
In which: Customer maintenance fee payable to distributors	17,119,617.11	31,192,372.93
Net management fee payable to Fund Manager	24,399,711.08	67,250,932.77

Note: Management fee is calculated daily at an annual rate of 1.50% of the previous day's closing NAV of the Fund and payable to HSBC Jintrust monthly in arrears. The calculation formula is as follows: Daily management fee = previous day's closing NAV × 1.50%/number of days in the year.

7.4.10.2.2 Custodian fee

Unit: RMB Yuan

Item	Current reporting period From 1 January 2024 to 31 December 2024	Last comparative period From 1 January 2023 to 31 December 2023
Custodian fee payable for the period by the Fund	6,919,888.03	16,407,217.72

Note: The custodian fee is calculated daily at an annual rate of 0.25% of the previous day's closing NAV of the Fund and payable to Bank of Communications monthly in arrears. The calculation formula is as follows: Daily custodian fee = previous day's closing NAV × 0.25%/number of days in the year.

7.4.10.2.3 Sales service fee

Unit: RMB Yuan

Name of related parties that received sales service fee	Current reporting period From 1 January 2024 to 31 December 2024			
	Sales service fee payable for the period by the Fund			
	Class A Units	Class H Units	Class C Units	Total
Bank of Communications	0.00	0.00	7,573.13	7,573.13
HSBC Jintrust	0.00	0.00	0.61	0.61
HSBC Insurance Brokerage	0.00	0.00	12.83	12.83
Total	0.00	0.00	7,586.57	7,586.57

Name of related parties that received sales service fee	Last comparative period From 1 January 2023 to 31 December 2023			
	Sales service fee payable for the period by the Fund			
	Class A Units	Class H Units	Class C Units	Total
Bank of Communications	0.00	0.00	12,999.77	12,999.77
HSBC Jintrust	0.00	0.00	209,958.08	209,958.08
HSBC Insurance Brokerage	0.00	0.00	1.11	1.11
Total	0.00	0.00	222,958.96	222,958.96

Note: Sales service fee is not accrued for Class A Units and Class H Units. Sales service fee for Class C Units is calculated daily at an annual rate of 0.50% of the previous day's closing NAV of the Fund and payable to HSBC Jintrust monthly in arrears, which is then calculated by HSBC Jintrust and paid to distributors. The calculation formula is as follows: Daily sales service fee for Class C Units = previous day's closing NAV × 0.50%/number of days in the year.

7.4.10.3 Bond (repo) transactions with related parties through inter-bank market

None.

7.4.10.4 Units held by related parties

7.4.10.4.1 Units held by the Fund Manager with proprietary capital during the reporting period

None.

7.4.10.4.2 Units held by related parties other than the Fund Manager at the end of the period

None.

7.4.10.5 Balance of cash in bank in the custody of related parties and interest arising thereof

Unit: RMB Yuan

Name of related parties	Current reporting period From 1 January 2024 to 31 December 2024		Last comparative period From 1 January 2023 to 31 December 2023	
	Balance at the end of the period	Interest income for the period	Balance at the end of the period	Interest income for the period
Bank of Communications	143,734,329.15	1,248,407.39	94,816,292.98	1,445,432.27

Note: Bank of Communications takes the custody of the Fund's cash in bank with interest being calculated using inter-bank offering rate.

7.4.10.6 Investments in securities underwritten by related parties during underwriting period

None.

7.4.10.7 Other related party transactions

None.

7.4.11 PROFIT DISTRIBUTION – THE FUND RATHER THAN FIXED-NAV MONETARY MARKET FUNDS

None.

7.4.12.3 Bonds collateralized under bond repurchase agreements at the end of the current reporting period

7.4.12.3.1 Bonds sold under agreements to repurchase in the inter-bank market

None.

7.4.12.3.2 Bonds sold under agreements to repurchase in stock exchanges

None.

7.4.13 RISK MANAGEMENT OF FINANCIAL INSTRUMENTS

7.4.13.1 Risk management policies and organization structure

The Fund's activities expose it to a variety of risks relating to these financial instruments mainly including credit risk, liquidity risk and market risk during day-to-day business operations. The major risk management objectives of the Fund Manager are to limit the above risks to an acceptable level and optimize the balance between risk and reward to ensure the risks and rewards are matched.

The Fund Manager is focused on constructing comprehensive risk management framework. Risk Control and Audit Committee established under the Board of Directors, is responsible for risk management policy making, risk tolerance level setting and deliberating and approving policies of avoiding risks and improving internal control. Risk Control Committee is established at management level, in charge of the implementation of risk management and internal control policies made by the Risk Control and Audit Committee of the Board of Directors. At the operational level, Compliance Department and Risk Management Department are mainly responsible for risk management, coordinating and cooperating with other departments to complete the operational risk management, conduct investment risk analysis and performance evaluation. The Risk Management Department is responsible to the Company's CEO while the Compliance Department reports to the Chief Inspector.

The Fund Manager established a risk management framework with Risk Control Committee as the core, composed by the Chief Inspector, Risk Control Committee, Compliance Department, Risk Management Department and related business departments.

The Fund Manager's risk management methodology for financial instruments is mainly to assess possible loss arising from various risks through qualitative and quantitative analysis. The Fund Manager assesses severity of loss and frequency of loss occurring from qualitative analysis perspective. From quantitative analysis perspective, the Fund Manager determines relevant level of confidence and loss limit with specific quantitative risk indicators, models and daily reports in accordance with the Fund's investment objectives and characteristics of financial instruments held with the Fund. Subsequently, the Fund Manager carries out timely and reliable monitoring, examination and evaluation of various risks and controls risks at acceptable level through relevant strategies.

7.4.13.2 Credit risk

Credit risk refers to the risk that the counterparties fail to fulfil contractual obligations in the transaction of the Fund or the issuers of securities invested by the Fund default or fail to repay principals or interest, etc., which lead to loss or change in return of fund assets. The Fund Manager fully evaluates the credit of the trading counterparty before transacting. All the Fund's bank deposits are under the custody of Bank of Communications, the Fund's custodian, thus minimizing the credit risk associated with the bank deposit. All transactions in the exchange are settled and paid upon delivery with the CSDCC, and therefore the likelihood of default is very small; The Fund evaluates credit of the trading counterparty before transacting in the inter-bank market and restricts the securities delivery method to control the corresponding credit risk. The Fund Manager sets up proper credit risk management procedures, evaluates credit rating of investments to control credit risks arising from security issuers and spreads credit risk concentration through diversification of investments. As at 31 December 2024, the Fund had no bond investment. (31 December 2023: the Fund didn't hold bonds other than government bonds, central bank bills and policy-related financial bonds).

7.4.13.3 Liquidity risk

Liquidity risk refers to the extent of the difficulty to liquidate financial instruments held by the Fund when fulfilling obligations related to financial liabilities. The liquidity risk of the Fund arises partly from the demand from unitholders for the redemption of units and partly from the difficulty to realize its investments in an inactive market or to realize highly concentrated investments in an extreme volatile market at reasonable prices.

For liquidity risks arising from demand for unit redemptions, the Fund Manager closely monitors subscriptions, redemptions and projects liquidity needs on a daily basis to ensure a matched cash position in fund portfolio. In addition, the Fund Manager sets out large redemption clause in the Fund Contract to specify procedures to tackle with redemption applications under abnormal circumstances, thus to control the liquidity risk arising from the arrangement of open-ended subscription and redemption and effectively protect the interest of unitholders.

As at 31 December 2024, all financial liabilities assumed by the Fund were contractually due within one month and bore no interest. Redeemable units (net assets) of the Fund have no fixed maturity and bear no interest. The gross carrying amounts is therefore exactly equal to the undiscounted contractual cash flows.

7.4.13.3.1 Liquidity risk analysis of the Fund's portfolio during the reporting period

The Fund Manager manages the Fund's asset portfolios strictly following the requirements of the *Administrative Measures for Operations of Publicly Offered Securities Investment Funds*, the *Provisions on Liquidity Risk Management of Publicly Offered Open-ended Securities Investment Funds* and other regulations to manage liquidity risk arising from the portfolio of the Fund. The independent Risk Management Department performs on-going monitoring and analysis of liquidity indicators which comprise portfolio concentration indicators, percentage of investments that are restricted for disposal, comprehensive indicators of convertibility into cash within a short time period, etc.

The Fund shall not invest more than 10% of its net assets in securities issued by one company, and the total securities held by the Fund and other funds managed by the Fund Manager shall not exceed 10% of the respective securities issued by one company. The total shares held by the Fund and other open-ended funds managed by the Fund Manager shall not exceed 15% of the tradable shares issued by one listed company. The total shares held by the Fund and all other portfolios managed by the Fund Manager shall not exceed 30% of the tradable shares issued by one listed company (except for open-ended funds investing in securities with full replication of index composition and other special investment portfolios as determined by the CSRC).

Some of securities held by the Fund are listed in stock exchanges with the rest traded in inter-bank market. For those tentatively restricted from been freely traded fund assets, please refer to Note 7.4.12. In addition, the Fund has the ability to borrow short term funds to meet its liquidity needs by entering into repo arrangements, the ceiling of which is normally the fair value of the bonds held by the Fund. The Fund shall not proactively invest more than 15% of its net assets in restricted assets. As at 31 December 2024, the Fund did not hold restricted assets.

The Fund Manager cautiously assesses and evaluates, on a daily basis, the realizable value of assets in the portfolio that can be sold within seven working days to ensure the daily net redemption amount is no greater than the net realizable value of assets realizable within seven working days. As at 31 December 2024, the carrying amount of the realizable assets in the portfolio of the Fund that can be sold within seven working days was greater than the recognized net redemption amount of the day.

To manage the liquidity risk and counterparty risk arising from reverse repo transactions, the Fund Manager rationally disperses the maturity dates of reverse repo transactions and concentration of counterparties, conducts necessary due diligence and rigorous entry management considering counterparties' financial position, solvency and leverage ratio on a look-through basis, etc., and applies transaction limit to different counterparties with dynamic adjustment. Furthermore, the Fund Manager establishes the collateral management system for reverse repo transactions, prudently determines loan-to-value ratio based on collateral type and status, and continuously monitors the risk status and value change to ensure adequacy of collateral at fair value. In the case of reverse repo transactions involving private securities asset management products and other entities as counterparties determined by CSRC, eligible collateral that can be accepted shall fall within the investment scope agreed in the Fund Contract.

7.4.13.4 Market risk

Market risk refers to the possibility of fluctuation in the fair value or future cash flows of financial instruments held by the Fund due to fluctuation in various market price factors. Market risk includes interest rate risk, foreign exchange risk and other price risks.

7.4.13.4.1 Interest rate risk

Interest rate risk refers to the possibility that the fair value or future cash flow of financial instruments fluctuates due to changes in market interest rate. Interest-sensitive financial instruments are all exposed to the risk that the fair value decreases due to increase in market interest rates, among which floating interest rate instruments are exposed to the risk that re-pricing based on market interest rates after each coupon period will affect its future cash flow as well.

The Fund Manager monitors interest sensitivity gap exposed to the Fund on a regular basis and manages the above interest risks by adjusting portfolio duration and other measures.

The majority of the Fund's financial assets and liabilities are non-interest bearing. As a result, the Fund's income and cash flow from operating activities are independent from fluctuations in the prevailing levels of market interest rates to a great extent. The Fund's interest-sensitive assets mainly comprise of cash in bank, settlement deposit and refundable deposit.

7.4.13.4.1.1 Exposure to interest rate risk

Unit: RMB Yuan

End of the current reporting period 31 December 2024	Within 1 year	1 to 5 years	Over 5 years	Non-interest bearing	Total

Interest sensitivity gap	264,882,079.56	–	–	3,770,619,344.60	4,035,501,424.16

Note: The table shows the Fund's assets and liabilities at carrying amounts, categorized by the earlier of contractual re-pricing or maturity dates.

7.4.13.4.1.2 Sensitivity analysis of interest rate risk

As at 31 December 2024, the Fund didn't hold any trading bonds for investment. (31 December 2023: 4.13%) of its net assets in trading bonds measured at their fair value. As a result, the Fund was not subject to significant interest rate risk (31 December 2023: Same).

7.4.13.4.2 Foreign exchange risk

Foreign exchange risk refers to the possibility that the fair value or future cash flow of financial instruments fluctuates due to changes in exchange rate. All assets and liabilities of the Fund are denominated in RMB and, hence, the Fund is not exposed to significant foreign exchange risk.

7.4.13.4.3 Other price risk

Other price risk refers to the possibility that the fair value or future cash flows of financial instruments held by the Fund fluctuate due to changes in market price factors other than interest rates and foreign exchange rates. As the Fund mainly invests in stocks and bonds listed on exchanges or traded in inter-bank market, it is exposed to other price risks arising from business operations or specific events of the individual security issuers and fluctuation in the capital markets in general as well.

During the construction and management of investment portfolio by the Fund Manager, the Fund's other price risks are reduced through diversification of the investment portfolio. In addition, the Fund Manager monitors the prices of securities held by the Fund on a daily basis.

The Fund's other price risks are managed through diversification of the investment portfolio. In the investment portfolio, the stock investment accounts for 30% to 95% of the assets of the Fund. The assets other than stocks account for 5% to 70% of the assets of the Fund, among which the investment proportion of cash (excluding settlement deposits, refundable deposits and amounts receivable for subscription of units,) or government bonds due within a year is no less than 5%. In addition, the Fund Manager monitors the prices of securities held by the Fund on a daily basis and performs risk assessments periodically through various quantitative techniques including VaR (Value at Risk) to testify the potential price risks exposed to the Fund, and, as a result, follow-up and control risk timely and reliably.

7.4.13.4.3.1 Exposure to other price risk

Unit: RMB Yuan

Item	End of the current reporting period 31 December 2024		End of the last year 31 December 2023	
	Fair value	% of NAV	Fair value	% of NAV
Trading financial assets – stock investments	2,213,654,612.07	94.21	3,805,061,457.57	94.29
Trading financial assets – fund investments	–	–	–	–
Trading financial assets – precious metal investments	–	–	–	–
Derivative financial assets – warrant investments	–	–	–	–
Others	–	–	–	–
Total	2,213,654,612.07	94.21	3,805,061,457.57	94.29

7.4.13.4.3.2 Sensitivity analysis of other price risk

Assumption	All variables remaining constant except benchmark (Note 7.4.1)		
Analysis	Change of relevant risk factor	Effect on NAV at balance sheet date (Unit: RMB Yuan)	
		End of the current reporting period 31 December 2024	End of the last year 31 December 2023
	1. Performance benchmark increases by 5% (Note 7.4.1)	350,733,576.54	483,987,218.78
	2. Performance benchmark decreases by 5% (Note 7.4.1)	-350,733,576.54	-483,987,218.78

7.4.14 FAIR VALUE

7.4.14.1 Fair value measurement methods of financial instruments

The level in which fair value measurement is categorized is determined by the level of the fair value hierarchy of the lowest level input that is significant to the entire fair value measurement:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: Unobservable inputs for the asset or liability.

7.4.14.2 Financial instruments measured at fair value on a recurring basis

7.4.14.2.1 Fair value of financial instruments by the level of the fair value hierarchy

Unit: RMB Yuan

The level in which fair value measurement is categorized	End of the current reporting period 31 December 2024	End of the last year 31 December 2023
Level 1	2,213,654,612.07	3,805,061,457.57
Level 2	—	166,590,584.42
Level 3	—	—
Total	2,213,654,612.07	3,971,652,041.99

7.4.14.2.2 Significant changes of fair value levels

The Fund takes the date of occurrence of events that lead to the transfers between levels as the point of time to recognize the transfers.

As for the stocks and bonds listed in exchanges, where there are suspension due to significant event, inactive trading (including inactive trading caused by price limit mechanism), or non-public stocks, etc., the Fund does not classify the relevant stocks and bonds during significant event, or in the period of being inactively traded or restricted in fair value Level 1 from the suspension day to resumption of active trading day; but classified the stocks and bonds in fair value Level 2 or Level 3 based on the unobservable inputs used in valuation adjustment of fair value.

7.4.14.2.3 Balance of Level 3 and its movement

7.4.14.2.3.1 Balance of Level 3 and its movement

Unit: RMB Yuan

Item	Current reporting period From 1 January 2024 to 31 December 2024		
	Trading financial assets		Total
	Bond investments	Stock investments	
Balance at the beginning of the period	–	–	–
Purchase	–	–	–
Sale/Settlement	–	–	–
Transfer into Level 3	–	4,713.69	4,713.69
Transfer out of Level 3	–	2,677.41	2,677.41
Total gain or losses	–	-2,036.28	-2,036.28
In which: Gain or loss included in profit or loss	–	-2,036.28	-2,036.28

Item	Last comparative period From 1 January 2023 to 31 December 2023		
	Trading financial assets		Total
	Bond investments	Stock investments	
Balance at the beginning of the period	–	–	–
Purchase	–	–	–
Sale/Settlement	–	–	–
Transfer into Level 3	–	62,961.62	62,961.62
Transfer out of Level 3	–	45,793.10	45,793.10
Total gain or losses	–	-17,168.52	-17,168.52
In which: Gain or loss included in profit or loss	–	-17,168.52	-17,168.52
Gain or loss included in other comprehensive income	–	–	–
Balance at the end of the period	–	–	–
Changes in unrealized gain or loss included in profit or loss with respect to Level 3 financial assets still held at the end of the current reporting period – gains/(losses) from fair value change	–	–	–

As at 31 December 2024, there were no trading financial assets at Level 3 held by the Fund. (31 December 2023: Same). In 2024, the trading financial assets transferred out of Level 3 were stock investments that became tradable after the lock-up period (2023: Same).

Gain or loss recognized in profit or loss is included in the income statement under the items of gains/(losses) from fair value change, investment income and so on.

7.4.14.3 Explanation on financial instruments measured at fair value on a non-recurring basis

As at 31 December 2024, there were no financial assets measured at fair value on a non-recurring basis held by the Fund (31 December 2023: Same).

7.4.14.4 Explanation on financial instruments not measured at fair value

Financial assets and liabilities not measured at fair value mainly contain receivables and other financial liabilities with minor difference between fair value and carrying amount.

7.4.15 OTHER NOTES THAT FACILITATE THE UNDERSTANDING AND ANALYSIS OF FINANCIAL STATEMENTS

There is no other significant matter to be pointed out as at the balance sheet date.

None.

8.9 The Analysis of Top Five Warrant Investments by Percentage of the Fair Value in the Net Asset Value of the Fund at the End of the Reporting Period

None.

8.10 The Investment Policies of the Stock Index Future Investments of the Fund

None.

8.11 The Details of Trading of Treasury Bond Futures Invested by the Fund at the End of the Reporting Period

8.11.1 The Investment Policies of the Treasury Bond Future Investments of the Fund in the Reporting Period

None.

8.11.2 Investment Assessment of the Treasury Bond Investments of the Fund in the Reporting Period

None.

8.12 Notes of the Investment Portfolio Report

8.12.1 The issuers of the top 10 securities held by the Fund were not under investigation by local regulators at the end of the reporting period, nor had been criticized publicly or punished in the preceding one year before the preparation of this report.

8.12.2 Among the top ten securities invested by the Fund, no invested security was outside of the selectable stock list specified under the Fund Contract.

8.12.3 Composition of Other Assets at the End of the Reporting Period

Unit: CNY

No.	Asset type	Amount
1	Deposits provided	639,205.48
2	Settlement receivable	101,634,268.22
3	Dividend receivables	–
4	Interest receivables	–
5	Subscription money receivables	121,471.81
6	Other receivables	–
7	Deferred expenses	–
8	Others	–
9	Total	102,394,945.51

8.12.4 The Analysis of Convertible Bonds being Held and in the Conversion Period at the End of the Reporting Period

None.

8.12.5 The Details of Top Ten Restricted Stocks of the Fund at the End of the Reporting Period

None.

8.12.6 Other Affixed Descriptions in the Notes of the Investment Portfolio Report

In this investment portfolio report, due to the adoption of rounding, there may be difference between the last numbers of figures of the percentages of market capitalizations in NAV for the sum of all items and the total. Due to the decimal places limit, the percentage of market capitalizations in net assets value may appear to be zero.

Notes: 1. There existed newly decreased participant business units in the reporting period: Guo Sen Securities, added participant business units in the reporting period: Guotai Jun'an Securities.

2. Criteria and Procedures for Selecting Securities Companies to Participate in Securities Transactions

1) Criteria for Selecting Securities Firms to Participate in Securities Transactions

- a. strong financial position, compliant business operations, sound internal control systems, and a good reputation in the industry;
- b. efficient and secure communication facilities and trading facilities for fund securities transactions;

- c. Strong comprehensive financial service capabilities and levels, including but not limited to good research and industry analysis capabilities, being able to provide the company with high-quality reports on macroeconomic trends, industry analysis, market outlook, and individual stock analysis in a timely and comprehensive manner, as well as rich and comprehensive information services; and being able to actively provide good services and support for the company's investment business, information exchange, and other business activities.
- 2) Procedures for Selecting Securities Companies to Participate in Securities Transactions
 - (1) The Investment Department evaluates securities companies based on the above criteria. The securities companies passing the review and getting the approval from the Inspector General and the Risk Control Committee will be selected as service providers for securities transactions.
 - (2) We will sign an agreement with the selected securities companies and notifies the fund custodian.
- 3. According to the Management Regulations for Securities Transaction Costs of Publicly Offered Securities Investment Funds (China Securities Regulatory Commission (CSRC) Announcement [2024] No. 3), as from July 1, 2024, for passive equity funds, transaction commissions can no longer be used to pay for research services, liquidity services, or other fees. For other types of funds, transaction commissions can still be used to pay for research services, but not for any other types of fees.
- 4. The data collection period for this section aligns with the reporting period of this report. The reporting period under HSBC Jintrust Fund Management Co., Ltd. Public Funds Securities Transactions and Commission Payments via Securities Companies (2024) disclosed on our website covers the period from July 1, 2024, to December 31, 2024. Investors are advised to note the difference in the reporting periods.
