§1 Important Notice and Table of Contents

1.1 Important Notice

The Board of Directors and directors of the Fund Manager warrant that there exist no false statements, misleading information or major omissions in this report, and will assume individual and joint responsibility for the truthfulness, accuracy and integrity of the content. This interim report has been approved by over two-thirds of the independent directors and has been signed off by the Chairman.

Bank of Communications Co., Ltd., the Fund Custodian, reviewed the financial indicators, performance of Net Asset Value of the Fund, profit distribution, financial and accounting reports and report of investment portfolio, etc. in this report on 30 August 2024 pursuant to the Fund Contract and guarantees that there exist no false statements, misleading information or major omissions in the content reviewed.

The Fund Manager undertakes to manage and operate the Fund's assets by the principles of honesty, credibility, prudence, diligence and conscientiousness, but does not guarantee that investment in the Fund will be profitable.

Past results of the Fund are not indicative of its future performance. Investment involves risks, and investors should read the Prospectus of the Fund and any updates thereof carefully before making investment decisions.

Hong Kong Securities and Futures Commission's authorization is not a recommendation or endorsement of the Fund nor does it guarantee the commercial merits of the Fund or its performance. It does not mean the Fund is suitable for all investors nor is it an endorsement of its suitability for any particular investor or class of investors.

The financial information in this report has not been audited.

The reporting period started from 1 January 2024 and ended on 30 June 2024.

2.2 Product Description

Investment objectives	The Fund seeks to deliver strong, long-term returns by rationally allocating assets among different asset classes to seize investment opportunities for stocks, bonds and other assets at various market stages in both bullish and bearish markets.
Investment philosophy	<p>1. Active asset allocation strategy</p> <p>The Fund follows the investment philosophy of “right time, right proportion and right stocks” and utilizes both “top-down” and “bottom-up” stock selection methods. In the process of investment decision making, by incorporating information about forecasted global economic growth, inflation and interest, the Fund captures the future trends of China’s stock and bond markets. Moreover, the Fund combines strategic asset allocation with selective timing to flexibly and actively adjust the allocation of the Fund’s assets in stocks, fixed income and cash based on the long-term investment approach. At the same time, the Fund adjusts the types and amounts of specific investment varieties among different asset classes according to the changes in their basic elements participating in the market.</p> <p>2. Stock selection strategy integrating relative and absolute valuation methods</p> <p>Not limited to a single standard of value or growth, the Fund conducts a comprehensive growth and value analysis of stocks and selects listed companies whose valuations and growth levels are underestimated. Growth indicators include primary business revenue growth rate, primary business profit growth rate, price/earnings ratio (P/E), rate of return on equity (ROE), etc. Value indicators include price per book value (P/B), earnings per share (EPS), annual cash flow/share price, dividend yield, etc. Meanwhile, through careful fundamental analysis [financial, corporate governance and structural analysis with CFROI (cash flow return on investment)] as the key indicator and filed research in the company, the Fund is able to select the most suitable investment objectives.</p>
Benchmark for performance comparison	50%* Return Rate of MSCI China A Share Onshore Index + 50%* Return Rate of ChinaBond New Composite Index (full price)
Risk and return characteristics	The Fund is a mixed fund, a type of securities investment fund with medium risks and returns among open-ended funds.

§3 Major Financial Indicators and Net Asset Value Performance

3.1 Major Accounting Data and Financial Indicators

Currency: CNY

3.1.1 Financial Data and Indicators in the reporting period	Reporting period (from 1 January 2024 to 30 June 2024)		
	HSBC Jintrust Dynamic Strategy Mixed Fund Class A	HSBC Jintrust Dynamic Strategy Mixed Fund Class H	HSBC Jintrust Dynamic Strategy Mixed Fund Class C
Income realized in the reporting period	-508,701,491.19	-77,453,734.01	-3,273,073.97
Profit in the reporting period	-635,298,612.53	-90,051,091.11	-7,330,822.07
Net profit per weighted average Fund unit in the reporting period	-0.7452	-0.4424	-1.4610
Net profit return per weighted average Net Asset Value in the reporting period	-24.91%	-23.23%	-48.47%
Net Asset Value Per Fund Unit Growth rate in the reporting period	-20.09%	-20.17%	-20.28%
3.1.2 Financial Data and Indicators at the end of the reporting period	The End of the Reporting period (30 June 2024)		
Distributable profit at the end of the reporting period	1,394,205,347.42	199,157,818.68	4,751,279.76
Distributable profit per fund Unit at the end of the reporting period	1.7427	1.1073	1.7158
Net Asset Value of the Fund at the end of the reporting period	2,194,234,010.40	313,854,580.63	7,521,186.82
Net Asset Value Per Fund Unit at the end of the reporting period	2.7427	1.7450	2.7161
3.1.3 Cumulative Financial Indicators at the end of the reporting period	The End of the Reporting period (30 June 2024)		
Cumulative Net Asset Value per Unit Growth Rate	309.37%	74.50%	-40.92%

Notes:

- ① Income realized in the reporting period represents the balance of the Fund's interest income, investment return, and other income (not including income from change in fair value) after deducting relevant costs and fees and losses of decrease in credit value in the reporting period; the profit in the reporting period represents the balance of the Fund's realized income in the reporting period adding the gain from change in fair value in the reporting period;
- ② Distributable profit at the end of the reporting period refers to the lower of the undistributed profit and the realized income in the undistributed profit in the balance sheet at the end of the reporting period (the figure is the balance at the end of the period instead of the amount incurred in the then-current period);
- ③ The above financial indicators of the Fund are exclusive of subscription fees or fund dealing expenses (e.g., the subscription and redemption fees of the open-ended fund, dividend reinvestment fee, Fund switching fee, etc.), and the actual returns after the deduction of the fees are lower than the figures in the table above;
- ④ The Class H Units of HSBC Jintrust Dynamic Strategy Mixed Securities Investment Fund under the Mutual Recognition of Fund Scheme inceptioned on 28 June 2016. The Class C Units of HSBC Jintrust Dynamic Strategy Mixed Securities Investment Fund inceptioned on 1 August 2022.

3.2.2 Comparison between the Cumulative Net Asset Value Growth Rate per Fund Unit and the Yield Benchmark of Performance Comparison for the Same Period since the Inception of the Fund

HSBC Jintrust Dynamic Strategy Mixed Fund Class A
Chart of historical trend of comparison between the accumulated Fund Net Asset Value per Unit growth rate of and the yield benchmark of performance comparison
(April 9, 2007 to June 30, 2024)

- Notes:1. As stipulated in the Fund Contract, the percentage of stock investment of the Fund is 30%-95% of the Fund's assets. The percentage of other assets investment (exclusive of stocks) is 5%-70% of the Fund assets. The Fund shall make an investment of at least 5% of the Fund's Net Asset Value in cash (not including settlement provisions, guaranteed deposits, subscription amount receivables, etc.) or government bonds with their maturity dates within one year. In addition, as stipulated in the Fund Contract, the Fund shall complete the position building within 6 months from the effective date of the Fund Contract. As at 9 October 2007, all investment percentages of the Fund satisfied the percentages agreed in the Fund Contract.
2. From 9 April 2007 (the effective date of the Fund Contract) to 31 May 2014, the Fund's benchmark of performance comparison was "50%* Return Rate of MSCI China A Share Onshore Index + 50%* Return Rate of CITIC S&P All Bond Index". Since 1 June 2014, the Fund's benchmark of performance comparison has been 50%* Return Rate of MSCI China A Share Onshore Index + 50%* Return Rate of ChinaBond New Composite Index (full price). The calculation of the yield benchmark of performance comparison over the same period has taken into account the income of dividends on shares of constituent stocks of MSCI China A Share Onshore Index which were generated in the reporting period. The return rate of ChinaBond New Composite Index (full price) of the benchmark for performance comparison refers to the return rate of ChinaBond New Composite full price Index (total value) which is calculated by the full price of the bonds. The interest has not been taken into account the income of ChinaBond New Composite full price Index (total value) after the interests of the bonds has been paid.
3. MSCI China A Share Index was renamed as MSCI China A Share Onshore Index on 1 March, 2018.

HSBC Jintrust Dynamic Strategy Mixed Fund Class H
 Chart of historical trend of comparison between the accumulated Fund Net Asset Value
 per Unit growth rate of and the yield benchmark of performance comparison
 (June 28, 2016 to June 30, 2024)

- Notes: 1. As stipulated in the Fund Contract, the percentage of stock investment of the Fund is 30%-95% of the Fund's assets. The percentage of other assets investment (exclusive of stocks) are that 5%-70% of the Fund assets. The Fund shall make an investment of at least 5% of the Fund's Net Asset Value in cash (not including settlement provisions, guaranteed deposits, subscription amount receivables, etc.) or government bonds with their maturity dates within one year.
2. In the reporting period, the Fund's benchmark of performance comparison = 50%* Return Rate of MSCI China A Share Onshore Index + 50%* Return Rate of ChinaBond New Composite Index (full price). The calculation of the yield benchmark of performance comparison over the same period has taken into account the income of dividends on shares of constituent stocks of MSCI China A Share Onshore Index which were generated in the reporting period. The return rate of ChinaBond New Composite Index (full price) of the benchmark for performance comparison refers to the return rate of ChinaBond New Composite full price Index (total value) which is calculated by the full price of the bonds. The interest has not been taken into account the income of ChinaBond New Composite full price Index (total value) after the interest of the bond has been paid.
3. MSCI China A Share Index was renamed as MSCI China A Share Onshore Index on 1 March, 2018.
4. The Class H Units of HSBC Jintrust Dynamic Strategy Mixed Securities Investment Fund under the Mutual Recognition of Funds Scheme arrangement inceptioned on 28 June 2016.

HSBC Jintrust Dynamic Strategy Mixed Fund Class C
 Chart of historical trend of comparison between the accumulated Fund Net Asset Value
 per Unit growth rate of and the yield benchmark of performance comparison
 (August 1, 2022 to June 30, 2024)

- Notes: 1. As stipulated in the Fund Contract, the percentage and scope of stock investment of the Fund are that 30%-95% of the Fund's assets can be invested therein. The percentage and scope of other assets investment (exclusive of stocks) are that 5%-70% of the Fund assets can be invested therein. The Fund shall make an investment of at least 5% of the Fund's Net Asset Value in cash (not including settlement provisions, guarantee deposits paid or subscription amount receivables etc.) or government bonds with their maturity dates within one year.
2. In the reporting period, the Fund's benchmark of performance comparison = 50%* Return Rate of MSCI China A Share Onshore Index + 50%* Return Rate of ChinaBond New Composite Index (full price). The calculation of the return rate of indices over the same period has taken into account the income of dividends on shares of constituent stocks of MSCI China A Share Onshore Index which were generated in the reporting period. ChinaBond New Composite Index (full price) of the benchmark for performance comparison refers to ChinaBond New Composite full price Index (total value) which is calculated by the full price of the bonds. The interest after the bonds paid has not taken into account the income of ChinaBond New Composite full price Index (total value).
3. The Class C Units of HSBC Jintrust Dynamic Strategy Mixed Securities Investment Fund inceptioned on 1 August 2022.

54 Fund Manager's Report

4.1 Introduction to the Fund Manager and Portfolio Manager

4.1.1 Fund Manager's Profile and Fund Management Experience

HSBC Jintrust Fund Management Company Limited, a joint-venture between Shanxi Trust Co., Ltd. and HSBC Global Asset Management (UK) Limited, was founded on November 16, 2005 with approval from the China Securities Regulatory Commission. It is registered in Shanghai and holds RMB200 million Yuan in registration capital. Notes:

1. The appointment date represents the date that Mr. Lu Bin was announced to be the Portfolio Manager by the Fund Manager.
2. Seniority in the securities industry represents the number of working years the Portfolio Manager was engaged in security investment related activities.

4.2 Fund Manager's Report on Compliance and Creditability of the Fund Operation in the Reporting Period

The Fund Manager manages and operates the Fund assets on the principles of honesty, credibility, prudence, diligence and conscientiousness, with a premise of strict risk control in order to maximize the benefits of the Fund Unitholders in strict compliance with the *Law of the People's Republic of China on Securities Investment Funds* and other provisions, regulations formulated by the China Securities Regulatory Commission (the CSRC), and the Fund Contract in the reporting period. There were no activities that might jeopardize the interests of the Fund Unitholders in the reporting period.

4.3 Fund Manager's Special Report on Fair Trading in the reporting period

4.3.1 The Implementation of the Fair Trading Policy

To ensure that different investment portfolios managed by the Fund Manager are treated equally and to fully protect the legal rights and interests of the Fund Unitholders, the Fund Manager stipulated the *Fair Trading Policy of HSBC Jintrust Fund Management Company Limited* (hereinafter referred to as the "*Fair Trading Policy*").

According to the *Fair Trading Policy*, different investment portfolios must be treated equally in the investment management process. Benefit transfers between different investment portfolios directly or through a third party are strictly prohibited. The *Fair Trading Policy* applies to the entire investment process and is used to regulate fund-investment-related activities, including authorisation, research and analysis, investment decision making, trading implementation, and various investment management activities related steps including monitoring on activities and performance evaluation involved in the investment management process.

The controlling methods for fair trading include: 1. fair trading in the exchange market is achieved through the Hang Seng Investment Trading System, which is enforced by the Hang Seng Investment Trading System by the opening of the fair trading process; 2. the inter-bank transaction is allocated by the executive dealer on the principle of price-first and pro rata basis allocation in fair trading, to ensure that each portfolio can achieve fair trading opportunities; 3. for the purchase of bonds in primary market, the transactions in the name of the fund manager, such as the purchase of non-public offering shares, the portfolio manager determines the price and amounts of each portfolio independently before the transaction, and the trading department will allocate the trading results on the principle of price-first and pro rata basis allocation; 4. the use of risk management and performance evaluation system of XQuant, making regular report analysis and checking the fair trade situation.

4.3.2 Special Report on Abnormal Trading

The Fund Manager has stipulated the *Abnormal Trading Monitoring and Reporting Policy of HSBC Jintrust Fund Management Company Limited* (hereinafter referred to as the "*Abnormal Trading Monitoring and Reporting Policy*") to guard against a possible benefit transfer between different investment portfolios and to closely monitor any abnormal trading that might jeopardize the interests of the Fund Unitholders.

In the reporting period, the Fund Manager monitored and analysed the trading of the same investment portfolio and different investment portfolios based on the *Guiding Opinions on the Fair Trading Policy of Securities Investment Fund Management Companies* and *Abnormal Trading Monitoring and Reporting Policy*. No abnormal trading was found in the reporting period.

There existed no circumstance that each investment portfolio trading in a security listed on the open market in one day exceeded 5% of the total trading volume which has the less amount in two of the trading directions of that security on the same day in the reporting period.

4.4 Fund Manager's Report on Investment Strategy and Fund Performance in the Reporting Period

4.4.1 Fund Investment Strategy and Operation Analysis during the Reporting Period

In the first half of 2024, major market indices exhibited significant divergence. The CSI 300 Index rose by 0.89%, the CSI 500 Index fell 8.96%, the CSI 1000 Index slumped 16.84%, the ChiNext Index dropped by 10.99%, and the STAR 50 Index plummeted 16.42%. Sector performance exhibited even greater divergence. Among the CITIC Tier-1 industries, the banking, coal, petroleum and petrochemical, and home appliance sectors saw gains exceeding 10%, while the pharmaceutical, media, trade and retail, computer, consumer services, and comprehensive sectors experienced slump of over 20%. From the market style perspective, capitals are highly concentrated in large-cap value and dividend sectors. In the first half of the year, the CSI 300 Value Index increased by 12.54%, and the CSI Dividend Index rose by 7.75%. The strong risk aversion atmosphere among market participants suppressed the performance of the growth sector.

Companies with significantly divergent market performance this year can be roughly divided into two categories. The first category includes dividend stocks with definite long-term income and profit, as well as high dividend payout ratios. Amid a sharp decline in risk-free interest rates, the market first embraced these companies with high future profitability and industry certainty, reflecting low-risk appetite of the entire market. The second category includes lower-ranking high-quality growing industries in terms of performance of this year that we have long focused on, such as technology, pharmaceuticals, new energy, and advanced manufacturing. As the market evolves, the dividend yield of the companies in the first category has already significantly decreased, and their valuations are at historical highs. In contrast, the valuations of some growth-oriented companies in the second category have fallen below those of the first category, yet seeing ascending performance resilience in mid to long-term, highlighting their allocation value and potential for outstanding performance in the future. Based on the comparisons between the fundamentals and valuation, the portfolio maintains a growth-oriented allocation style.

4.4.2 Fund Performance in the Reporting Period

The Fund's Net Asset Value per Unit growth rate of Class A was -20.09% in the reporting period, whilst the performance benchmark was 0.83% in the same period. The performance of Class A underperformed its benchmark yield by 20.92%. The Fund's Net Asset Value per Unit growth rate of Class H was -20.17% in the reporting period, whilst the performance benchmark was 0.83% in the same period. The performance of Class H underperformed its benchmark yield by 21.00%. The Fund's Net Asset Value per Unit growth rate of Class C was -20.28% in the reporting period, whilst the performance benchmark was 0.83% in the same period. The performance of Class C underperformed its benchmark yield by 21.11%.

4.5 Outlook on the Macro Economy, Securities Market and Industrial Trends

The economy has been gradually recovering since the beginning of this year, with a structure featuring strong quantity and weak pricing, stronger upstream prices than downstream, as well as higher willingness of household saving than consumption. Though the strategy of maintaining steady growth while pursuing structural transformation resulted in certain short term pressure, the overall economic prosperity level remains stable, and the new engine for long term development is gaining momentum. Domestic monetary policy has maintained relatively loose tone, but the actual interest rates were still at historically high levels. Meanwhile, the fiscal policy efforts have slightly fallen short of the expectations at the beginning of the year, which is a focus for supporting the economy in the second half of the year. Against the backdrop of easing overseas macro liquidity, the market is expected to gain confidence in long-term economic development. Currently, the overall equity market is experiencing low volatility, with attractive mid-to-long-term implied ROI. As market sentiment restores, the funds flowing out of the growth sector due to extreme risk aversion is likely to recover, and more performance certainty and resilience will be potentially unlocked in growth-oriented investment opportunities.

As the investment approach of HSBC Jinxin Dynamic Strategies Fund, the portfolio is constructed by identifying targeted sectors based on the valuation and the industry cycle, meanwhile selecting individual stocks from a relatively mesoscopic and bottom-up perspective based on the fundamentals of the sectors and companies. In a context of economy stabilization and restoration but with limited flexibility, the overall preference is given to sectors with short-term profit improving resilience as well as those with long-term development potential, including the new energy industry chain, TMT sector, pharmaceutical industry, and cyclical sectors.

4.6 Fund Valuation Procedures in the Reporting Period

In order to ensure the net value of the Fund's units is valued in a timely, accurate, fair and reasonable manner and better protect the legitimate rights and interests of Fund's unit holders, the Fund Manager of the Fund shall value the investment categories held by the Fund in accordance with the Accounting Standards for Business Enterprises, relevant provisions of the China Securities Regulatory Commission and relevant guidelines of the Asset Management Association of China, in combination with the provisions of the Fund's fund contract on valuations.

The Company has specially established a Valuation Committee to serve as the major decision-making body for the Company's fund valuations. The Valuation Committee is responsible for organizing the formulation and timely revision of the Fund's valuation policies and procedures and guiding and supervising the whole valuation process. The members of the Valuation Committee have years of experience in securities and funds, are familiar with relevant laws and regulations, and maintain professional competence in fields such as investment, research, risk management, legal compliance and fund valuation operations. There is no significant conflict of interest among the members to the Valuation Committee. The portfolio manager may participate in the discussions on valuation principles and methods, but does not participate in the final decision-making of valuation principles and methods and the execution of daily valuations.

The Fund Manager has entered into service agreements with the China Central Depository & Clearing Co., Ltd. and China Securities Index Co., Ltd. which will respectively provide the valuation data of the securities traded in the inter-bank market and exchanges as agreed.

4.7 Fund Manager's Report on Profit Distribution in the reporting period

According to relevant laws, regulations and requirements of the Fund contract and considering the actual operation of the Fund, the Fund did not distribute dividends in the reporting period,

4.8 Warning regarding Number of Unitholders and Net Asset Value of the Fund in the Reporting Period

The Fund was not in any situation that the number of Unitholders was less than 200 for 20 consecutive Working Days or the Net Asset Value of the Fund was below RMB50 million Yuan for 20 consecutive Working Days in the reporting period.

§5 Fund Custodian's Report

5.1 Fund Custodian's Report on Compliance and Creditability in the Reporting Period

The Fund Custodian has carried out its duties with due diligence and in strict compliance with the *Law of Securities Investment Funds* and other relevant laws and regulations, the Fund Contract, and the Fund Custodian Agreement in the reporting period. There existed no activities that might jeopardize the interests of the Fund Unitholders in the first half of 2024.

5.2 Fund Custodian's Report on Compliance and Creditability of the Fund Operation, Fund Net Asset Value Calculation and Profit Distributions in the Reporting Period

In the Fund Manager's operations and investment, Net Asset Value calculation, Unit subscription and redemption price calculation, Fund expenditures and the profit distributions of the Fund, the Fund Custodian has not found any actions that might jeopardize the interests of the Fund Unitholders in the first half of 2024.

5.3 Fund Custodian's Report on the Truthfulness, Accuracy and Integrity of the Financial Statement in the Report

The Fund Custodian has reviewed the financial indicators, Net Asset Value performances, profit distributions, and other related content in the financial statement and portfolio report in this interim report for the first half of 2024 prepared by the Fund Manager and has deemed them true, accurate and integral in the reporting period.

6.4 NOTES TO THE FINANCIAL STATEMENTS

6.4.1 FUND BACKGROUND

HSBC Jintrust Dynamic Strategy Mixed Securities Investment Fund (“the Fund”) was successfully launched by HSBC Jintrust Fund Management Company Limited in accordance with the *Securities Investment Funds Law of the People’s Republic of China* and the *Fund Contract of HSBC Jintrust Dynamic Strategy Mixed Securities Investment Fund*, following the official approval from the China Securities Regulatory Commission (“the CSRC”) (Zheng Jian Ji Jin Zi [2007] No. 64). The Fund is a contractual open-ended fund with an indefinite operating period. The initial public offering of the Fund raised aggregate net proceeds of RMB5,264,523,342.19 excluding the interest on subscription proceeds. Relevant subscription proceeds were verified by a capital verification report (KPMG-B (2007) CR No.0020) prepared by KPMG Huazhen LLP (special general partnership) (formerly known as KPMG Huazhen CPA Co., Ltd.). The *Fund Contract of HSBC Jintrust Dynamic Strategy Mixed Securities Investment Fund* came into effect on 9 April 2007 upon completion of the filing with the CSRC, with total number of units being 5,265,643,757.13 on that day, including the conversion of interest on subscription proceeds during initial offering period into fund units of 1,120,414.94. The Fund has appointed HSBC Jintrust Fund Management Company Limited as its Fund Manager and Bank of Communications Co., Ltd. as its custodian.

In accordance with the *Announcement Concerning the Set-up of New Unit Class of HSBC Jintrust Dynamic Strategy Mixed Securities Investment Fund and the Amendment of Fund Contract* and the updated *Prospectus of HSBC Jintrust Dynamic Strategy Mixed Securities Investment Fund*, starting from 28 June 2016, the Fund is divided into different unit classes for different distribution targets. Class A Units are distributed in the Chinese mainland for the Chinese mainland investors while Class H Units are distributed in Hong Kong for Hong Kong market investors. Class A Units and Class H Units have separately designated fund codes, with their net asset value (“NAV”) per unit and accumulated NAV per unit being calculated and published separately. No switching is allowed between the two unit classes until the Fund Manager makes specific announcement as future conditions allow.

In accordance with *Announcement Concerning the Set-up of Class C Units of HSBC Jintrust Dynamic Strategy Mixed Securities Investment Fund* and the *Amendment of Fund Contract and Custodian Agreement and the updated Prospectus of HSBC Jintrust Dynamic Strategy Mixed Securities Investment Fund*, starting from 1 August 2022, the Fund newly sets up Class C Units, without charging subscription fee, but accruing sales service fee from the fund assets. The Fund's original charging model for Class A and Class H units remains unchanged. Class A and Class C units are both distributed in the Chinese mainland for the Chinese mainland investors, while Class H Units are distributed by Hong Kong distributors for Hong Kong market investors. NAV per unit of Class A, Class C and Class H units is calculated and disclosed separately due to their different charging methods. In accordance with the *Securities Investment Funds Law of the People's Republic of China* and the *Fund Contract of HSBC Jintrust Dynamic Strategy Mixed Securities Investment Fund*, the Fund shall invest in financial instruments including listed stocks (A share stocks and other kinds of stocks in other stock market under the permission of regulator) legally issued and traded within the People's Republic of China, bonds (including government bonds, financial bonds, corporate bonds and convertible bonds that are traded in inter-bank market and exchange market), short-term financial instruments (including bonds, bonds repurchase, central bank bills, cash in bank and short-term financing bond with maturity within one year), cash assets, warrants, asset-backed securities investments and other financial instruments authorized by regulations and laws or the CSRC. The Fund's target asset allocation keeps 30% to 95% of its net assets in stocks, and 5% to 70% in other assets excluding stocks, of which no less than 5% of net assets in cash (excluding settlement deposit, refundable deposit, amounts receivable for subscription of units, etc.) or government bonds with maturity within one year. From the effective date of the Fund Contract to 31 May 2014, the Fund's performance benchmark was $50\% \times \text{Return Rate of MSCI China A Index yield} + 50\% \times \text{Return Rate of Citic S\&P Composite Bond Index yield}$. Since 1 June 2014, the Fund's performance benchmark has been adjusted to $50\% \times \text{Return Rate of MSCI China A Index yield} + 50\% \times \text{Return Rate of China Bond New Composite Index (Full Price) yield}$. Since 1 March 2018, the MSCI China A Share Index has been renamed as MSCI China A Onshore Index.

The financial statements were approved and issued by its Fund Manager, HSBC Jintrust Fund Management Company Limited on 30 August 2024.

6.4.2 BASIS OF PREPARATION

The financial statements of the Fund were prepared in accordance with the *Basic Standards of the Accounting Standards for Business Enterprises* promulgated by the Ministry of Finance on 15 February 2006, the specific accounting standards, the *Provisions on Accounting Treatment Related to Asset Management Products* and other relevant regulations issued thereafter (hereafter referred to as "the Accounting Standard for Business Enterprises" or "CAS"), the *CSRC Announcement XBRL Template of Information Disclosure for Securities Investment Fund No.3 'Annual and Interim Report'*, the *Guidance for the Accounting for Securities Investment Fund* issued by the Asset Management Association of China ("AMAC"), the *Fund Contract of HSBC Jintrust Dynamic Strategy Mixed Securities Investment Fund* and the current practice guidelines of the fund industry that are stated in notes to the financial statements and allowed by the CSRC and the AMAC.

The financial statements are prepared on an on-going concern basis.

6.4.3 STATEMENT OF COMPLIANCE WITH THE ACCOUNTING STANDARDS FOR BUSINESS ENTERPRISES AND OTHER RELEVANT REGULATIONS

The financial statements of the Fund for the six months ended 30 June 2024 fairly and completely presented the financial position of the Fund as at 30 June 2024, and the operating results and the changes in net assets for the six months then ended in compliance with the Accounting Standards for Business Enterprises.

6.4.4 EXPLANATION OF THE CONSISTENCY BETWEEN THE ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES EMPLOYED IN THE REPORTING PERIOD AND THOSE ADOPTED IN THE LATEST ANNUAL REPORT

The accounting policies and accounting estimates employed in the financial statements are consistent with those adopted in the financial report of prior year.

6.4.5 EXPLANATION ON THE CHANGES IN ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES AS WELL AS ACCOUNTING ERROR CORRECTION

6.4.5.1 Explanation on changes in accounting policies

There was no change in accounting policies in the current reporting period.

6.4.5.2 Explanation on changes in accounting estimates

There was no change in accounting estimates in the current reporting period.

6.4.5.3 Explanation on the accounting error correction

There was no accounting error correction required to be clarified in the current reporting period.

6.4.6 TAXATION

As stipulated in Cai Shui [2002] No.128 *Notice on Issues Concerning Taxation on Open-end Securities Investment Funds*; Cai Shui [2008] No.1 *Notice Concerning Certain Preferential Policies on Corporate Income Tax*, Cai Shui [2012] No.85 *Notice in Issues Regarding Implementation of Differentiated Individual Income Tax Policies on Dividends from Listed Companies*, Cai Shui [2015] No.101 *Notice on Issues Concerning Differentiated Individual Income Tax Policies on Dividends from Listed Companies*, Cai Shui [2015] No.125 *Circular Concerning Tax Policy on Fund Mutual Recognition between Mainland and Hong Kong*, Cai Shui [2016] No.36 *Circular on Comprehensively Promoting the Pilot Program of the Collection of Value-added Tax in Lieu of Business Tax*, Cai Shui [2016] No.46 *Circular on Further Specifying the Policies on Financial Industry under the Comprehensive Promotion of the Pilot Collection of Value-added Tax in Lieu of Business Tax*, Cai Shui [2016] No.70 *Supplementary Circular on Value-added Tax Policies on the Interbank Transactions of Financial Institutions*, Cai Shui [2016] No.140 *Circular on Value-Added Tax Policies on Finance, Real Estate Development, Education Support and Other Services*, Cai Shui [2017] No.2 *Supplementary Circular on Value-Added Tax Policies on Assets Management Products*, Cai Shui [2017] No.56 *Circular on Issues Concerning Value-added Tax Policies for Asset Management Products*, Cai Shui [2017] No.90 *Circular on Value-added Tax Policies on the Deduction of Input Tax on Rented Fixed Assets and Other Matters* and other relevant fiscal and tax regulations and current industry practice, taxations applicable to the Fund are as follows:

- (1) The Manager of asset management products is regarded as VAT taxpayer for taxable activities during the operation of such products. VAT taxable activities in connection with the operation of asset management products are temporarily subject to simplified tax calculation method at the rate of 3%. For taxable activities occurred during the operation prior to 1 January 2018, VAT is exempted if not yet collected, or otherwise deducted from VAT payable by managers of asset management products for subsequent months.

As for fund assets managed by securities investment fund managers, realized gains on sale of stocks and bonds are exempt from VAT. Interest income from government bonds, local government bonds and interbank transactions with financial institutions are also exempt from VAT. Interest income and income in the nature of interest generated subsequent to 1 January 2018 are deemed as the sales amount of loan services rendered by the Manager for the operation of asset management products.

- (2) Income from securities market, including realized gains on sale of stocks and bonds, dividend income, interest income on bond investments and other income is temporarily exempt from corporate income tax.
- (3) For the unit class that are held by the Chinese mainland investors, interest income on corporate bonds is subject to 20% individual income taxes that are withheld by the issuers of respective bonds. Individual income tax on dividend income is calculated using differentiated method based on holding period of respective stocks, i.e., dividend income is 100% included as taxable amount for calculation of individual income taxes for a stock holding period of no more than one month (inclusive), 50% included as taxable amount for a stock holding period of one month (exclusive) to one year (inclusive), and exempt from individual tax for a stock holding period of more than one year. For restricted stocks held by the Fund, interests, dividend income obtained after lifting of the restriction is subject to individual income tax in accordance with the above regulations, with holding period being calculated since the date of the lifting; only 50% of interests, dividend income before the lifting is subject to individual income tax temporarily. Individual income tax rate for the above income uniformly is 20%.

For the unit class that are held by Hong Kong market investors under Mutual Recognition of Funds Scheme, interest income on corporate bonds is subject to 7% individual income taxes that are withheld by the issuers of respective bonds. Dividend income is subject to 10% individual income taxes that are withheld by the Chinese mainland listed companies.

- (4) Sale of stocks by the Fund are subject to stamp duties at 0.1% of the transacted volume, whilst purchases of stocks are exempt from stamp duties. According to the Announcement of the Ministry of Finance and the State Administration of Taxation [2023] No. 39 on Halving the Stamp Duty on Securities Transactions, the stamp duty on securities transactions will be halved from August 28, 2023.
- (5) City maintenance and construction taxes as well as educational surcharges and local educational surcharges are calculated and paid at their respective applicable rates based on actual VAT paid.

Item	Current reporting period From 1 January 2024 to 30 June 2024
Compensation income from unit redemptions	1,081,800.76
Compensation income from fund switching	29,417.73
Total	1,111,218.49

Notes:

1. The redemption fee of Class A Units with a holding period less than 7 days is calculated at 1.5% of the redemption proceeds, and the total amount of the redemption fee is payable to the Fund. For Class A Units with a holding period of 7 days and above, redemption fee will be charged at the rate of 0.5%, of which at least 25% is payable to the Fund and the rest is used to pay the registration fee and other necessary commission fee. The switching fee of Class A Units comprises compensation fee for subscription and redemption fee. The portion of redemption fee that is payable to the Fund switched out is determined in accordance with the aforementioned rules.
2. In accordance with the *Announcement Concerning the Set-up of Class C Units of HSBC Jintrust Dynamic Strategy Mixed Securities Investment Fund and the Amendment of Fund Contract and Custodian Agreement and the updated Prospectus of HSBC Jintrust Dynamic Strategy Mixed Securities Investment Fund*, starting from 1 August 2022, the Fund newly sets up Class C Units. The redemption fee of Class C Units with a holding period less than 7 days is calculated at 1.5% of the redemption proceeds, and the total amount of the redemption fee is payable to the Fund. For Class C Units with a holding period of 7 days and above but less than 30 days, redemption fee will be charged at the rate of 0.5%, of which the total amount is payable to the Fund. No redemption fee is charged for Class C Units with a holding period of 30 days and above. The switching fee of Class C Units comprises compensation fee for subscription and redemption fee. The portion of redemption fee that is payable to the Fund switched out is determined in accordance with the aforementioned rules.
3. The redemption fee of Class H Units is calculated at 0.13% of the redemption proceeds, 100% of which is payable to the Fund. Class H Units currently are not available for switching in or out.

6.4.7.18 Other expenses

Custodian fee payable for the period by the Fund	3,669,589.55	9,767,853.69

Note: The custodian fee is calculated daily at an annual rate of 0.25% of the previous day's closing NAV of the Fund and payable to Bank of Communications monthly in arrears. The calculation formula is as follows: Daily custodian fee = previous day's closing NAV × 0.25%/number of days in the year.

6.4.10.2.3 Sales service fee

Unit: RMB Yuan

Name of related parties that received sales service fee	Current reporting period From 1 January 2024 to 30 June 2024			
	Sales service fee payable for the period by the Fund			
	Class A Units	Class H Units	Class C Units	Total
Bank of Communications	0.00	0.00	3,971.05	3,971.05
HSBC Insurance	0.00	0.00	7.75	7.75
HSBC Jintrust	0.00	0.00	0.41	0.41
Total	0.00	0.00	3,979.21	3,979.21

Name of related parties that received sales service fee	Last comparative period From 1 January 2023 to 30 June 2023			
	Sales service fee payable for the period by the Fund			
	Class A Units	Class H Units	Class C Units	Total
Bank of Communications	0.00	0.00	7,264.26	7,264.26
HSBC Insurance	0.00	0.00	0.00	0.00
HSBC Jintrust	0.00	0.00	182,193.75	182,193.75
Total	0.00	0.00	189,458.01	189,458.01

Note: Sales service fee for Class C Units is calculated daily at an annual rate of 0.50% of the previous day's closing NAV of the Fund and payable to HSBC Jintrust monthly in arrears, which is then calculated by HSBC Jintrust and paid to distributors. Sales service fee is not accrued for Class A Units and Class H Units, and Class C fund unit holders agree on an annual fund sales service rate of 0.50%. The calculation formula is as follows: Daily sales service fee for Class C Units = previous day's closing NAV for Class C fund units × 0.50%/number of days in the year.

6.4.10.3 Bond (repo) transactions with related parties through inter-bank market

None.

6.4.10.4 Units held by related parties

6.4.10.4.1 Units held by the Fund Manager with proprietary capital during the reporting period

None.

6.4.10.4.2 Units held by related parties other than the Fund Manager at the end of the period

None.

6.4.10.5 Balance of cash in bank in the custody of related parties and interest arising thereof

Unit: RMB Yuan

Name of related parties	Current reporting period From 1 January 2024 to 30 June 2024		Last comparative period From 1 January 2023 to 30 June 2023	
	Balance at the end of the period	Interest income for the period	Balance at the end of the period	Interest income for the period
Bank of Communications	167,239,922.29	635,421.47	277,031,277.33	950,354.63

Note: Bank of Communications takes the custody of the Fund's cash in bank with interest being calculated using inter-bank offering rate.

None.

6.4.12 RESTRICTED SECURITIES HELD BY THE FUND AT END OF THE CURRENT REPORTING PERIOD (30 JUNE 2024)

6.4.12.1 *Securities restricted after initial/additional public offerings held by the Fund at the end of the period*

Unit: RMB Yuan

6.4.12.1.1 Restricted securities type: stock

Securities code	Securities name	Subscription date	Restriction period	Restriction type	Subscription price	PE closing price	Quantity (unit: shares)	Total PE cost	Total PE valuation	Remarks
001379	Tengda Technology	2024-01-11	6 months	Initial public offering restrictions	16.98	13.48	213	3,616.74	2,871.24	-

Note: The Fund is entitled to use the stock account opened under the Fund, and opts to subscribe new stocks online or offline. The portion of stocks newly allocated to the Fund via offline subscription that needs to be restricted or the stocks newly acquired by the Fund as a strategic investor are not allowed to be traded freely within definite period after IPO. The stocks newly allocated to the Fund via online subscription cannot be freely transferred during the period from the allocation day to IPO day for the new stocks.

6.4.12.2 *Suspended and other restricted stocks held by the Fund at the end of the current reporting period*

None.

6.4.12.3 *Bonds collateralized under bond repurchase agreements at the end of the current reporting period*

6.4.12.3.1 Bonds sold under agreements to repurchase in the inter-bank market

None.

6.4.12.3.2 Bonds sold under agreements to repurchase in stock exchanges

None.

6.4.13 RISK MANAGEMENT OF FINANCIAL INSTRUMENTS

6.4.13.1 *Risk management policies and organization structure*

The Fund's activities expose it to a variety of risks relating to these financial instruments mainly including credit risk, liquidity risk and market risk during day-to-day business operations. The major risk management objectives of the Fund Manager are to limit the above risks to an acceptable level and optimize the balance between risk and reward to ensure the risks and rewards are matched.

The Fund Manager is focused on constructing comprehensive risk management framework. The Risk Control and Audit Committee established under the Board of Directors, is responsible for risk management policy making, risk tolerance level setting and deliberating and approving policies of avoiding risks and improving internal control. The Risk Control Committee is established at management level, in charge of the implementation of risk management and internal control policies made by the Risk Control and Audit Committee of the Board of Directors. At the operational level, the Compliance Department and Risk Management Department are mainly responsible for risk management, coordinating and cooperating with other departments to complete the operational risk management, conduct investment risk analysis and performance evaluation. The Risk Management Department is responsible to the Company's CEO while the Compliance Department reports to the Chief Inspector.

The Fund Manager established a risk management framework with the Risk Control Committee as the core, composed by the Chief Inspector, Risk Control Committee, Compliance Department, Risk Management Department and related business departments.

The Fund Manager's risk management methodology for financial instruments is mainly to assess possible loss arising from various risks through qualitative and quantitative analysis. The Fund Manager assesses severity of loss and frequency of loss occurring from qualitative analysis perspective. From quantitative analysis perspective, the Fund Manager determines relevant level of confidence and loss limit with specific quantitative risk indicators, models and daily reports in accordance with the Fund's investment objectives and characteristics of financial instruments held with the Fund. Subsequently, the Fund Manager carries out timely and reliable monitoring, examination and evaluation of various risks and control risks at acceptable level through relevant strategies.

6.4.13.2 Credit risk

Credit risk refers to the risk that the counterparties fail to fulfil contractual obligations in the transaction of the Fund or the issuers of securities invested by the Fund default or fail to repay principals or interest etc., which lead to loss or change in return of fund assets.

The Fund Manager fully evaluates the credit of the trading counterparty before transacting. All the Fund's bank deposits are under the custody of Bank of Communications, the Fund's custodian, thus minimizing the credit risk associated with the bank deposit. All transactions in the exchange are settled and paid upon delivery with the CSDCC, and therefore the likelihood of default is very small; The Fund evaluates the credit of the trading counterparty before transacting in the inter-bank market and restrict the securities delivery method to control the corresponding credit risk.

The Fund Manager sets up proper credit risk management procedures, evaluates credit rating of investments to control credit risks arising from security issuers and spreads credit risk concentration through diversification of investments.

As at 30 June 2024, the Fund didn't hold bonds other than government bonds, central bank bills and policy-related financial bonds (31 December 2023: Same).

6.4.13.3 Liquidity risk

Liquidity risk refers to the extent of the difficulty to liquidate financial instruments held by the Fund when fulfilling obligations related to financial liabilities. The liquidity risk of the Fund arises partly from the demand from unitholders for the redemption of units from time to time and partly from the difficulty to realize its investments in an inactive market or to realize highly concentrated investments in an extreme volatile market at reasonable prices.

For liquidity risks arising from demand for unit redemptions, the Fund Manager closely monitors subscriptions and redemptions, and projects liquidity needs on a daily basis to ensure a matched cash position in fund portfolio. In addition, the Fund Manager sets out large redemption clause in the Fund Contract to specify procedures to tackle with redemption applications under abnormal circumstances, thus to control the liquidity risk arising from the arrangement of open-ended subscription and redemption and effectively protect the interest of unitholders.

As at 30 June 2024, all financial liabilities assumed by the Fund were contractually due within one month and bore no interest. Redeemable units (net assets) of the Fund have no fixed maturity and bear no interest. The carrying balances therefore exactly equal to the undiscounted contractual cash flows.

6.4.13.3.1 Liquidity risk analysis of the Fund's portfolios during the reporting period

The Fund Manager manages the Fund's portfolios strictly following the requirements of *Administrative Measures for Operations of Publicly Offered Securities Investment Funds*, *Provisions on Liquidity Risk Management of Publicly Offered Open-ended Securities Investment Funds* and other regulations to manage liquidity risk arising from the portfolio of the Fund. The independent Risk Management Department performs on-going monitoring and analysis of liquidity indicators which comprise portfolio concentration indicators, percentage of investments that are restricted for disposal, comprehensive indicators of convertibility into cash within a short time period, etc.

The Fund shall not invest more than 10% of its net assets in securities issued by one company, and the total securities held by the Fund and other funds managed by the Fund Manager shall not exceed 10% of the respective securities issued by one company. The total shares held by the Fund and other open-ended funds managed by the Fund Manager shall not exceed 15% of the tradable shares issued by one listed company. The total shares held by the Fund and all other portfolios managed by the Fund Manager shall not exceed 30% of the tradable shares issued by one listed company (except for open-ended funds investing in securities with full replication of index composition and other special investment portfolios as determined by the CSRC).

Some of securities held by the Fund are listed in stock exchanges with the rest traded in inter-bank market. For those tentatively restricted from been freely traded fund assets, please refer to Note 6.4.12. In addition, the Fund has the ability to borrow short term funds to meet its liquidity needs by entering into repo arrangements, the ceiling of which is normally the fair value of the bonds held by the Fund. The Fund shall not proactively invest more than 15% of its net assets in restricted assets. As at 30 June 2024, the estimated value of the Fund's assets with restriction on liquidity accounted for 0.0001% of its NAV.

The Fund Manager cautiously assesses and evaluates, on a daily basis, the realizable value of assets in the portfolio that can be sold within seven working days to ensure the daily net redemption amount is no greater than the net realizable value of assets realizable within seven working days. As at 30 June 2024, the carrying amount of the realizable assets in the portfolio of the Fund that can be sold within seven working days was greater than the recognized net redemption amount of the day.

To manage the liquidity risk and counterparty risk arising from reverse repo transactions, the Fund Manager rationally disperses the maturity dates of reverse repo transactions and concentration of counterparties, conducts necessary due diligence and rigorous entry management considering counterparties' financial position, solvency and leverage ratio on a look-through basis etc., and applies transaction limit to different counterparties with dynamic adjustment. Furthermore, the Fund Manager establishes the collateral management system for reverse repo transactions, prudently determines loan-to-value ratio based on collateral type and status, and continuously monitors the risk status and value change to ensure adequacy of collateral at fair value. In the case of reverse repo transactions involving private securities asset management products and other entities as counterparties determined by the CSRC, eligible collateral that can be accepted shall fall within the investment scope agreed in the Fund Contract.

6.4.13.4 Market risk

Market risk refers to the possibility of fluctuation in the fair value or future cash flows of financial instruments held by the Fund due to fluctuation in various market price factors. Market risk includes interest rate risk, foreign exchange risk and other price risks.

6.4.13.4.1 Interest rate risk

Interest rate risk refers to the possibility that the fair value or future cash flow of financial instruments fluctuates due to changes in market interest rate. Interest-sensitive financial instruments are all exposed to the risk that the fair value decreases due to increase in market interest rates, among which floating interest rate instruments are exposed to the risk that re-pricing based on market interest rates after each coupon period will affect its future cash flow as well.

The Fund Manager monitors interest sensitivity gap exposed to the Fund on a regular basis and manages the above interest risks by adjusting portfolio duration and other measures.

The majority of the Fund's financial assets and liabilities are non-interest bearing. As a result, the Fund's income and cash flow from operating activities are independent from fluctuations in the prevailing levels of market interest rates to a great extent. The Fund's interest-sensitive assets mainly comprise of cash in bank, settlement deposit, refundable deposit and bond investments, etc.

6.4.13.4.1.1 Exposure to interest rate risk

Unit: RMB Yuan

End of the current reporting period 30 June 2024	Within 1 year	1 to 5 years	Over 5 years	Non-interest bearing	Total

Interest sensitivity gap	264,882,079.56	–	–	3,770,619,344.60	4,035,501,424.16

Note: The table shows the Fund's assets and liabilities at book values, categorized by the earlier of contractual re-pricing or maturity dates.

6.4.13.4.1.2 Sensitivity analysis of interest rate risk

As at 30 June 2024, the Fund invested 1.21% (31 December 2023: 4.13%) of its net assets in trading bonds measured at their fair value. As a result, the Fund was not subject to significant interest rate risk (31 December 2023: Same).

6.4.13.4.2 Foreign exchange risk

Foreign exchange risk refers to the possibility that the fair value or future cash flow of financial instruments fluctuates due to changes in exchange rate. All assets and liabilities of the Fund are denominated in RMB and, hence, the Fund is not exposed to significant foreign exchange risk.

6.4.13.4.3 Other price risk

Other price risk refers to the possibility that the fair value or future cash flows of financial instruments held by the Fund fluctuate due to changes in market price factors other than interest rates and foreign exchange rates. As the Fund mainly invests in stocks and bonds listed on exchanges or traded in inter-bank market, it is exposed to other price risks arising from business operations or specific events of the individual security issuers and fluctuation in the capital markets in general as well.

During the construction and management of investment portfolio by the Fund Manager, the Fund's other price risks are reduced through diversification of the investment portfolio. In addition, the Fund Manager monitors the prices of securities held by the Fund on a daily basis.

The Fund's other price risks are managed through diversification of the investment portfolio. In the investment portfolio, the stock investment accounts for 30% to 95% of the assets of the Fund. The assets other than stocks account for 5% to 70% of the assets of the Fund, among which the investment proportion of cash (excluding settlement deposits, refundable deposits, amounts receivable for subscription of units, etc.) or government bonds with maturity within one year is no less than 5%. In addition, the Fund Manager monitors the prices of securities held by the Fund on a daily basis, performs risk assessments periodically through various quantitative techniques including VaR (Value at Risk) to testify the potential price risks exposed to the Fund, and as a result, follow-up and control risk timely and reliably.

6.4.13.4.3.1 Exposure to other price risk

Unit: RMB Yuan

Item	End of the current reporting period 30 June 2024		End of the last year 31 December 2023	
	Fair value	% of NAV	Fair value	% of NAV
Trading financial assets – stock investments	2,358,731,547.20	93.76	3,805,061,457.57	94.29
Trading financial assets – fund investments	–	–	–	–
Trading financial assets – bond investments	–	–	–	–
Trading financial assets – precious metal investments	–	–	–	–
Derivative financial assets – warrant investments	–	–	–	–
Others	–	–	–	–
Total	2,358,731,547.20	93.76	3,805,061,457.57	94.29

6.4.13.4.3.2 Sensitivity analysis of other price risk

Assumption	All variables remaining constant except performance benchmark (Note 6.4.1)		
Analysis	Change of relevant risk factor	Effect on NAV at balance sheet date (Unit: RMB Yuan)	
		End of the current reporting period 30 June 2024	End of the last year 31 December 2023
	1. Performance benchmark increases by 5% (Note 6.4.1)	338,328,678.19	483,987,218.78
	2. Performance benchmark decreases by 5% (Note 6.4.1)	-338,328,678.19	-483,987,218.78

6.4.14 FAIR VALUE

6.4.14.1 Fair value measurement methods of financial instruments

The level in which fair value measurement is categorized is determined by the level of the fair value hierarchy of the lowest level input that is significant to the entire fair value measurement:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Unobservable inputs for the asset or liability.

6.4.14.2 Financial instruments measured at fair value on a recurring basis

6.4.14.2.1 Fair value of financial instruments by the level of the fair value hierarchy

Unit: RMB Yuan

The level in which fair value measurement is categorized	End of the current reporting period 30 June 2024	End of the last year 31 December 2023
Level 1	2,358,728,675.96	3,805,061,457.57
Level 2	30,483,686.28	166,590,584.42
Level 3	2,871.24	—
Total	2,389,215,233.48	3,971,652,041.99

6.4.14.2.2 Significant changes of fair value levels

The Fund takes the date of occurrence of events that lead to the transfers between levels as the point of time to recognize the transfers.

As for the stocks and bonds listed in exchanges, where there are suspension due to significant event, inactive trading (including inactive trading caused by price limit mechanism), or non-public stocks, etc., the Fund does not classify the relevant stocks and bonds during significant event, or in the period of being inactively traded or restricted in fair value Level 1 from the suspension day to resumption of active trading day; but classified the stocks and bonds in fair value Level 2 or Level 3 based on the unobservable inputs used in valuation adjustment of fair value.

6.4.14.3 Explanation on financial instruments measured at fair value on a non-recurring basis

As at 30 June 2024, there were no financial assets measured at fair value on a non-recurring basis held by the Fund (31 December 2023: Same).

6.4.14.4 Explanation on financial instruments not measured at fair value

Financial assets and liabilities not measured at fair value mainly contain receivables and other financial liabilities with minor difference between fair value and book value.

6.4.15 OTHER NOTES THAT FACILITATE THE UNDERSTANDING AND ANALYSIS OF FINANCIAL STATEMENTS

There is no significant matter to be pointed out as at the balance sheet date.

§7 Report of Investment Portfolio of the Fund
