## Risk Disclosure

- The Fund invests mainly in mainland China related equities, bonds and other related investments.
- The Fund is subject to the geographic concentration and emerging market risks of investing mainly in a single emerging market.
- Urban investment bonds issued by PRC local government financing vehicles (LGFVs), non-investment grade bonds and unrated bonds are subject to additional risks and volatility.
- The Fund's asset allocation strategy balancing income, long term expected returns and risk may not achieve the desired results under all circumstances and market conditions. The investments of the Fund may be periodically rebalanced and therefore the Fund may incur greater transaction costs.
- The Fund may invest in financial derivative instruments for investment purpose which may lead to higher volatility to its net asset value.
- The Fund may pay dividends out of capital or gross of expenses. Dividend is not guaranteed and may result in capital erosion and reduction in net asset value.
- The Fund's investments may involve substantial credit, credit rating, currency, volatility, liquidity, interest rate, valuation, tax and political risks and risks related to equity market, equity linked notes, debt securities, sovereign debt, non-investment grade and unrated debt securities, convertible securities, investment in other collective investment schemes, mainland China market, China A-shares/B-shares and China A-share access products, mainland Chinese debt, China Interbank Bond Market and Bond Connect, mainland China tax, Qualified Foreign Investors regime. Investors may suffer substantial loss of their investments in the Fund.
- Base Currency Hedged Share Classes or RMB denominated class are subject to higher currency and exchange rate risks.
- Investors should not invest solely based on factsheet and should read the offering documents for details.

## Investment objective

The Fund aims to provide income and moderate capital growth, through an active asset allocation in a diversified portfolio of a minimum of 70% of its net asset value in fixed income and equity securities as well as money market and cash instruments that are related to China.

## Investment strategy

The Manager's approach is to carefully forecast long term expected returns for the different asset classes, and use these to decide the Fund's asset allocation, favouring assets with the best long term expected returns.
