# Trustee's Report

## **HSBC Managed Balanced Fund ("the Fund")**

We hereby confirm that, to the best of our knowledge, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 18 January 1990, as amended, for the year ended 31 July 2024.

# Independent Auditor's Report to the Unitholders

## Report on the Audit of the Financial Statements

### Opinion

We have audited the financial statements of HSBC Managed Balanced Fund (the "Fund") set out on pages 6 to 33, which comprise the statement of financial position as at 31 July 2024, the statement of comprehensive income, the statement of changes in net assets attributable to unitholders, the cash flow statement for the year then ended, and notes to the financial statements, including material accounting policy information.

In our opinion, the financial statements give a true and fair view of the financial disposition of the Fund as at 31 July 2024, and of its financial transactions and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

### Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the HKICPA. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the HKICPA's *Code of Ethics for Professional Accountants* ("the Code") and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Information Other than the Financial Statements and Auditor's Report Thereon

The Manager and the Trustee of the Fund are responsible for the other information. The other information comprises all the information included in the annual report, other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we

conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Responsibilities of the Manager and the Trustee of the Fund for the Financial Statements

The Manager and the Trustee of the Fund are responsible for the preparation of financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and for such internal control as the Manager and the Trustee of the Fund determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Manager and the Trustee of the Fund are responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager and the Trustee of the Fund either intend to liquidate the Fund or to cease operations, or have no realistic alternative but to do so.

In addition, the Manager and the Trustee of the Fund are required to ensure that the financial statements have been properly prepared in accordance with the relevant provisions of the Trust Deed, as amended, ("the Trust Deed") and the relevant disclosure provisions of Appendix E of the Code on Unit Trusts and Mutual Funds ("the SFC Code") issued by the Hong Kong Securities and Futures Commission.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly

# Independent Auditor's Report to the Unitholders

prepared, in all material respects, in accordance with the relevant provisions of the Trust Deed and the relevant disclosure provisions of Appendix E of the SFC Code.

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager and the Trustee of the Fund.
- Conclude on the appropriateness of the Manager's and the Trustee's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager and the Trustee of the Fund regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## **Report on matters under the relevant provisions of the Trust Deed and the relevant disclosure provisions of Appendix E of the SFC Code**

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant provisions of the Trust Deed and the relevant disclosure provisions of Appendix E of the SFC Code.

The notes on pages 11 to 33 form part of these financial statements.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

## HSBC Managed Balanced Fund

### 1 The Fund

HSBC Managed Balanced Fund (“the Fund”) is an open ended unit trust established under a trust deed dated 18 January 1990, as amended (“the Trust Deed”) made between HSBC Investment Funds (Hong Kong) Limited (the “Manager”) and HSBC Institutional Trust Services (Asia) Limited (the “Trustee”). The Trust Deed was governed by the laws of the Cayman Islands.

The Fund was registered under the Mutual Funds Law of the Cayman Islands on 13 March 1997. With effect from 18 January 2019, the Fund is governed by Hong Kong laws. The objective of this Fund is to achieve long-term capital growth by investing in a diversified portfolio with a mixture of global equities and global bonds and fixed income instruments through direct investment and/or other collective investment schemes that the Fund may invest in.

The Fund is authorised by the Hong Kong Securities and Futures Commission (“SFC”) under section 104 of the Hong Kong Securities and Futures Ordinance (“HKSF”) and is governed by the Hong Kong Code on Unit Trusts and Mutual Funds issued by the SFC (the “SFC Code”).

### 2 Material accounting policies

#### (a) Statement of compliance

The financial statements have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards (“HKFRSs”), which collective term includes all applicable individual HKFRSs, Hong Kong Accounting Standards (“HKASs”) and Interpretations issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”), the relevant provisions of the SFC code. Material accounting policies adopted by the Fund are set out below.

The HKICPA has issued certain new and revised HKFRSs that are first effective or available for early adoption for the current accounting period of the Fund. Note 2 (c) provides information on any changes in accounting policies resulting from initial application of these developments to the extent that they are relevant to the Fund for the current and prior accounting periods reflected in these financial statements.

#### (b) Basis of preparation of the financial statements

The functional and presentation currency of the Fund is the Hong Kong dollar (“HKD”) reflecting the fact that the participating redeemable units of the Fund are issued and redeemed in Hong Kong dollars.

The financial statements are prepared on a fair value basis for financial assets and financial liabilities at fair value through profit or loss (“FVTPL”) and financial derivative instruments. Other financial assets and financial liabilities are stated at amortised cost or redemption amount (redeemable units).

The preparation of financial statements in conformity with HKFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

#### (c) Changes in accounting policies

The HKICPA has issued certain amendments to HKFRSs that are first effective for the current accounting period of the Fund. None of these developments have had a material effect on how the Fund’s result and financial position for the current or prior periods have been prepared or presented in this financial report.

The Fund adopted the Amendments of HKAS 1, Presentation of financial statements and HKFRS Practice Statement 2, Making materiality judgements: Disclosure of accounting policies. Although the amendments did not result in any changes to the accounting policies themselves, they impacted the accounting policy information disclosed in the financial statements.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

The amendments required the disclosure of 'material' rather than 'significant' accounting policies. The amendments also provide guidance on the application of materiality to disclosure of accounting policies, assisting entities to provide useful, entity-specific accounting policy information that users need to understand other information in the financial statements.

The Fund has not applied other new standard or interpretation that is not yet effective for the current accounting period (see note 16).

## **(d) Foreign currency translation**

Foreign currency transactions during the years are translated into Hong Kong dollars at the exchange rates ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated into Hong Kong dollars at the exchange rates ruling at the date of the statement of financial position. Foreign currency exchange differences arising on translation and realised gains and losses on disposal or settlement of monetary assets and liabilities are recognised in profit or loss.

Foreign currency exchange differences relating to investments at FVTPL are included in net gains or losses from financial instruments at FVTPL. All other foreign currency exchange differences relating to monetary items including cash and cash equivalents are presented separately in profit or loss.

## **(e) Financial instruments**

### **(i) Classification**

On initial recognition, the Fund classifies financial assets as measured at amortised cost or FVTPL.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest ("SPPI").

All other financial assets of the Fund is measured at FVTPL.

### *Business model assessment*

In making an assessment of the objective of the business model in which a financial asset is held, the Fund considers all of the relevant information about how the business is managed, including:

- the documented investment strategy and the execution of this strategy in practice. This includes whether the investment strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Fund's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how the investment manager is compensated: e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Fund's continuing recognition of the assets.

The Fund has determined that it has two business models.

- Held-to-collect business model: this includes interest and dividends receivable, subscriptions receivable, amounts due from brokers, other receivables and cash and cash equivalents. These financial assets are held to collect contractual cash flow.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

- Other business model: this includes equity instruments, debt instruments, collective investment schemes and financial derivative instruments. These financial assets are managed and their performance is evaluated, on a fair value basis, with frequent sales taking place.

## *Assessment whether contractual cash flows are SPPI*

For the purposes of this assessment, "principal" is defined as the fair value of the financial asset on initial recognition. "Interest" is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are SPPI, the Fund considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Fund considers:

- contingent events that would change the amount or timing of cash flows;
- leverage features;
- prepayment and extension features
- terms that limit the Fund's claim to cash flows from specified assets (e.g. non-recourse features); and
- features that modify consideration for the time value of money (e.g. periodical reset of interest rates).

The Fund classifies its investments based on the business model and contractual cash flows assessment. Accordingly, the Fund classifies all its equity instruments, debt instruments, collective investment schemes and financial derivative instruments into financial assets at FVTPL category. Financial assets measured at amortised cost include interest and dividends receivable, subscriptions receivable, amounts due from brokers, other receivables, and cash and cash equivalents. Financial liabilities that are not at fair value through profit or loss included redemptions payable, amounts due to brokers, other payables, and bank overdraft.

All derivatives in a net receivable position (positive fair value) are reported as financial assets. All derivatives in a net payable position (negative fair value) are reported as financial liabilities.

## *Reclassifications*

Financial assets are not reclassified subsequent to their initial recognition unless the Fund was to change its business model for managing financial assets, in which case all affected financial assets would be reclassified on the first day of the first reporting period following the change in the business model.

## (ii) Recognition

The Fund recognises financial assets and financial liabilities on the date it becomes a party to the contractual provisions of the instrument.

A regular way purchase or sale of financial assets and financial liabilities is recognised by using trade date accounting. From this date any gains and losses arising from changes in fair value of the financial assets or financial liabilities are recorded.

Financial liabilities are not recognised unless one of the parties has performed their obligations under the contract or the contract is a derivative contract not exempted from the scope of HKFRS 9.

## (iii) Measurement

Financial instruments are measured initially at fair value (transaction price). Transaction costs on financial assets and liabilities at FVTPL are expensed immediately, while on other financial instruments that they are amortised.

Subsequent to initial recognition, all instruments classified at FVTPL are measured at fair value with changes in their fair value recognised in profit or loss.

Financial assets classified as measured at amortised cost are carried at amortised cost using the effective interest rate method, less impairment losses, if any.

Financial liabilities other than those at FVTPL are measured at amortised cost using the effective interest rate method. Financial liabilities arising from the redeemable units issued by the Fund are carried at the redemption amount representing the unitholders' right to a residual interest in the Fund's assets.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

## (iv) Fair value measurement principles

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal, or in its absence, the most advantageous market to which the Fund has access at that date. The fair value of a liability reflects its non performance risk.

When available, the Fund measures the fair value of an instrument using the quoted price in an active market for that instrument provided such price is within the bid ask spread. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. In circumstances where the quoted price is not within the bid ask spread, the Manager of the Fund will determine the points within the bid ask spread that are most representative of the fair value.

When there is no quoted price in an active market, the Fund uses valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all the factors that market participants would take into account in pricing a transaction.

The best evidence of the fair value of a financial instrument at initial recognition is normally the transaction price, i.e. the fair value of the consideration given or received. If the Fund determines that the fair value at initial recognition differs from the transaction price and the fair value is evidenced neither by a quoted price in an active market for an identical asset or liability nor based on a valuation technique that uses only data from observable markets, the financial instrument is initially measured at fair value, adjusted to defer the difference between the fair value at initial recognition and the transaction price. Subsequently, that difference is recognised in profit or loss on an appropriate basis over the life of the instrument but no later than when the valuation is supported wholly by observable market data or the transaction is closed out.

If an asset or a liability measured at fair value has a bid price and an ask price, the Fund measures assets and long positions at a bid price and liabilities and short positions at an ask price.

Portfolios of financial assets and financial liabilities that are exposed to market risk and credit risk that are managed by the Fund on the basis of the net exposure to either market or credit risk, are measured on the basis of a price that would be received to sell a net long position (or paid to transfer a net short position) or a particular risk exposure. Those portfolio level adjustments are allocated to the individual assets and liabilities on the basis of the relative risk adjustment of each of the individual instruments in the portfolio.

The Fund recognises transfers between levels of the fair value hierarchy as of the end of the reporting period during which the change has occurred.

## (v) Amortised cost measurement principles

The amortised cost of a financial asset or liability is the amount at which the financial asset or liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between the initial amount recognised and the maturity amount, minus any reduction for impairment.

## (vi) Impairment

At each reporting date, the Fund assesses whether credit risk for financial assets held at amortised cost has increased significantly since initial recognition. If there is a significant increase in credit risk since initial recognition, then the Fund measures the loss allowances on financial assets at an amount equal to the lifetime expected credit losses.

If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Fund measures the loss allowances on financial assets at an amount equal to the expected credit losses for the later of 12 months or the period to maturity, if the amount is material. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered as credit impaired.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

## (vii) Derecognition

The Fund derecognises a financial asset when the contractual rights to the cash flows from the financial assets expire or it transfers the financial asset and the transfer qualifies for derecognition in accordance with HKFRS 9.

The Fund uses the weighted average method to determine realised gains and losses on derecognition.

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or has expired.

## (viii) Offsetting

Financial assets and liabilities are offset and the net amount is reported in the statement of financial position when the Fund has a legally enforceable right to offset the recognised amounts and the transactions are intended to be settled on a net basis or simultaneously, e.g. through a market clearing mechanism.

## (ix) Specific instruments

### *Cash and cash equivalents*

Cash comprises current deposits with banks. Cash equivalents are short term and highly liquid investments that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short term cash commitments rather than for investment or other purposes.

## **(f) Revenue recognition**

Revenue is recognised in profit or loss as follows:

### (i) Dividend income

Dividend income from listed investments is recognised when the share price of the investment goes ex dividend. Dividends from other investments are recognised in profit or loss as dividend income when declared. In some cases, the Fund may choose to receive dividends in the form of additional shares rather than cash. In such cases, the Fund recognises the dividend income for the amount of the equivalent cash dividend with the corresponding debit treated as an additional investment.

### (ii) Interest income

Interest income is recognised in profit or loss as it accrues, using the effective interest rate method using the rate exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of the financial asset.

Interest income on bank deposits is disclosed separately on the face of the statement of comprehensive income.

## **(g) Expenses**

All expenses are recognised in profit or loss on an accrual basis.

### **(h) Foreign exchange gains and losses**

Foreign exchange gains and losses on financial assets and financial liabilities at FVTPL are recognised together with other changes in the fair value. Included in profit or loss line item "Net foreign exchange (loss)/gain" are net of foreign exchange gains and losses on monetary financial assets and financial liabilities other than those classified as FVTPL.

## **(i) Related parties**

(a) A person, or a close member of that person's family, is related to the Fund if that person:

- (i) has control or joint control over the Fund;
- (ii) has significant influence over the Fund; or
- (iii) is a member of the key management personnel of the Fund.

(b) An entity is related to the Fund if any of the following conditions applies:

- (i) The entity and the Fund are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
- (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
- (iii) Both entities are joint ventures of the same third party.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

- (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
- (v) The entity is a post employment benefit plan for the benefit of employees of an entity related to the Fund.
- (vi) The entity is controlled or jointly controlled by a person identified in (a).
- (vii) A person identified in note 2 (i) (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).
- (viii) The entity, or any member of a group of which it is a part, provides key management personnel services to the Fund.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

## **(j) Subscriptions and redemptions**

The Fund recognises unitholders' subscriptions and allots units upon receipt of a valid subscription application and derecognises them upon receipt of a valid redemption application.

## **(k) Units in issue**

The Fund classifies financial instruments issued as financial liabilities or equity instruments in accordance with the substance of the contractual terms of the instruments.

The Fund has multiple classes of redeemable units in issue "A" class, Provident class and Accumulation class. All the classes belong to the most subordinate class of financial instruments in the Fund and rank *pari passu* in all material respects and have the same terms and conditions other than different fee rates and distribution rights. The redeemable units provide unitholders with the right to require redemption for cash at a value proportionate to the unitholders' share in the Fund's net assets at each daily redemption date, and also in the event of the Fund's liquidation. The redeemable units are classified as financial liabilities and are measured at the present value of the redeemable amounts.

## **(l) Distributions to holders of redeemable units**

Distributions to holders of redeemable units of "A" class, Provident class and Accumulation class classified as financial liabilities are recognised in profit or loss as finance costs when they are authorised and no longer at the discretion of the Fund.

For the Provident class and Accumulation class, all dividend income and interest arising are accumulated within the Fund and will not be distributed to the unitholders.

## **(m) Segment reporting**

An operating segment is a component of the Fund that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Fund's other components, whose operating results are reviewed regularly by the chief operating decision maker to make decisions about resources allocated to the segment and assess its performance, and for which discrete financial information is available. Segment results that are reported to the chief operating decision maker include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. The chief operating decision maker of the Fund is identified as the Manager.

## **(n) Transaction Costs**

Transaction costs are costs incurred to purchase or sale of financial assets or liabilities at FVTPL. They include fees and commissions paid to agents, brokers and dealers. Transaction costs, when incurred, are immediately recognized in the statement of comprehensive income as an expense.

## **3 Net gains from financial instruments at fair value through profit or loss**

	2024	2023
Net realised gains on sale of investments	\$7,149,914	\$36,641,379
Changes in unrealised gains in value of investments	28,641,743	12,023,729
	<u>\$35,791,657</u>	<u>\$48,665,108</u>

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

## 4 Taxation

No provision for Hong Kong profits tax has been made in the financial statements as the Fund is exempt from taxation under section 26A(1A) of the Hong Kong Inland Revenue Ordinance.

Interest income and dividend income received by the Fund may be subject to non recoverable withholding tax imposed in the country of origin. Interest income and dividend income is recorded gross of such taxes and the withholding tax is recognised in profit or loss as incurred.

Capital gains realised in certain jurisdictions may be subject to capital gains tax. Capital gains tax is charged to profit or loss on an accrual basis, using tax rates enacted or substantively enacted at the date of the statement of financial position.

Taxation in profit or loss represents:

	2024	2023
Overseas withholding tax	\$118,285	\$781,684
Capital gains tax	9,689	230,734
Taxation	<u>\$127,974</u>	<u>\$1,012,418</u>

## 7 Related party transactions

The following is a summary of significant related party transactions or transactions entered into during the year between the Fund, the Trustee, the Manager and their Connected Persons. Connected Persons are those as defined in the SFC Code. All transactions during the year between the Fund, the Trustee, the Manager and their Connected Persons were entered into in the ordinary course of business and under normal commercial terms. To the best of the knowledge of the Trustee and the Manager, the Fund did not have any other transactions with Connected Persons except for those disclosed below.

- (a) The Fund is managed by the Manager, which receives a management fee, payable monthly in arrears, equivalent to a percentage per annum of the net asset value of the Fund as follows for the years ended 31 July 2024 and 2023:

For "A" class income units	1.50%
For Provident class units	0.75%
For Accumulation units	0.65%

HSBC Institutional Trust Services (Asia) Limited ("HTHK") is entitled to registrar's fees per annum which computed by different rates of different types of transaction activities for each class of units and fees for various administrative functions performed on behalf of the Fund.

	2024	2023
(i) Management fees for the year	\$8,575,797	\$8,924,715
(ii) Management fees payable at year end	771,808	766,682
(iii) Registrar's fees paid to HTHK for the year	164,344	161,289
(iv) Registrar's fees payable to HTHK at year end	26,466	26,466

- (b) Bank accounts are maintained with The Hongkong and Shanghai Corporation Limited, which is a member of the HSBC Group. The balances of these accounts amounted to \$9,621,751 (2023: \$6,807,645) at year ended 31 July 2024. No bank overdraft (2023: \$1,654) at year ended 31 July 2024. Interest income arising from these accounts amounted to \$314,653 (2023: \$246,051). Bank charges paid to HSBC group amounted to \$250 (2023: \$260). Margin accounts are maintained with HSBC Bank Plc, which is fellow

subsidiary of the Manager within the HSBC Group. The balances of margin deposits amounted to \$2,705,670 (2023: \$813,007) at year ended 31 July 2024.

- (c) The Trustee of the Fund receives a monthly fee equivalent to 0.07% (2023: 0.07%) for all class units per annum of the net asset value of the Fund as at 31 July 2024.

	2024	2023
(i) Trustee's fees paid to the Trustee	\$574,631	\$622,313
(ii) Trustee's fees payable to the Trustee at year end	50,982	52,048

- (d) The safe custodian of the Fund is HSBC Institutional Trust Services (Asia) Limited (the "custodian"), which is the fellow subsidiary of the Manager within the HSBC Group. The custodian receives a monthly fee equivalent to 0.15 – 0.62 (2023: 0.15 – 0.62) basis points based on sub custodian value of the securities. The custodian also receives a transaction fee of US\$4.40- US\$100.00 (2023: US\$4.40 – US\$100.00) for each trade handled for the fund.

	2024	2023
(i) Safe custody fees paid to custodian	\$53,755	\$74,617
(ii) Safe custody fee payable to custodian at year end	4,542	4,655
(iii) Safe custody transaction fees paid to custodian	123,455	805,603
(iv) Safe custody transaction fees payable to custodian at year end	425,954	418,484

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

- (e) In its purchases and sales of investments, the Fund utilises the brokerage services of HSBC Bank plc London, HSBC Institutional Trust Services (Asia) Limited and HSBC Global Asset Management (UK) Limited, which are members of the HSBC Group. Details of transactions effected through these companies are as follows:

	HSBC Bank plc London		HSBC Institutional Trust Services (Asia) Ltd		HSBC Global Asset Management (UK) Limited	
	2024	2023	2024	2023	2024	2023
	HKD	HKD	HKD	HKD	HKD	HKD
Commission paid for the year	1,587	164	-	-	-	-
Average rate of commission	0.02%	0.00%	-	-	-	-
Total aggregate value of such transactions for the year	6,656,827	12,656,763	-	558,178,960	-	210,450,150
Percentage of such transactions in value to total transactions for the year	0.61%	0.38%	-	16.62%	-	6.27%

The figures for commission paid do not include any trading margin which may be reflected in the market prices of transactions with these entities on any transactions by the Fund during the years ended 31 July 2024 and 2023.

- (f) The Fund has invested in equities issued by entities within the HSBC Group during the years ended 31 July 2024 and 2023. The details of the dividend income earned for the years are as follows:

	Hang Sang Bank Limited	
	2024	2023
Dividend income earned for the year	-	15,830

As at 31 July 2024, the Fund has also invested in HSBC Pooled Investment Fund – HSBC Pooled North America Equity Index Tracking Fund, HSBC Index Tracker Investment Fund – Japan Index Fund, HSBC Investment Funds Luxembourg SA/Luxembourg-HSBC GIF-Asia High Yield Bond Fund, HSBC Pooled Investment Fund – HSBC Pooled Asia Pacific Ex Japan Equity Index Tracking Fund, HSBC Investment Fund (H.K.) Limited – HSBC Pooled American Equity Fund, HSBC European Index Inst Acc, HSBC Investment Funds Luxembourg SA/Luxembourg-HSBC GIF-Asia Ex Japan Equity Fund, HSBC FTSE 100 Index

Inst Acc, HSBC Investment Fund (H.K.) Limited – HSBC Pooled Hong Kong Equity Fund, HSBC Pooled Investment Fund – HSBC Pooled Asian Bond Fund, which are managed by the fellow subsidiaries of the Manager within the HSBC Group. Limited – HSBC Pooled Hong Kong Equity Fund, HSBC FTSE 100 Index INST ACC, HSBC European Index INST ACC, HSBC Index Tracker Investment Fund – Japan Index Fund, HSBC Pooled Investment Fund – HSBC Pooled Asia Pacific Ex Japan Equity Index Tracking Fund, HSBC Pooled Investment Fund – HSBC Pooled Asian Bond Fund, HSBC Investment Funds Luxembourg SA – HSBC Global Investment Funds, HSBC Investment Fund (H.K.) Limited – HSBC Pooled American Equity Fund, HSBC GLF-USD Liquidity Fund, which are managed by the fellow subsidiaries of the Manager within the HSBC Group). The market value of these investments at year end 31 July 2024 was \$566,801,562 (2023: \$715,256,490).

- (g) HSBC Life (International) Limited, a fellow subsidiary of the Manager and the Trustee within the HSBC Group, receives a quarterly administrative fee equivalent to 0.7% (2023: 0.7%) per annum of the net asset value of Accumulation units in return for providing certain management services to holders of Accumulation units.

	2024	2023
(i) Administrative fees for the year	\$539,881	\$553,914
(ii) Administrative fees payable at year end	193,670	193,836

- (h) The details of the outstanding foreign currency forward contracts with The Hongkong and Shanghai Banking Corporation Limited as at years end 31 July 2024 and 2023 is as follows:

	2024	2023
Receivable on forward contracts	\$130,311	\$240,494
Payable on forward contracts	(632,921)	-

As at 31 July 2024, the Fund held outstanding futures contracts as financial assets HK\$554,346 (2023: HK\$242,370) and financial liabilities HK\$243,085 (2023: HK\$723,817) respectively with HSBC Holdings PLC.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

As at 31 July 2024, the Fund held outstanding option contracts as financial assets HK\$1,499,003 (2023: HK\$600,093) and financial liabilities HK\$783,549 (2023: HK\$575,387) respectively with HSBC Global Banking and Markets.

(i) During the year ended 31 July 2024, the Fund has incurred other expenses amounting to \$47,080 (2023: \$47,256) paid to the Connected Persons of the Trustee.

(j) During the year ended 31 July 2024, the Manager and its connected persons did not subscribe or redeem units of the Fund (2023: nil)

## 8 Soft commission arrangements

No soft commission arrangements were entered into with brokers by the Fund during the years ended 31 July 2024 and 2023.

The Manager may enter into soft commission arrangements for the provision to the Manager or Connected Persons of goods and services which are of demonstrable benefit to the Unitholders provided that (i) the brokerage rates do not exceed customary institutional full service brokerage rates and the execution of transactions for a Fund is consistent with best execution standards, (ii) periodic disclosure is made in the annual report of the Fund or the relevant Fund in the form of a statement describing the soft dollar policies and practices of the Manager, including a description of goods and services received by it, and (iii) the availability of soft dollar arrangements is not the sole or primary purpose to perform or arrange transaction with such broker or dealer.

For the avoidance of doubt (and without prejudice to the generality of the foregoing) the following goods and services may be considered as of such benefit to Unitholders: research and advisory services; economic and political analysis; portfolio analysis (including valuation and performance measurement); market analysis, data and quotation services; computer hardware and software incidental to the above goods and services; clearing and custodian services; and investment-related publications.

## 9 Number of units in issue and net assets attributable to unitholders per unit

(a) Net assets attributable to unitholders per unit are calculated based on the net assets attributable to unitholders divided by the total units in issue as at 31 July 2024 and 2023. The detailed breakdown are as follows:

	2024	2023
Number of units in issue as at 31 July		
– “A” class income units	10,354,284	10,757,540
– Provident class units	8,605,311	10,898,096
– Accumulation units	4,127,355	4,487,704
	<b>2024</b>	<b>2023</b>
Net assets attributable to unitholders per unit		
– “A” class income units	\$33.22	\$32.07
– Provident class units	44.50	42.63
– Accumulation units	18.56	17.89

(b) The capital of the Fund is represented by the net assets attributable to unitholders which are subject to subscriptions and redemptions of units. The Fund does not have any externally imposed capital requirements.

Units may be acquired and redeemed on any valuation date at the unit value determined on that day. The valuation date is every business day, which is also a day on which banks in Hong Kong are normally open for business, or such other day(s) as the Manager may determine. The minimum initial investment amount for the Fund is \$10,000 for “A” Class Income Units, with subsequent minimum investments of no less than \$10,000. No minimum initial and subsequent investment amounts apply to Accumulation Units and Provident Class Units.

Units may be redeemed on any valuation date, at the redemption price applicable as at the close of business in Hong Kong on such day. The minimum amount which can be redeemed at any one time is \$10,000 for “A” Class Income Units. No minimum redemption amounts apply to Accumulation Units and Provident Class Units. A unitholder may not make a partial redemption if this would result in his holding being less than the minimum holding of \$10,000 for “A” Class Units. No minimum holding applies to Accumulation Units and Provident Class Units.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

## 10 Equalisation

The equalisation portion of received and receivable on issue of units or paid and payable on redemption of units is calculated based on the portion of the unit price related to undistributed accumulated net investment income and accumulated expenses of the unit at the date of issue or redemption.

## 11 Distributions

	2024	2023
<b>Amount available for distribution brought forward</b>		
Profit for the year available for distribution*	\$421,907,435	\$425,641,978
Equalisation on subscriptions and redemptions	(6,397,690)	(3,656,416)
Distributions to unitholders	263,924	(78,127)
	-	-
<b>Amount available for distribution carried forward</b>	<u>\$415,773,669</u>	<u>\$421,907,435</u>

\* Profit for the year available for distribution is the adjusted total comprehensive income for the year, for which the calculation basis is in accordance with the relevant clauses of the Trust Deed.

There is no distribution declared during the year (2023: Nil).  
There is no distribution declared during the previous financial year and paid during the year (2023: Nil).

## 12 Financial instruments and associated risks

The Fund maintains an investment portfolio in a variety of listed and unlisted financial instruments as dictated by its investment management strategy. The investment objective of the Fund is to achieve long-term capital growth by investing in a diversified portfolio with a mixture of global equities and global bonds and fixed income instruments through direct investment and/or other collective investment schemes that the Fund may invest in. The Fund's investment portfolio comprises equities, debt securities, unit trusts, forward contracts, futures contracts and option contracts.

The Fund's investing activities expose it to various types of risks that are associated with the financial instruments and markets in which it invests. The Manager and the Trustee have set out below the most important types of financial risks inherent in each type of financial instrument. The Manager and the Trustee would like to highlight that the following list of associated risks only sets out some of the risks but does not purport to constitute an exhaustive list of all the risks inherent in an investment in the Fund. Unitholders should

note that additional information in respect of risks associated with financial instruments in the Fund can be found in the Fund's offering document.

The nature and extent of the financial instruments outstanding at the date of the statement of financial position and the risk management policies employed by the Fund are discussed below.

### (a) Price risk

Price risk is the risk that value of the instrument will fluctuate as a result of changes in market prices, whether caused by factors specific to an individual investment, its issuer or all factors affecting all instruments traded in the market.

The impact of a 15% (2023: 15%) increase in value of the investments at 31 July 2024, with all other variables held constant, is shown below. An equal change in the opposite direction would have reduced the net assets attributable to unitholders by an equal amount. The analysis is performed on the same basis for year ended 31 July 2023.

	Market exposures	Change in net assets if investment value increased by 15%
--	------------------	---

#### As at 31 July 2024

Equities	\$3	\$-
Unit trusts	724,088,441	108,613,266
Futures contracts	311,261	46,689
Option contracts	715,454	107,318

	Market exposures	Change in net assets if investment value increased by 15%
--	------------------	---

#### As at 31 July 2023

Equities	\$7,489	\$1,123
Unit trusts	802,118,636	120,317,795
Futures contracts	(481,447)	(72,217)
Option contracts	24,706	3,706

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

## (b) Interest rate risk

Interest rate risk arises from changes in interest rates which may affect the value of debt instruments and therefore result in potential gain or loss to the Fund. The Fund's interest rate risk is managed on an ongoing basis by the Manager.

The following table indicates the period in which the interest-bearing assets and interest-bearing liabilities analysed by the earlier of contractual re-pricing or maturity date as at year ended 31 July 2024 and 2023.

All amounts stated in '000

	2024				
	1 year or less	Over 1 year to 5 years	Over 5 years	Non interest bearing	Total
Financial assets at fair value through profit or loss	\$994	\$17,203	\$36,213	\$726,272	\$780,682
Cash and cash equivalents	\$21,341	\$-	\$-	\$-	\$21,341
<b>Total interest bearing assets</b>	<b>\$22,335</b>	<b>\$17,203</b>	<b>\$36,213</b>		
Financial liabilities at fair value through profit or loss	\$-	\$-	\$-	\$1,863	\$1,863
<b>Interest sensitivity gap</b>	<b>\$22,335</b>	<b>\$17,203</b>	<b>\$36,213</b>		

	2023				
	1 year or less	Over 1 year to 5 years	Over 5 years	Non interest bearing	Total
Financial assets at fair value through profit or loss	\$3,771	\$24,619	\$48,230	\$803,209	\$879,829
Cash and cash equivalents	\$6,808	\$-	\$-	\$-	\$6,808
<b>Total interest bearing assets</b>	<b>\$10,579</b>	<b>\$24,619</b>	<b>\$48,230</b>		
Financial liabilities at fair value through profit or loss	\$-	\$-	\$-	\$3,111	\$3,111
<b>Interest sensitivity gap</b>	<b>\$10,579</b>	<b>\$24,619</b>	<b>\$48,230</b>		

## Interest rate sensitivity

At the date of the statement of financial position, assuming all other factors unchanged, it is estimated that an increase in interest rates of 100 basis points (2023: 100 basis points) would result in a decrease in the net assets attributable to the unitholders and the profit for the year by \$3,821,380 (2023: \$5,571,640); an equal change in the opposite direction would result in an increase in the net assets attributable to unitholders by an approximately equal amount. The analysis is performed on the same basis for 2023.

## (c) Currency risk

The Fund may invest in financial instruments and enter into transactions denominated in currencies other than its functional currency. Consequently, the Fund is exposed to risks that the exchange rate of its functional currency relative to other foreign currencies may change in a manner that has an adverse effect on the value of that portion of the Fund's assets or liabilities denominated in currencies other than Hong Kong dollars.

The fluctuations in the rate of exchange between the currency in which the asset or liability is denominated and the functional currency could result in an appreciation or depreciation in the fair value of that asset or liability. The Manager may attempt to mitigate this risk by using financial derivative instruments. The Manager monitors the Fund's currency exposures on an ongoing basis.

## Currency sensitivity

At 31 July 2024 and 2023, had the HKD weakened by 5% (2023: 5%) in relation to respective currencies, with all other variables held constant, the net assets attributable to unitholders and profit for the year would have increased by the amounts shown below. The analysis is performed on the same basis for 2023.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

	Net exposure	Change in net assets if HKD weakened by 5%
<b>As at 31 July 2024</b>

Swedish krona	146,081	7,304
Turkish lira	2	-
<b>Total</b>	<b>\$303,998,162</b>	<b>\$15,199,908</b>

As the HKD is pegged to the United States dollar ("USD"), the Fund does not expect any significant movements in USD/HKD exchange rate. A 5% (2023: 5%) appreciation of the HKD against the above currencies would have resulted in an equal but opposite effect on the financial statements, on the basis that all other variables remain constant.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

## (d) Credit risk

### (i) Analysis of credit policy and concentration of credit risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund's exposure to credit risk is monitored by the Manager on an ongoing basis.

As at 31 July 2024 and 2023, all of the Fund's financial assets were exposed to credit risk. These include financial asset at fair value through profit or loss, interest and dividends receivable, subscription receivable, amounts due from brokers, other receivables and cash and cash equivalents placed with banks and the custodian.

At the date of the statement of financial position, the Fund invested in debt securities with the following credit ratings on the debt securities or its debt issuers equivalent to which provided by Moody's credit rating services expressed as a percentage of debt securities:

Rating (Moody's)	% of debt securities	
	2024	2023
Aaa	56.38	52.05
Aa1	1.01	1.94
Aa2	3.68	7.21
Aa3	6.29	5.11
A1	19.46	18.54
A2	0.82	1.13
A3	0.46	0.95
Baa1	5.22	4.34
Baa2	1.19	1.43
Baa3	5.49	7.30
<b>Total</b>	<b>100.00</b>	<b>100.00</b>

Credit risk is managed by the reviewing and monitoring of the credit quality of debt instruments held by the Fund or the issuers of the debt instruments held by the Fund on an ongoing basis.

Credit risk arising from transactions with brokers relates to transactions awaiting settlement. Risk relating to unsettled transactions is considered small due to the short settlement period involved and the high credit quality of the brokers used.

Cash held by the Trust in current account is deposited with the HSBC Group. According to Moody's, the credit rating of HSBC Group is A3 (2023: A3). As at 31 July 2024, the Trust held short-term time deposits with Credit Agricole CIB (2023: the Trust held short-term time deposits). According to Moody's, the credit rating of Credit Agricole CIB is P-1 (2023: the Trust held no short-term deposits) as at 31 July 2024. Bankruptcy or insolvency of the bank may cause the Trust's rights with respect to the cash held by the bank to be delayed or limited. The Trust monitors the credit rating and financial position of the bank on an ongoing basis.

Substantially all of the assets of the sub funds are held by HSBC Institutional Trust Services (Asia) Limited (the "Custodian"). Bankruptcy or insolvency of the Custodian may cause the sub funds' rights with respect to securities held by the Custodian to be delayed or limited. The Custodian is a group company of HSBC, for which the long-term credit rating is Aa2 (2023: Aa2), as determined by Moody's.

The carrying amounts of financial assets best represent the maximum credit risk exposure at the date of statement of financial position.

As at 31 July 2024 and 2023, there were no other significant concentrations of credit risk to counterparties except to the custodian.

### (ii) Offsetting financial assets and financial liabilities

None of the financial assets and financial liabilities is offset in the statement of financial position.

As at 31 July 2024 and 2023, the disclosure set out in the table below include financial assets and financial liabilities that are subject to an enforceable master netting arrangement.

The enforceable master netting arrangements do not meet the criteria for offsetting in the statement of financial position. This is because they create a right of set off of recognised amounts that is enforceable only following on event of default, insolvency or bankruptcy of the Fund or its counterparties. In addition, the Fund and its counterparties do not intend to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

### (iii) Amounts arising from ECL

Impairment on interest and dividends receivable, subscriptions receivable, amounts due from brokers, other receivables and cash and cash equivalents has been measured on a 12-month expected loss basis and reflects the short maturities of the exposures. The Fund considers that these exposures have low credit risk based on the external credit ratings and/or review result of the counterparties.

The Manager of the Fund monitors changes in credit risk on these exposures by tracking published external credit ratings of the counterparties and/or performed ongoing review of the counterparties.

The Manager considers the probability of default to be minimal as the counterparties have a strong capacity to meet their contractual obligations in the near term. There is no impairment allowance recognised on interest and dividends receivable, subscriptions receivable, amounts due from brokers, other receivables and cash and cash equivalents. The amount of the loss allowance did not change during the years ended 31 July 2024 and 2023.

### (e) Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting obligations arising from its financial liabilities that are settled by delivering cash or another financial asset, or that such obligations will have to be settled in a manner disadvantageous to the Fund. The Fund is exposed to daily liquidity risk on redemption of units.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

The Fund's policy is to regularly monitor current and expected liquidity requirements to ensure that it maintains sufficient reserves of cash and readily realisable marketable securities to meet its liquidity requirements in the short and longer term.

The Fund's listed investments are considered to have insignificant exposure to liquidity risk as they are all readily realisable under normal market conditions. The Fund, however, also invests in unlisted investments such as unlisted bonds and unit trusts which are not publicly traded on exchanges and may become illiquid.

As at 31 July 2024 and 2023, the Fund's financial liabilities are due within three months, except for redemptions payable and net assets attributable to unitholders which are repayable on demand.

## (f) Capital management

The Fund's capital as at the year end date is represented by its redeemable units, which is classified as financial liabilities.

The Fund's objective in managing the capital is to ensure a stable and strong base to achieve long term capital growth, and to manage liquidity risk arising from the redemptions. The Manager manages the capital of the Fund in accordance with the Fund's investment objectives and policies stated in the Fund's Explanatory Memorandum.

There were no changes in the policies and procedures during the year with respect to the Fund's approach to its capital management.

The amount and the movement of net assets attributable to unitholders are stated in the statement of changes in net assets attributable to unitholders. As the redeemable units are redeemed on demand at the unitholders' option, the actual level of redemption may differ significantly from historical experience.

## (g) Specific instruments

### Forward contracts

Forward contracts are commitments either to purchase or sell a designated financial instrument, currency, commodity or index at a specified future date for a specified price and may be settled in cash or the underlying financial asset.

Forward contracts result in exposure to market risk based on changes in market prices relative to contracted prices. Market risks arise due to the possible movement in foreign currency exchange rates, indices, and securities' values underlying these instruments. In addition, because of the low margin deposits normally required in relation to notional contract sizes, a high degree of leverage may be typical of a forward contract and may result in substantial losses to the Fund. Forward contracts are generally subject to liquidity risk.

As at 31 July 2024 and 2023, the Fund's holdings in foreign currency forward contracts were as specified in the following tables.

### As at 31 July 2024

## Futures contracts

Futures contracts are legally binding commitments to buy or sell a financial instrument, currency, commodity or index at a specified future date for a specified price which are agreed upon at the initiation of the contract by the buyer and seller.

Futures contracts are standardised for quality and quantity and traded on a futures exchange.

As at 31 July 2024 and 2023, the Fund's holdings in futures contracts were as specified in the following table.

### As at 31 July 2024

Underlying assets	Futures exchange	No of contracts	Weighted average contract price	Contract size	Maturity date	Fair value assets	Fair value liabilities

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

## 13 Fair value information

The Fund's financial instruments are measured at fair value on the date of the statement of financial position. Fair value estimates are made at a specified point in time, based on market conditions and information about the financial instruments. Usually, fair values can be reliably determined within a reasonable range of estimates. For certain other financial instruments, including interest and dividends receivable, subscriptions receivable, amounts due from brokers, amounts due to brokers, other receivables, redemptions payable, distributions payable, bank overdraft and other payables, the carrying amounts approximate fair values due to the immediate or short term nature of these financial instruments.

### Valuation of financial instruments

The Fund's accounting policy on fair value measurements is detailed in significant accounting policy in note 2 (e)(iv).

The Fund measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements.

- Level 1: Inputs that are quoted market prices (unadjusted) in active markets for identical instruments.
- Level 2: Inputs other than quoted prices included within level 1 that are observable either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques in which all significant inputs are directly or indirectly observable from market data.
- Level 3: Inputs that are unobservable. This category includes all instruments for which the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments but for which significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

When fair values of listed and quoted investments at the reporting date are based on quoted market prices or binding dealer price quotations in an active market, without any deduction for transaction costs, the instruments are included within level 1 of the hierarchy. When fair values of debt securities at the reporting date represent quoted prices in markets that are considered less than active or consensus prices derived by third parties using valuation techniques where all significant inputs are directly or indirectly observable from market data, those debt securities are included within level 2 of the hierarchy. For all other financial instruments, the Fund determines fair value using valuation techniques.

The Fund uses widely recognised valuation models for determining the fair value of the financial instruments which do not have quoted market prices in active markets. Valuation techniques include net present value, discounted cash flow models, comparison to similar instruments for which market observable prices exist, comparison to quoted prices for identical instruments that are considered less than active and other valuation models.

The following analyses financial assets and liabilities at fair value through profit or loss at the date of the statement of financial position, by the level in the fair value hierarchy into which the fair value measurement is categorised.

### Financial instruments at fair value through profit or loss

	\$249,859	\$879,579,259	\$–	\$879,829,119

### Financial liabilities

Forward contracts	\$–	\$1,811,486	\$–	\$1,811,486
Futures contracts	723,817	–	–	723,817
Put options	–	575,387	–	575,387
	\$723,817	\$2,386,873	\$–	\$3,110,690

<sup>#</sup> As at 31 July 2024, listed equity securities include sixteen investments (2023: sixteen) whose trading was suspended or unable to perform transaction for purchase or sales and their fair values were marked as HK\$Nil.

### Quantitative information of significant unobservable inputs – Level 3

There were no transfers between levels during the year ended 31 July 2024 and 2023.

The table below sets out information about significant unobservable inputs used at 31 July 2024 and 2023 in measuring financial instruments categorised as level 3 in the fair value hierarchy.

Description	Fair value at 31 July 2024	Fair value at 31 July 2023	Valuation technique	Unobservable input
Equities	\$–	\$–	Adjustment on last traded price before suspension	Adjustment based on the information relating to the investments

The significant unobservable inputs used in the fair value measurement categorised within level 3 of the fair value hierarchy together with a quantitative sensitivity analysis is as shown below:

Description	Input	Change in the relevant input	Effect on the net assets attributable to unitholders
<b>As at 31 July 2024</b>			
Equities	100%	5%/(5)%	\$–/257,077

### As at 31 July 2023

Equities	100%	5%/(5)%	\$–/237,911
----------	------	---------	-------------

### Valuation of financial instruments not measured at fair value

The financial instruments not measured at fair value through profit or loss are short-term financial assets and financial liabilities whose carrying amounts approximate fair value.

## 14 Segment information

The Manager makes the strategic resource allocation on behalf of the Fund and determines the operating segments based on the internal reporting used to make strategic decisions.

The Manager's asset allocation decisions are based on one single and integrated investment strategy, and the Fund's performance is evaluated on an overall basis. Accordingly, the Manager considers that the Fund has one single operating segment which is investing in a portfolio of financial instruments to generate investment returns in accordance with the investment objective stipulated in its Explanatory Memorandum of the Fund. There were no changes in the reportable operating segment during the year.

All revenues and losses generated from investments by the Fund are disclosed in note 3. The segment information provided to the Manager is the same as that disclosed in the statement of comprehensive income and the statement of financial position.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

## 15 Involvement with unconsolidated structured entities

The Fund has concluded that the listed and unlisted investment funds in which it invests, but that it does not consolidate, meet the definition of structured entities because:

- the voting rights in the funds are not dominant rights in deciding who controls them as they relate to administrative tasks only;
- each fund's activities are restricted by its prospectus; and
- the funds have narrow and well defined objectives to provide investment opportunities to investors.

The table below describes the types of structured entities that the Fund does not consolidate but in which it holds an interest.

Type of structured entity	Nature and purpose	Interest held by the Fund
Investment funds	To manage assets on behalf of third party investors and generate fees for the investment manager	Investment in units issued by the funds
	These vehicles are financed through the issue of units to investors	

The table below sets out interests held by the Fund in unconsolidated structured entities. The maximum exposure to loss is the carrying amount of the financial assets held.

	31 July 2024		
	Number of investee funds	Total net assets (based on unaudited information)	Carrying amount included in "Financial assets of fair value through profit or loss"
Listed investment funds	13	\$2,306,847,000,000	\$157,286,879
Unlisted investment funds	10	\$30,273,000,000	\$566,801,562

31 July 2023

	Number of investee funds	Total net assets (based on unaudited information)	Carrying amount included in "Financial assets of fair value through profit or loss"
Listed investment funds	7	\$1,177,589,000,000	\$86,862,146
Unlisted investment funds	11	\$2,687,463,000,000	\$715,256,490

During the years ended 31 July 2024 and 2023, the Fund did not provide financial support to unconsolidated structured entities and has no intention of providing financial or other support.

The Fund can redeem units in the above investment funds on any respective dealing day.

## 16 Possible impact of amendments, new standards and interpretations issued but not yet effective for the year ended 31 July 2024

Up to the date of issue of these financial statements, the HKICPA has issued a number of amendments and a new standard which are not yet effective for the year ended 31 July 2024 and which have not been adopted in these financial statements.

Of these developments, the following may be relevant to the Fund's operations and financial statements:

### Effective for accounting periods beginning on or after

Amendments to HKAS 1, <i>Presentation of financial statements: Classification of liabilities as current or non-current</i>	1 January 2024
Amendments to HKAS 21, <i>The effects of changes in foreign exchange rates: Lack of exchangeability</i>	1 January 2025

The Fund is in the process of making an assessment of what the impact of these developments is expected to be in the period of initial application. So far it has concluded that the adoption of them is unlikely to have a significant impact on the Fund's result of operations and financial position.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

## **17 Event occurring after year-end date**

In preparing these financial statements, the Manager and the Trustee have evaluated all significant events up to the date the financial statements are approved and authorized for issue. There were no subsequent events that would require adjustment or disclosure to these financial statements.

## **18 Approval of financial statements**

The financial statements were approved by the Manager and the Trustee on 29 November 2024.

# SFC ESG related disclosure for the year ended 31 July 2024 (Unaudited)

## (a) HSBC Managed Balanced Fund's Carbon Footprint including formula

	Carbon Footprint	Coverage	Holdings Weight
<b>Corporate Carbon Footprint*</b>	93.81	97%	79%

\* Expressed in CO<sub>2</sub>e/USDmn invested using Scope 1+2 Carbon Emissions, source from S&P Trucost

## (b) Corporate Carbon Footprint (tonnes CO<sub>2</sub>e/USDmn):

The GHG emissions apportioned to the portfolio per million USD owned by the portfolio. Each holding's contribution to the carbon footprint of the portfolio is calculated on an equity ownership basis using the Enterprise Value (EVIC) of the companies. The carbon footprint of the Fund is the sum of these contributions, normalised by amount owned.

$$\frac{\sum_i \left( \frac{\text{current value of investment}_i}{\text{investee company's enterprise value}_i} \times \text{investee company's Scope 1 and 2 GHG emissions}_i \right)}{\text{current value of all investments (USDm)}}$$

Coverage: This indicates the proportion of the Fund for which data can be sourced.

## (c) Assumption/data limitation

This GHG consists to sum of the carbon emissions (scope 1, 2 and 3) of issuer divided by enterprise value, multiplied by the weight of the investment. Enterprise Value, including cash (EVIC) in million Euro are sourced from AM's reporting vendor FactSet. It is a measure of carbon emissions ownership, as it takes into account the proportion of emissions per investment, relative to the total size of the issuer value. However, carbon footprint can fluctuate without a change in carbon emissions as a result of changes in issuer value. Total carbon footprint is the sum of all issuer carbon footprint, divided by the value of the portfolio.

Data limitation: Carbon emissions (Scope 1, 2 & 3) are primarily based on company carbon disclosures, or estimated by S&P Trucost in the absence of company reports. It is worth noting the lack of coverage of scope 3 GHG emissions and some niche asset classes (such as Small Caps, High Yield or emerging markets issuers). These gaps are due to companies not reporting emissions and it is not appropriate to estimate non-reported emissions for niche asset classes or sub-industries.

It is important to note that we decided to zero down the carbon emission for internally approved green bonds – i.e. green bonds for which “greenness” has been ascertained and approved by a fully-fledged HSBC AM committee. This option has been set in the absence of a more accurate and systematic assessment which would consist in applying to the concerned bond a reduced CHG emissions based on the financed projects/use of proceeds. The same abatement (“zeroing”) will apply similarly to portfolio position and corresponding benchmark components.

# Trustee's Report

## **HSBC Managed Growth Fund ("the Fund")**

We hereby confirm that, to the best of our knowledge, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 14 March 1997, as amended, for the year ended 31 July 2024.

# Independent Auditor's Report to the Unitholders

## Report on the Audit of the Financial Statements

### Opinion

We have audited the financial statements of HSBC Managed Growth Fund ("the Fund") set out on pages 52 to 77, which comprise the statement of financial position as at 31 July 2024, the statement of comprehensive income, the statement of changes in equity, the cash flow statement for the year then ended and notes to the financial statements, including material accounting policy information.

In our opinion, the financial statements give a true and fair view of the financial disposition of the Fund as at 31 July 2024 and of its financial transactions and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

### Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants ("the Code") and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Information Other than the Financial Statements and Auditor's Report Thereon

The Manager and the Trustee of the Fund are responsible for the other information. The other information comprises all the information included in the annual report, other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## Responsibilities of the Manager and the Trustee of the Fund for the Financial Statements

The Manager and the Trustee of the Fund are responsible for the preparation of financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and for such internal control as the Manager and the Trustee of the Fund determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Manager and the Trustee of the Fund are responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager and the Trustee of the Trust either intend to liquidate the Trust or to cease operations, or have no realistic alternative but to do so.

In addition, the Manager and the Trustee of the Fund are required to ensure that the financial statements have been properly prepared in accordance with the relevant provisions of the Trust Deed, as amended ("the Trust Deed"), and the relevant disclosure provisions of Appendix E of the Code on Unit Trusts and Mutual Funds ("the SFC Code") issued by the Hong Kong Securities and Futures Commission.

## Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant provisions of the Trust Deed and the relevant disclosure provisions of Appendix E of the SFC Code.

# Independent Auditor's Report to the Unitholders

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager and the Trustee of the Fund.
- Conclude on the appropriateness of the Manager's and the Trustee's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager and the Trustee of the Fund regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## **Report on matters under the relevant provisions of the Trust Deed and the relevant disclosure provisions of Appendix E of the SFC Code**

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant provisions of the Trust Deed and the relevant disclosure provisions of Appendix E of the SFC Code.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

## HSBC Managed Growth Fund

### 1 The Fund

HSBC Managed Growth Fund (“the Fund”) is an open ended unit trust which was established under a trust deed dated 14 March 1997, as amended (“the Trust Deed”) made between HSBC Investment Funds (Hong Kong) Limited (the “Manager”) and HSBC Institutional Trust Services (Asia) Limited (the “Trustee”). The Trust Deed was governed by the laws of the Cayman Islands.

The Fund was registered under the Mutual Funds Law of the Cayman Islands on 13 March 1997. The Fund is governed by Hong Kong laws with effect from 18 January 2019. The objective of the Fund is to achieve long-term capital growth by investing in a diversified portfolio with a bias towards global equities through direct investment and/or other collective investment schemes that the Fund may invest in.

The Fund is authorised by the Hong Kong Securities and Futures Commission (“SFC”) under section 104 of the Hong Kong Securities and Futures Ordinance (“HKSF”) and is governed by the Hong Kong Code on Unit Trusts and Mutual Funds (the “SFC Code”) issued by the SFC.

### 2 Material accounting policies

#### (a) Statement of compliance

The financial statements have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards (“HKFRSs”), which collective term includes all applicable individual HKFRSs, Hong Kong Accounting Standards (“HKASs”) and Interpretations issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”), the relevant provisions of the Trust Deed and the relevant disclosure provisions of the SFC Code. Material accounting policies adopted by the Fund are set out below.

The HKICPA has issued certain new and revised HKFRSs that are first effective or available for early adoption for the current accounting period of the Fund. Note 2(c) provides information on any changes in accounting policies resulting from initial application of these developments to the extent that they are relevant to the Fund for the current and prior accounting periods reflected in these financial statements.

#### (b) Basis of preparation of the financial statements

The functional and presentation currency of the Fund is the Hong Kong dollar reflecting the fact that the participating redeemable units of the Fund are issued and redeemed in Hong Kong dollars.

The financial statements are prepared on a fair value basis for financial assets and financial liabilities at fair value through profit or loss (“FVTPL”) and financial derivative instruments. Other financial assets and financial liabilities are stated at amortised cost or redemption amount (redeemable units).

The preparation of financial statements in conformity with HKFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

#### (c) Changes in accounting policies

The HKICPA has issued certain amendments to HKFRSs that are first effective for the current accounting period of the Fund. None of these developments have had a material effect on how the Fund’s result and financial position for the current or prior periods have been prepared or presented in this financial report.

The Fund adopted the Amendments of HKAS 1, *Presentation of financial statements and HKFRS Practice Statement 2, Making materiality judgements: Disclosure of accounting policies*. Although the amendments did not result in any changes to the accounting policies themselves, they impacted the accounting policy information disclosed in the financial statements.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

The amendments required the disclosure of 'material' rather than 'significant' accounting policies. The amendments also provide guidance on the application of materiality to disclosure of accounting policies, assisting entities to provide useful, entity-specific accounting policy information that users need to understand other information in the financial statements.

The Fund has not applied other new standard or interpretation that is not yet effective for the current accounting period (see note 16).

## **(d) Foreign currency translation**

Foreign currency transactions during the year are translated into Hong Kong dollars at the exchange rates ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated into Hong Kong dollars at the exchange rates ruling at the date of the statement of financial position. Foreign currency exchange differences arising on translation and realised gains and losses on disposal or settlement of monetary assets and liabilities are recognised in profit or loss.

Foreign currency exchange differences relating to investments at FVTPL are included in net gains or losses from financial instruments at FVTPL. All other foreign currency exchange differences relating to monetary items including cash and cash equivalents are presented separately in profit or loss.

## **(e) Financial instruments**

### **(i) Classification**

On initial recognition, the Fund classifies financial assets as measured at amortised cost or FVTPL.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest ("SPPI").

All other financial assets of the Fund is measured at FVTPL.

### *Business model assessment*

In making an assessment of the objective of the business model in which a financial asset is held, the Fund considers all of the relevant information about how the business is managed, including:

- the documented investment strategy and the execution of this strategy in practice. This includes whether the investment strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Fund's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how the investment manager is compensated: e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Fund's continuing recognition of the assets.

The Fund has determined that it has two business models.

- Held-to-collect business model: this includes interest and dividends receivable, subscriptions receivable, amounts due from brokers, other receivables and cash and cash equivalents. These financial assets are held to collect contractual cash flow.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

- Other business model: this includes equity instruments, collective investment schemes and financial derivative instruments. These financial assets are managed and their performance is evaluated, on a fair value basis, with frequent sales taking place.

## *Assessment whether contractual cash flows are SPPI*

For the purposes of this assessment, "principal" is defined as the fair value of the financial asset on initial recognition. "Interest" is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are SPPI, the Fund considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Fund considers:

- contingent events that would change the amount or timing of cash flows;
- leverage features;
- prepayment and extension features;
- terms that limit the Fund's claim to cash flows from specified assets (e.g. non-recourse features); and
- features that modify consideration for the time value of money (e.g. periodical reset of interest rates).

The Fund classifies its investments based on the business model and contractual cash flows assessment. Accordingly, the Fund classifies all its equity instruments, collective investment schemes and financial derivative instruments into financial assets at FVTPL category. Financial assets measured at amortised cost include interest and dividends receivable, subscriptions receivable, other receivables, amounts due from brokers and cash and cash equivalents. Financial liabilities that are not at fair value through profit or loss included redemptions payable, amounts due to brokers, other payables and bank overdraft.

All derivatives financial instruments in a net receivable position (positive fair value) are reported as financial assets. All derivatives financial instruments in a net payable position (negative fair value) are reported as financial liabilities.

## *Reclassifications*

Financial assets are not reclassified subsequent to their initial recognition unless the Fund was to change its business model for managing financial assets, in which case all affected financial assets would be reclassified on the first day of the first reporting period following the change in the business model.

### (ii) Recognition

The Fund recognises financial assets and financial liabilities on the date it becomes a party to the contractual provisions of the instrument.

A regular way purchase or sale of financial assets and financial liabilities is recognised by using trade date accounting. From this date any gains and losses arising from changes in fair value of the financial assets or financial liabilities are recorded.

Financial liabilities are not recognised unless one of the parties has performed their obligations under the contract or the contract is a derivative contract not exempted from the scope of HKFRS 9.

### (iii) Measurement

Financial instruments are measured initially at fair value (transaction price). Transaction costs on financial assets and liabilities at FVTPL are expensed immediately, while on other financial instruments that they are amortised.

Subsequent to initial recognition, all instruments classified at FVTPL are measured at fair value with changes in their fair value recognised in profit or loss.

Financial assets classified as measured at amortised cost are carried at amortised cost using the effective interest rate method, less impairment losses, if any.

Financial liabilities other than those at FVTPL are measured at amortised cost using the effective interest rate method. Financial liabilities arising from the redeemable units issued by the Fund are carried at the redemption amount representing the unitholders' right to a residual interest in the Fund's assets.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

## (iv) Fair value measurement principles

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal, or in its absence, the most advantageous market to which the Fund has access at that date. The fair value of a liability reflects its non performance risk.

When available, the Fund measures the fair value of an instrument using the quoted price in an active market for that instrument provided such price is within the bid ask spread. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. In circumstances where the quoted price is not within the bid ask spread, the Manager of the Fund will determine the points within the bid ask spread that are most representative of the fair value.

When there is no quoted price in an active market, the Fund uses valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all the factors that market participants would take into account in pricing a transaction.

The best evidence of the fair value of a financial instrument at initial recognition is normally the transaction price i.e. the fair value of the consideration given or received. If the Fund determines that the fair value at initial recognition differs from the transaction price and the fair value is evidenced neither by a quoted price in an active market for an identical asset or liability nor based on a valuation technique that uses only data from observable markets, the financial instrument is initially measured at fair value, adjusted to defer the difference between the fair value at initial recognition and the transaction price. Subsequently, that difference is recognised in profit or loss on an appropriate basis over the life of the instrument but no later than when the valuation is supported wholly by observable market data or the transaction is closed out.

If an asset or a liability measured at fair value has a bid price and an ask price, the Fund measures assets and long positions at a bid price and liabilities and short positions at an ask price.

Portfolios of financial assets and financial liabilities that are exposed to market risk and credit risk that are managed by the Fund on the basis of the net exposure to either market or credit risk, are measured on the basis of a price that would be received to sell a net long position (or paid to transfer a net short position) or a particular risk exposure. Those portfolio level adjustments are allocated to the individual financial assets and liabilities on the basis of the relative risk adjustment of each of the individual instruments in the portfolio.

The Fund recognises transfers between levels of the fair value hierarchy as of the end of the reporting period during which the change has occurred.

## (v) Amortised cost measurement principles

The amortised cost of a financial asset or liability is the amount at which the financial asset or liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between the initial amount recognised and the maturity amount, minus any reduction for impairment.

## (vi) Impairment

At each reporting date, the Fund assesses whether credit risk for financial assets held at amortised cost has increased significantly since initial recognition. If there is a significant increase in credit risk since initial recognition, then the Fund measures the loss allowances on financial assets at an amount equal to the lifetime expected credit losses.

If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Fund measures the loss allowances on financial assets at an amount equal to the expected credit losses for the later of 12 months or the period to maturity, if the amount is material. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered as credit impaired.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

## (vii) Derecognition

The Fund derecognises a financial asset when the contractual rights to the cash flows from the financial assets expire or it transfers the financial asset and the transfer qualifies for derecognition in accordance with HKFRS 9.

The Fund uses the weighted average method to determine realised gains and losses on derecognition.

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or has expired.

## (viii) Offsetting

Financial assets and liabilities are offset and the net amount is reported in the statement of financial position when the Fund has a legally enforceable right to offset the recognised amounts and the transactions are intended to be settled on a net basis or simultaneously, e.g. through a market clearing mechanism.

## (ix) Specific instruments

### *Cash and cash equivalents*

Cash comprises current deposits and time deposits with maturities of three months or less from the date of acquisition with banks. Cash equivalents are short term and highly liquid investments that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short term cash commitments rather than for investment or other purposes.

## **(f) Revenue recognition**

Revenue is recognised in profit or loss as follows:

### (i) Dividend income

Dividend income from listed investments is recognised when the share price of the investment goes ex dividend. Dividends from other investments are recognised in profit or loss as dividend income when declared. In some cases, the Fund may choose to receive dividends in the form of additional shares rather than cash. In such cases, the Fund recognises the dividend income for the amount of the equivalent cash dividend with the corresponding debit treated as an additional investment.

### (ii) Interest income

Interest income is recognised in profit or loss as it accrues, using the effective interest rate method using the rate exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of the financial asset. Interest income on bank deposits is disclosed separately on the face of the statement of comprehensive income.

Interest income on debt securities is included in net gains or losses from financial instruments at FVTPL.

## **(h) Foreign exchange gains and losses**

Foreign exchange gains and losses on financial assets and financial liabilities at FVTPL are recognised together with other changes in the fair value. Included in profit or loss line item Net foreign exchange losses are net of foreign exchange gains and losses on monetary financial assets and financial liabilities other than those classified as FVTPL.

### (i) Related parties

(a) A person, or a close member of that person's family, is related to the Fund if that person:

- (i) has control or joint control over the Fund;
- (ii) has significant influence over the Fund; or
- (iii) is a member of the key management personnel of the Fund.

(b) An entity is related to the Fund if any of the following conditions applies:

- (i) The entity and the Fund are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
- (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
- (iii) Both entities are joint ventures of the same third party.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

- (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
- (v) The entity is a post employment benefit plan for the benefit of employees of an entity related to the Fund.
- (vi) The entity is controlled or jointly controlled by a person identified in (a).
- (vii) A person identified in note 2(f)(a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).
- (viii) The entity, or any member of a group of which it is a part, provides key management personnel services to the Fund.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

## **(j) Subscriptions and redemptions**

The Fund recognises unitholders' subscriptions and allots units upon receipt of a valid subscription application and derecognises them upon receipt of a valid redemption application.

## **(k) Units in issue**

The Fund classifies financial instruments issued as financial liabilities or equity instruments in accordance with the substance of the contractual terms of the instruments.

The Fund has multiple classes of redeemable units in issue "A" class and Provident class. All the classes belong to the most subordinate class of financial instruments in the Fund and rank *pari passu* in all material respects and have the same terms and conditions other than different fee rates and distribution rights. The redeemable units provide unitholders with the right to require redemption for cash at a value proportionate to the unitholders' share in the Fund's net assets at each daily redemption date, and also in the event of the Fund's liquidation. The redeemable units are classified as financial liabilities and are measured at the present value of the redeemable amounts.

## **(l) Distributions to holders of redeemable units**

Distributions to holders of redeemable units of "A" class and Provident class classified as financial liabilities are recognised in profit or loss as finance costs when they are authorised and no longer at the discretion of the Fund.

For the Provident class, all dividend income and interest arising are accumulated within the Fund and will not be distributed to the unitholders.

## **(m) Segment reporting**

An operating segment is a component of the Fund that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Fund's other components, whose operating results are reviewed regularly by the chief operating decision maker to make decisions about resources allocated to the segment and assess its performance, and for which discrete financial information is available. Segment results that are reported to the chief operating decision maker include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. The chief operating decision maker of the Fund is identified as the Manager.

## **(n) Transaction Costs**

Transaction costs are costs incurred to purchase/sale of financial assets or liabilities at FVTPL. They include fees and commissions paid to agents, brokers and dealers. Transaction costs, when incurred, are immediately recognized in the statement of comprehensive income as an expense.

## **3 Net gains from financial instruments at fair value through profit or loss**

	2024	2023
Net realised gains on sale of investment	\$17,213,859	\$71,053,830
Changes in unrealised gains in value of investment	40,571,031	8,340,488
	<u>\$57,784,890</u>	<u>\$79,394,318</u>

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

## 4 Taxation

No provision for Hong Kong profits tax has been made in the financial statements as the Fund is exempt from taxation under section 26A(1A) of the Hong Kong Inland Revenue Ordinance.

Interest income and dividend income received by the Fund may be subject to non-recoverable withholding tax imposed in the country of origin. Interest income and dividend income is recorded gross of such taxes and the withholding tax is recognised in profit or loss as incurred.

Capital gains realised in certain jurisdictions may be subject to capital gains tax. Capital gains tax is charged to profit or loss on an accrual basis, using tax rates enacted or substantively enacted at the date of the statement of financial position.

Taxation in profit or loss represents:

	2024	2023
Capital gains tax	\$57,720	\$506,655
Overseas withholding tax	81,770	1,046,438
	<u>\$139,490</u>	<u>\$1,553,093</u>

## 7 Related party transactions

The following is a summary of significant related party transactions or transactions entered into during the year between the Fund, the Trustee, the Manager and their Connected Persons. Connected Persons are those as defined in the SFC Code. All transactions during the year between the Fund, the Trustee and the Manager and their Connected Persons were entered into in the ordinary course of business and under normal commercial terms. To the best of the knowledge of the Trustee and the Manager, the Fund did not have any other transactions with Connected Persons except for those disclosed below.

- (a) The Fund is managed by the Manager. The Manager receives a management fee, payable monthly in arrears, equivalent to a percentage per annum of the net asset value of the Fund as follows for the years ended 31 July 2024 and 2023:

For "A" class income units	1.50%	<b>2024</b>	<b>2023</b>
For Provident class units	0.75%		

HSBC Institutional Trust Services (Asia) Limited ("HTHK") was entitled to registrar's fees per annum for each class of units and fees for various administrative functions performed on behalf of the Fund. The registrar's fees are computed based on different type of transaction processes with different charge rate.

	<b>2024</b>	<b>2023</b>
(i) Management fees for the year	\$9,186,155	\$9,719,502
(ii) Management fees payable at year end	838,755	825,072
(iii) Registrar's fees and other administrative fees paid to HTHK for the year	182,515	161,347
(iv) Registrar's fees and other administrative fees payable to HTHK at year end	17,644	17,644

- (b) Bank accounts are maintained with members of the HSBC Group. The balances of these accounts amounted to \$3,762,368 (2023: \$9,647,505) at year ended 31 July 2024. No bank overdraft (2023: 2,638) at year ended 31 July 2024. Interest income arising from these accounts amounted to \$223,897 (2023: \$320,397). Bank charges were paid to HSBC group amounted to \$Nil (2023: \$260). Margin accounts are maintained with HSBC Bank plc, which is fellow subsidiary of the Manager within the HSBC Group. The balances of margin deposits amounted to \$3,780,193 (2023: \$997,125) at year ended 31 July 2024.

- (c) The Trustee of the Fund is HSBC Institutional Trust Services (Asia) Limited ("the Trustee"), which are the fellow subsidiaries of the Manager within the HSBC Group. The trustee of the Fund receives a monthly fee equivalent to 0.07% (2023: 0.07%) for all class units per annum of the net asset value of the Fund.

(i) Trustee's fees paid to the Trustee	\$729,187	\$768,135
(ii) Trustee's fees payable to the Trustee at year end	65,712	64,812

- (d) The custodian of the Fund is HSBC Institutional Trust Services (Asia) Limited ("HTHK") (the "Custodian"), which are the fellow subsidiary of the Manager within the HSBC Group. The Custodian receives a monthly fee equivalent to 0.15 – 0.62 (2023: 0.15 – 0.62) basis points based on sub custodian value of the securities. The Custodian also receives a transaction fee of US\$4.4 – US\$100 (2023: US\$4.4 – US\$100) for each trade handled for the Fund.

	<b>2024</b>	<b>2023</b>
(i) Safe custody fees paid to custodian	\$66,487	\$98,453
(ii) Safe custody fee payable to custodian at year end	5,773	5,621
(iii) Safe custody transaction fees paid to custodian	108,024	671,321
(iv) Safe custody transaction fees payable to custodian at year end	8,280	6,033

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

- (e) In its purchases and sales of investments, the Fund utilises the brokerage services of HSBC Institutional Trust Services (Asia) Limited, HSBC Bank plc London, HSBC Global Asset Management (UK) Limited and The Hong Kong and Shanghai Banking Corporation Limited, Hong Kong, which are members of the HSBC Group. Details of transactions effected through these companies are as follows:

	HSBC Institutional Trust		HSBC Bank plc London	
	Services (Asia) Ltd

The market value of these investments at year end was \$836,158,187 (2023: \$1,055,180,913).

- (g) The details of the outstanding foreign currency forward contracts with The Hongkong and Shanghai Banking Corporation Limited as at years end 31 July 2024 and 2023 is as follows:

	2024	2023
Receivable on forward contracts	\$22,514	\$-
Payable on forward contracts	394,519	9,753

As at 31 July 2024, the Fund held outstanding futures contracts as financial assets HK\$839,584 (2023: HK\$296,351) and financial liabilities HK\$343,500 (2023: HK\$899,288) respectively with HSBC Holdings PLC.

As at 31 July 2024, the Fund held outstanding option contracts as financial assets HK\$2,392,848 (2023: HK\$975,151) and financial liabilities HK\$1,263,037 (2023: HK\$935,003) respectively with HSBC Global Banking and Markets.

- (h) During the year ended 31 July 2024, the Fund has incurred other expenses amounting to \$47,080 (2023: \$47,256) paid to the Connected Persons of the Trust.
- (i) During the years ended 31 July 2024 and 2023, the Manager and its Connected Persons did not subscribe or redeem units of the Fund.

## 8 Soft commission arrangements

No soft commission arrangements were entered into with brokers by the Fund during the years ended 31 July 2024 and 2023.

The Manager may enter into soft commission arrangements for the provision to the Manager or Connected Persons of goods and services which are of demonstrable benefit to the Unitholders provided that (i) the brokerage rates do not exceed customary institutional full service brokerage rates and the execution of transactions for a Fund is consistent with best execution standards, (ii) periodic disclosure is made in the annual report of the Fund or the relevant Fund in the form of a statement describing the soft dollar policies and practices of the Manager, including a description of goods and services received by it, and (iii) the availability of soft dollar arrangements is not the sole or primary purpose to perform or arrange transaction with such broker or dealer.

For the avoidance of doubt (and without prejudice to the generality of the foregoing) the following goods and services may be considered as of such benefit to Unitholders: research and advisory services; economic and political analysis; portfolio analysis (including valuation and performance measurement); market analysis, data and quotation services; computer hardware and software incidental to the above goods and services; clearing and custodian services; and investment-related publications.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

## 9 Number of units in issue and net assets attributable to unitholders per unit

- (a) Net assets attributable to unitholders per unit are calculated based on the net assets attributable to unitholders divided by the total units in issue as at 31 July 2024 and 2023. The detailed breakdown are as follows:

	2024	2023
Number of units in issue as at 31 July		
– “A” class income units	7,654,824	8,400,218
– Provident class units	24,403,514	28,164,342
	<hr/>	<hr/>
	2024	2023
Net assets attributable to unitholders per unit		
– “A” class income units	\$26.08	\$24.95
– Provident class units	33.97	32.26
	<hr/>	<hr/>

- (b) The capital of the Fund is represented by the net assets attributable to unitholders which are subject to subscriptions and redemptions of units. The Fund does not have any externally imposed capital requirements.

Units may be acquired and redeemed on any valuation date at the unit value determined on that day. The valuation date is every business day, which is also a day on which banks in Hong Kong are normally open for business, or such other day(s) as the Manager may determine. The minimum initial investment amount for the Fund is \$10,000 for “A” Class Income Units, with subsequent minimum investments of no less than \$10,000. No minimum initial and subsequent investment amounts apply to Provident Class Units.

Units may be redeemed on any valuation date, at the redemption price applicable as at the close of business in Hong Kong on such day. The minimum amount which can be redeemed at any one time is \$10,000 for “A” Class Income Units. No minimum redemption amounts apply to Provident Class Units. A unitholder may not make a partial redemption if this would result in his holding being less than the minimum holding of \$10,000 for “A” Class Units. No minimum holding applies to Provident Class Units.

## 10 Equalisation

The equalisation portion of received and receivable on issue of units or paid and payable on redemption of units is calculated based on the portion of the unit price related to undistributed accumulated net investment income and accumulated expenses of the unit at the date of issue or redemption.

## 11 Distributions

	Note	2024	2023
<b>Amount available for distribution brought forward</b>		\$620,948,083	\$622,357,607
Loss for the year available for distribution *		(6,979,891)	(1,460,401)
Equalisation on subscriptions and redemptions	10	540,842	50,877

## 12 Financial instruments and associated risks

The Fund maintains an investment portfolio in a variety of listed and unlisted but quoted financial instruments as dictated by its investment management strategy. The investment objective of the Fund is to achieve long-term capital growth by investing in a diversified portfolio with a bias towards global equities through direct investment and/or other collective investment schemes that the Fund may invest in. Exposure to bonds and to cash deposit will be kept to a minimum. The Fund's investment portfolio comprises equities, unit trusts, option contracts, forward contracts and futures contracts.

The Fund's investing activities expose it to various types of risks that are associated with the financial instruments and markets in which it invests. The Manager and the Trustee have set out below the most important types of financial risks inherent in each type of financial instrument. The Manager and the Trustee would like to highlight that the following list of associated risks only sets out some of the risks but does not purport to constitute an exhaustive list of all the risks inherent in an investment in the Fund. Unitholders should note that additional information in respect of risks associated with financial instruments in the Fund can be found in the Fund's offering document.

The nature and extent of the financial instruments outstanding at the date of the statement of financial position and the risk management policies employed by the Fund are discussed below.

### (a) Price risk

Price risk is the risk that value of the instrument will fluctuate as a result of changes in market prices, whether caused by factors specific to an individual investment, its issuer or all factors affecting all instruments traded in the market.

The impact of a 15% (2023: 15%) increase in value of the investments at 31 July 2024, with all other variables held constant, is shown below. An equal change in the opposite direction would have reduced the net assets attributable to unitholders by an equal amount. The analysis is performed on the same basis for 2023.

	Market exposures	Change in net assets if investment value increased by 15%
<b>As at 31 July 2024</b>		
Equities	\$7	\$1
Unit trusts	1,013,697,557	152,054,634
Futures contracts	496,084	74,413
Option contracts	1,129,811	169,472
<b>As at 31 July 2023</b>		
Equities	\$430,751	\$64,613
Unit trusts	1,108,379,450	166,256,918
Futures contracts	(602,937)	(90,441)
Option contracts	40,148	6,022

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

## (b) Interest rate risk

The Fund has negligible interest bearing financial assets and therefore minimal exposure to interest rate risk. As a result, changes in interest rates would have insignificant impact on the Fund's net assets attributable to unitholders and the profit for the year and no interest rate sensibility analysis is presented for years ended 31 July 2024 and 2023.

## (c) Currency risk

The Fund may invest in financial instruments and enter into transactions denominated in currencies other than its functional currency. Consequently, the Fund is exposed to risks that the exchange rate of its functional currency relative to other foreign currencies may change in a manner that has an adverse effect on the value of that portion of the Fund's assets or liabilities denominated in currencies other than Hong Kong dollars.

The fluctuations in the rate of exchange between the currency in which the asset or liability is denominated and the functional currency could result in an appreciation or depreciation in the fair value of that asset or liability. The Manager may attempt to mitigate this risk by using financial derivative instruments. The Manager monitors the Fund's currency exposures on an ongoing basis.

### Currency sensitivity

At 31 July 2024 and 2023, had the Hong Kong dollar ("HKD") weakened by 5% (2023: 5%) in relation to respective currencies, with all other variables held constant, the net assets attributable to unitholders and the profit for the year would have increased by the amounts shown below. The analysis is performed on the same basis for 2023.

**Change in net  
assets if HKD  
weakened by  
5%**

### As at 31 July 2024

#### Currencies

Australian dollar	\$20,800,202	\$1,040,010
Canadian dollar	(10,749,447)	(537,472)
Euro	26,797,037	1,339,852
Indian rupee	40,212	2,011
Japanese yen	11,377,641	568,882
Malaysian ringgit	(77,459)	(3,873)
Norwegian krona	10,225,036	511,252
Pound sterling	297,396,142	14,869,807
South African rand	6,799,963	339,998
South Korean won	1,522,397	76,120
Swiss franc	(5,805,250)	(290,263)
Turkish lira	7	-
<b>Total</b>	<b>\$358,326,481</b>	<b>\$17,916,324</b>

**Change in net  
assets if HKD  
weakened by  
5%**

### As at 31 July 2023

#### Currencies

Euro	\$19,279,001	\$962,908
Japanese yen	14,671,124	732,775
Malaysian ringgit	(78,794)	(3,940)
Philippine peso	11,940	597
Pound sterling	326,613,553	16,330,678
Russian ruble	459,140	22,957
Turkish lira	4	-
<b>Total</b>	<b>\$360,955,968</b>	<b>\$18,045,975</b>

As the HKD is pegged to the United States dollar ("USD"), the Fund does not expect any significant movements in USD/HKD exchange rate. A 5% (2023: 5%) appreciation of the HKD against the above currencies would have resulted in an equal but opposite effect on the financial statement amounts, on the basis that all other variables remain constant.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

## **(d) Credit risk**

### (i) Analysis of credit policy and concentration of credit risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund's exposure to credit risk is monitored by the Manager on an ongoing basis.

As at 31 July 2024 and 2023, all of the Fund's financial assets were exposed to credit risk. These include financial asset at FVTPL, interest and dividends receivable, subscriptions receivable, amounts due from brokers, other receivables and cash and cash equivalents placed with banks and the custodian.

As at 31 July 2024 and 2023, the Fund did not hold any debt securities and hence no relevant credit quality information is shown in related to investments.

Credit risk is managed by the reviewing and monitoring of the credit quality of debt instruments held by the Fund or the issuers of the debt instruments held by the Fund on an ongoing basis.

Credit risk arising from transactions with brokers relates to transactions awaiting settlement. Risk relating to unsettled transactions is considered small due to the short settlement period involved and the high credit quality of the brokers used.

Cash held by the Fund in current account is deposited with the HSBC Group. According to Moody's, the credit rating of HSBC Group is A3 (2023: A3). As at 31 July 2024 and 2023, the Trust held short-term time deposits with Credit Agricole CIB. According to Moody's, the credit rating of Credit Agricole CIB is P-1 (2023: P-1) as at 31 July 2024. Bankruptcy or insolvency of the bank may cause the Trust's rights with respect to the cash held by the bank to be delayed or limited. The Trust monitors the credit rating and financial position of the bank on an ongoing basis.

Substantially all of the assets of the sub funds are held by HSBC Institutional Trust Services (Asia) Limited (the "Custodian"). Bankruptcy or insolvency of the Custodian may cause the sub funds' rights with respect to securities held by the Custodian to be delayed or limited. The Custodian is a group company of HSBC, for which the long-term credit rating is Aa2 (2023: Aa2), as determined by Moody's.

The carrying amounts of financial assets best represent the maximum credit risk exposure at the date of statement of financial position.

As at 31 July 2024 and 2023, there were no other significant concentrations of credit risk to counterparties except to the custodian.

### (ii) Offsetting financial assets and financial liabilities

None of the financial assets and financial liabilities is offset in the statement of financial position.

As at 31 July 2024 and 2023, the disclosure set out in the table below include financial assets and financial liabilities that are subject to an enforceable master netting arrangement.

The enforceable master netting arrangements do not meet the criteria for offsetting in the statement of financial position. This is because they create a right of set off of recognised amounts that is enforceable only following on event of default, insolvency or bankruptcy of the Fund or its counterparties. In addition, the Fund and its counterparties do not intend to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

### (iii) Amounts arising from ECL

Impairment on interest and dividends receivable, subscriptions receivable, amounts due from brokers, other receivables and cash and cash equivalents have been measured on a 12-month expected loss basis and reflects the short maturities of the exposures. The Fund considers that these exposures have low credit risk based on the external credit ratings and/or review result of the counterparties.

The Manager of the Fund monitors changes in credit risk on these exposures by tracking published external credit ratings of the counterparties and/or performed ongoing review of the counterparties.

The Manager considers the probability of default to be minimal as the counterparties have a strong capacity to meet their contractual obligations in the near term. There is no impairment allowance recognised on interest and dividends receivable, subscriptions receivable, amounts due from brokers, other receivables and cash and cash equivalents. The amount of the loss allowance did not change during the years ended 31 July 2024 and 2023.

### (e) Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting obligations arising from its financial liabilities that are settled by delivering cash or another financial asset, or that such obligations will have to be settled in a manner disadvantageous to the Fund. The Fund is exposed to daily liquidity risk on redemption of units.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

The Fund's policy is to regularly monitor current and expected liquidity requirements to ensure that it maintains sufficient reserves of cash and readily realisable marketable securities to meet its liquidity requirements in the short and longer term.

The Fund's listed investments are considered to have insignificant exposure to liquidity risk as they are all readily realisable under normal market conditions. The Fund, however, also invests in unlisted investments such as unlisted unit trusts and rights, which are not publicly traded on exchanges and may become illiquid.

As at 31 July 2024 and 2023, the Fund's financial liabilities are due within three months, except for redemptions payable and net assets attributable to unitholders which are repayable on demand.

## (f) Capital management

The Fund's capital as at the year end date is represented by its redeemable units, which is classified as financial liabilities.

The Fund's objective in managing the capital is to ensure a stable and strong base to achieve long-term capital growth, and to manage liquidity risk arising from the redemptions. The Manager manages the capital of the Fund in accordance with the Fund's investment objectives and policies stated in the Fund's Explanatory Memorandum.

There were no changes in the policies and procedures during the year with respect to the Fund's approach to its capital management.

The amount and the movement of net assets attributable to unitholders are stated in the statement of changes in net assets attributable to unitholders. As the redeemable units are redeemed on demand at the unitholders' option, the actual level of redemption may differ significantly from historical experience.

## (g) Specific instruments

### Forward contracts

Forward contracts are commitments either to purchase or sell a designated financial instrument, currency, commodity or index at a specified future date for a specified price and may be settled in cash or the underlying financial asset.

Forward contracts result in exposure to market risk based on changes in market prices relative to contracted prices. Market risks arise due to the possible movement in foreign currency exchange rates, indices, and securities' values underlying these instruments. In addition, because of the low margin deposits normally required in relation to notional contract sizes, a high degree of leverage may be typical of a forward contract and may result in substantial losses to the Fund. Forward contracts are generally subject to liquidity risk.

As at 31 July 2024 and 2023, the Fund's holdings in foreign currency forward contracts were as specified in the following tables.

### As at 31 July 2024

Buy	Sell	Settlement date	Fair value assets	Fair value liabilities
CHF612,159	JPY106,300,000	8 August 2024	\$-	\$(87,382)

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

## Futures contracts

Futures contracts are legally binding commitments to buy or sell a financial instrument, currency, commodity or index at a specified future date for a specified price which are agreed upon at the initiation of the contract by the buyer and seller.

Futures contracts are standardised for quality and quantity and traded on a futures exchange.

As at 31 July 2024 and 2023, the Fund's holdings in futures contracts were as specified in the following table.

### As at 31 July 2024

Underlying equity	Futures exchange	No of contracts	Weighted average contract price	Contract size	Maturity date	Fair value assets	Fair value liabilities

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

## 13 Fair value information

The Fund's financial instruments are measured at fair value on the date of the statement of financial position. Fair value estimates are made at a specified point in time, based on market conditions and information about the financial instruments. Usually, fair values can be reliably determined within a reasonable range of estimates. For certain other financial instruments, including interest and dividends receivable, subscriptions receivable, amounts due from brokers, redemptions payable, amounts due to brokers, distributions payable and other payables, the carrying amounts approximate fair values due to the immediate or short term nature of these financial instruments.

### Valuation of financial instruments

The Fund's accounting policy on fair value measurements is detailed in significant accounting policy in note 2e(iv).

The Fund measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements.

- Level 1: Inputs that are quoted market prices (unadjusted) in active markets for identical instruments.
- Level 2: Inputs other than quoted prices included within level 1 that are observable either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques in which all significant inputs are directly or indirectly observable from market data.
- Level 3: Inputs that are unobservable. This category includes all instruments for which the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments but for which significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

When fair values of listed and quoted investments at the reporting date are based on quoted market prices or binding dealer price quotations in an active market, without any deduction for transactions costs, the instruments are included within level 1 of the hierarchy. When fair values of debt securities at the reporting date represent quoted prices in markets that are considered less than active or consensus prices derived by third parties using valuation techniques where all significant inputs are directly or indirectly observable from market data, those debt securities are included within level 2 of the hierarchy. For all other financial instruments, the Fund determines fair value using valuation techniques.

The Fund uses widely categorize valuation models for determining the fair value of the financial instruments which do not have quoted market prices in active markets. Valuation techniques include net present value, discounted cash flow models, comparison to similar instruments for which market observable prices exist, comparison to quoted prices for identical instruments that are considered less than active and other valuation models.

The following analyses financial assets and liabilities at fair value through profit or loss at the date of the statement of financial position, by the level in the fair value hierarchy into which the fair value measurement is categorized.

### Financial instruments at fair value through profit or loss

<sup>(1)</sup> As at 31 July 2024, listed equity securities include nineteen investments (2023: nineteen) whose trading was suspended and their fair values were marked as HK\$Nil.

There were no transfers between levels during the years ended 31 July 2023 and 2024.

The significant unobservable inputs used in the fair value measurement categorised within level 3 of the fair value hierarchy together with a quantitative sensitivity analysis is as shown below:

Description	Input	Change in the relevant input	Effect on the net assets attributable to unitholders
<b>As at 31 July 2024</b>			
Equities	100%	5%/(5)%	\$-/451,029
<b>As at 31 July 2023</b>			
Equities	100%	5%/(5)%	\$-/416,821

## Valuation of financial instruments not measured at fair value

The financial instruments not measured at fair value through profit or loss are short term financial assets and financial liabilities whose carrying amounts approximate fair value.

## 14 Segment information

The Manager makes the strategic resource allocation on behalf of the Fund and determines the operating segments based on the internal reporting used to make strategic decisions.

The Manager's asset allocation decisions are based on one single and integrated investment strategy, and the Fund's performance is evaluated on an overall basis. Accordingly, the Manager considers that the Fund has one single operating segment which is investing in a portfolio of financial instruments to generate investment returns in accordance with the investment objective stipulated in its Explanatory Memorandum of the Fund. There were no changes in the reportable operating segment during the years ended 31 July 2024 and 2023.

All revenues and losses generated from investments by the Fund are disclosed in note 3. The segment information provided to the Manager is the same as that disclosed in the statement of comprehensive income and the statement of financial position.

## 15 Involvement with unconsolidated structured entities

The Fund has concluded that the listed and unlisted investment funds in which it invests, but that it does not consolidate, meet the definition of structured entities because:

- the voting rights in the funds are not dominant rights in deciding who controls them as they relate to administrative tasks only;
- each fund's activities are restricted by its prospectus; and
- the funds have narrow and well defined objectives to provide investment opportunities to investors.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

The table below describes the types of structured entities that the Fund does not consolidate but in which it holds an interest.

Type of structured entity	Nature and purpose	Interest held by the Fund
Investment funds	To manage assets on behalf of third party investors and generate fees for the investment manager	Investment in units issued by the funds
	These vehicles are financed through the issue of units to investors	

The table below sets out interests held by the Fund in unconsolidated structured entities. The maximum exposure to loss is the carrying amount of the financial assets held.

	31 July 2024			Effective for accounting periods beginning on or after
	Number of investee funds	Total net assets (based on unaudited information)	Carrying amount included in "Financial assets of fair value through profit or loss"	
Listed investment funds	13	\$2,306,847,000,000	\$177,539,370	1 January 2024
Unlisted investment funds	8	\$2,752,646,000,000	\$836,158,187	
	31 July 2023			
	Number of investee funds	Total net assets (based on unaudited information)	Carrying amount included in "Financial assets of fair value through profit or loss"	
Listed investment funds	5	\$750,588,000,000	\$53,198,537	1 January 2025
Unlisted investment funds	11	\$2,637,156,000,000	\$1,055,180,913	

During the years ended 31 July 2024 and 2023, the Fund did not provide financial support to unconsolidated structured entities and has no intention of providing financial or other support.

The Fund can redeem units in the above investment funds on any respective dealing day.

## 16 Possible impact of amendments, new standards and interpretations issued but not yet effective for the year ended 31 July 2024

Up to the date of issue of these financial statements, the HKICPA has issued a number of amendments and a new standard which are not yet effective for the year ended 31 July 2024 and which have not been adopted in these financial statements.

Of these developments, the following may be relevant to the Fund's operations and financial statements:

	Effective for accounting periods beginning on or after
Amendments to HKAS 1, <i>Presentation of financial statements: Classification of liabilities as current or non-current</i>	1 January 2024
Amendments to HKAS 21, <i>The effects of changes in foreign exchange rates: Lack of exchangeability</i>	1 January 2025

The Fund is in the process of making an assessment of what the impact of these developments is expected to be in the period of initial application. So far it has concluded that the adoption of them is unlikely to have a significant impact on the Fund's result of operations and financial position.

## 17 Event occurring after year-end date

In preparing these financial statements, the Manager and the Trustee have evaluated all significant events up to the date the financial statements are approved and authorized for issue. There were no subsequent events that would require adjustment or disclosure to these financial statements.

## 18 Approval of financial statements

The financial statements were approved by the Manager and the Trustee on 29 November 2024.

# SFC ESG related disclosure for the year ended 31 July 2024 (Unaudited)

## (a) HSBC Managed Growth Fund's Carbon Footprint including formula

	Carbon Footprint	Coverage	Holdings Weight
<b>Corporate Carbon Footprint*</b>	84.11	99%	91%

\* Expressed in CO<sub>2</sub>e/USDmn invested using Scope 1+2 Carbon Emissions, source from S&P Trucost

## (b) Corporate Carbon Footprint (tonnes CO<sub>2</sub>e/USDmn):

The GHG emissions apportioned to the portfolio per million USD owned by the portfolio. Each holding's contribution to the carbon footprint of the portfolio is calculated on an equity ownership basis using the Enterprise Value (EVIC) of the companies. The carbon footprint of the Fund is the sum of these contributions, normalised by amount owned.

$$\frac{\sum_i \left( \frac{\text{current value of investment}_i}{\text{investee company's enterprise value}_i} \times \text{investee company's Scope 1 and 2 GHG emissions}_i \right)}{\text{current value of all investments (USDM)}}$$

Coverage: This indicates the proportion of the Fund for which data can be sourced.

## (c) Assumption/data limitation

This GHG consists to sum of the carbon emissions (scope 1, 2 and 3) of issuer divided by enterprise value, multiplied by the weight of the investment. Enterprise Value, including cash (EVIC) in million Euro are sourced from AM's reporting vendor FactSet. It is a measure of carbon emissions ownership, as it takes into account the proportion of emissions per investment, relative to the total size of the issuer value. However, carbon footprint can fluctuate without a change in carbon emissions as a result of changes in issuer value. Total carbon footprint is the sum of all issuer carbon footprint, divided by the value of the portfolio.

Data limitation: Carbon emissions (Scope 1, 2 & 3) are primarily based on company carbon disclosures, or estimated by S&P Trucost in the absence of company reports. It is worth noting the lack of coverage of scope 3 GHG emissions and some niche asset classes (such as Small Caps, High Yield or emerging markets issuers). These gaps are due to companies not reporting emissions and it is not appropriate to estimate non-reported emissions for niche asset classes or sub-industries.

It is important to note that we decided to zero down the carbon emission for internally approved green bonds – i.e. green bonds for which “greenness” has been ascertained and approved by a fully-fledged HSBC AM committee. This option has been set in the absence of a more accurate and systematic assessment which would consist in applying to the concerned bond a reduced CHG emissions based on the financed projects/use of proceeds. The same abatement (“zeroing”) will apply similarly to portfolio position and corresponding benchmark components.

# Trustee's Report

## **HSBC Managed Stable Fund ("the Fund")**

We hereby confirm that, to the best of our knowledge, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 14 March 1997, as amended, for the year ended 31 July 2024.

# Independent Auditor's Report to the Unitholders

## Report on the Audit of the Financial Statements

### Opinion

We have audited the financial statements of HSBC Managed Stable Fund ("the Fund") set out on pages 92 to 119, which comprise the statement of financial position as at 31 July 2024, the statement of comprehensive income, the statement of changes in net assets attributable to unitholders, the cash flow statement for the year then ended and notes to the financial statements, including material accounting policy information.

In our opinion, the financial statements give a true and fair view of the financial disposition of the Fund as at 31 July 2024 and of its financial transactions and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

### Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAAs") issued by the HKICPA. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants ("the Code") and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Information Other than the Financial Statements and Auditor's Report Thereon

The Manager and the Trustee of the Fund are responsible for the other information. The other information comprises all the information included in the annual report, other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other

information, we are required to report that fact. We have nothing to report in this regard.

### Responsibilities of the Manager and the Trustee of the Fund for the Financial Statements

The Manager and the Trustee of the Fund are responsible for the preparation of financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and for such internal control as the Manager and the Trustee of the Fund determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Manager and the Trustee of the Fund are responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager and the Trustee of the Fund either intend to liquidate the Trust or to cease operations, or have no realistic alternative but to do so.

In addition, the Manager and the Trustee of the Fund are required to ensure that the financial statements have been properly prepared in accordance with the relevant provisions of the Trust Deed, as amended ("the Trust Deed"), and the relevant disclosure provisions of Appendix E of the Code on Unit Trusts and Mutual Funds ("the SFC Code") issued by the Hong Kong Securities and Futures Commission.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the

# Independent Auditor's Report to the Unitholders

relevant provisions of the Trust Deed and the relevant disclosure provisions of Appendix E of the SFC Code.

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager and the Trustee of the Fund.
- Conclude on the appropriateness of the Manager's and the Trustee's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager and the Trustee of the Fund regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## **Report on matters under the relevant provisions of the Trust Deed and the relevant disclosure provisions of Appendix E of the SFC Code**

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant provisions of the Trust Deed and the relevant disclosure provisions of Appendix E of the SFC Code.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

## HSBC Managed Stable Fund

### 1 The Fund

HSBC Managed Stable Fund (the "Fund") is an open ended unit trust which was established under a trust deed dated 14 March 1997, as amended ("the Trust Deed") made between HSBC Investment Funds (Hong Kong) Limited (the "Manager") and HSBC International Trust Services (Asia) Limited (the "Trustee"). The Trust Deed was governed by the laws of the Cayman Islands. The Fund was registered under the Mutual Funds Law of the Cayman Islands on 13 March 1997. The Fund is governed by Hong Kong laws with effect from 18 January 2019. The objective of the Fund is to achieve long term stable capital growth by investing in a diversified portfolio with a bias towards global bonds and fixed income instruments through direct investment and/or other collective investment schemes that the Fund may invest in.

The Fund is authorised by the Hong Kong Securities and Futures Commission ("SFC") under section 104 of the Hong Kong Securities and Futures Ordinance ("HKSF") and is governed by the Hong Kong Code on Unit Trusts and Mutual Funds issued by the SFC (the "SFC code").

### 2 Material accounting policies

#### (a) Statement of compliance

The financial statements have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards ("HKFRSs"), which collective term includes all applicable individual HKFRSs, Hong Kong Accounting Standards ("HKASs") and Interpretations issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"), the relevant provisions of the Trust Deed and the relevant disclosure provisions of the SFC code. Material accounting policies adopted by the Fund are set out below.

The HKICPA has issued certain new and revised HKFRSs that are first effective or available for early adoption for the current accounting period of the Fund. Note 2(c) provides information on any changes in accounting policies resulting from initial application of these developments to the extent that they are relevant to the Fund for the current and prior accounting periods reflected in these financial statements.

#### (b) Basis of preparation of the financial statements

The functional and presentation currency of the Fund is the Hong Kong dollar ("HKD") reflecting the fact that the participating redeemable units of the Fund are issued and redeemed in Hong Kong dollars.

The financial statements are prepared on a fair value basis for financial assets and financial liabilities at fair value through profit or loss ("FVTPL") and financial derivative instruments. Other financial assets and financial liabilities are stated at amortised cost or redemption amount (redeemable units).

The preparation of financial statements in conformity with HKFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

#### (c) Changes in accounting policies

The HKICPA has issued certain amendments to HKFRSs that are first effective for the current accounting period of the Fund. None of these developments have had a material effect on how the Fund's result and financial position for the current or prior periods have been prepared or presented in this financial report.

The Fund adopted the Amendments of HKAS 1, *Presentation of financial statements and HKFRS Practice Statement 2, Making materiality judgements: Disclosure of accounting policies*. Although the amendments did not result in any changes to the accounting policies themselves, they impacted the accounting policy information disclosed in the financial statements.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

The amendments required the disclosure of 'material' rather than 'significant' accounting policies. The amendments also provide guidance on the application of materiality to disclosure of accounting policies, assisting entities to provide useful, entity-specific accounting policy information that users need to understand other information in the financial statements.

The Fund has not applied any new standard or interpretation that is not yet effective for the current accounting period (see note 16).

## **(d) Foreign currency translation**

Foreign currency transactions during the years are translated into Hong Kong dollars ("HKD") at the exchange rates ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated into Hong Kong dollars at the exchange rates ruling at the date of the statement of financial position. Foreign currency exchange differences arising on translation and realised gains and losses on disposal or settlement of monetary assets and liabilities are recognised in profit or loss.

Foreign currency exchange differences relating to investments at FVTPL are included in net gains or losses from financial instruments at FVTPL. All other foreign currency exchange differences relating to monetary items including cash and cash equivalents are presented separately in profit or loss.

## **(e) Financial instruments**

### **(i) Classification**

On initial recognition, the Fund classifies financial assets as measured at amortised cost or FVTPL.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest ("SPPI").

All other financial assets of the Fund is measured at FVTPL.

### *Business model assessment*

In making an assessment of the objective of the business model in which a financial asset is held, the Fund considers all of the relevant information about how the business is managed, including:

- the documented investment strategy and the execution of this strategy in practice. This includes whether the investment strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Fund's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how the Manager is compensated: e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Fund's continuing recognition of the assets.

The Fund has determined that it has two business models.

- Held-to-collect business model: this includes interest and dividends receivable, subscriptions receivable, amounts due from brokers, other receivables and cash and cash equivalents. These financial assets are held to collect contractual cash flow.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

- Other business model: this includes equity instruments, debt instruments, collective investment schemes and financial derivative instruments. These financial assets are managed and their performance is evaluated, on a fair value basis, with frequent sales taking place.

## *Assessment whether contractual cash flows are SPPI*

For the purposes of this assessment, "principal" is defined as the fair value of the financial asset on initial recognition. "Interest" is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are SPPI, the Fund considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Fund considers:

- contingent events that would change the amount or timing of cash flows;
- leverage features;
- prepayment and extension features;
- terms that limit the Fund's claim to cash flows from specified assets (e.g. non-recourse features); and
- features that modify consideration for the time value of money (e.g. periodical reset of interest rates).

The Fund classifies its investments based on the business model and contractual cash flows assessment. Accordingly, the Fund classifies all its equity instruments, debt instruments, collective investment schemes and financial derivative instruments into financial assets at FVTPL category. Financial assets measured at amortised cost include interest and dividends receivable, subscriptions receivable, amounts due from brokers, other receivables and cash and cash equivalents. Financial liabilities that are not at fair value through profit or loss included redemptions payable, distributions payable, amounts due to brokers, and other payables.

All derivatives financial instruments in a net receivable position (positive fair value) are reported as financial assets. All derivatives financial instruments in a net payable position (negative fair value) are reported as financial liabilities.

## *Reclassifications*

Financial assets are not reclassified subsequent to their initial recognition unless the Fund was to change its business model for managing financial assets, in which case all affected financial assets would be reclassified on the first day of the first reporting period following the change in the business model.

### (ii) Recognition

The Fund recognises financial assets and financial liabilities on the date it becomes a party to the contractual provisions of the instrument.

A regular way purchase or sale of financial assets and financial liabilities is recognised by using trade date accounting. From this date any gains and losses arising from changes in fair value of the financial assets or financial liabilities are recorded.

Financial liabilities are not recognised unless one of the parties has performed their obligations under the contract or the contract is a derivative contract not exempted from the scope of HKFRS 9.

### (iii) Measurement

Financial instruments are measured initially at fair value (transaction price). Transaction costs on financial assets and liabilities at FVTPL are expensed immediately, while on other financial instruments that they are amortised.

Subsequent to initial recognition, all instruments classified at FVTPL are measured at fair value with changes in their fair value recognised in profit or loss.

Financial assets classified as measured at amortised cost are carried at amortised cost using the effective interest rate method, less impairment losses, if any.

Financial liabilities other than those at FVTPL are measured at amortised cost using the effective interest rate method. Financial liabilities arising from the redeemable units issued by the Fund are carried at the redemption amount representing the unitholders' right to a residual interest in the Fund's assets.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

(iv) Fair value measurement principles

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal, or in its absence, the most advantageous market to which the Fund has access at that date. The fair value of a liability reflects its non performance risk.

When available, the Fund measures the fair value of an instrument using the quoted price in an active market for that instrument provided such price is within the bid ask spread. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. In circumstances where the quoted price is not within the bid ask spread, the manager of the Fund will determine the points within the bid ask spread that are most representative of the fair value.

When there is no quoted price in an active market, the Fund uses valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all the factors that market participants would take into account in pricing a transaction.

The best evidence of the fair value of a financial instrument at initial recognition is normally the transaction price i.e. the fair value of the consideration given or received. If the Fund determines that the fair value at initial recognition differs from the transaction price and the fair value is evidenced neither by a quoted price in an active market for an identical asset or liability nor based on a valuation technique that uses only data from observable markets, the financial instrument is initially measured at fair value, adjusted to defer the difference between the fair value at initial recognition and the transaction price. Subsequently, that difference is recognised in profit or loss on an appropriate basis over the life of the instrument but no later than when the valuation is supported wholly by observable market data or the transaction is closed out.

If an asset or a liability measured at fair value has a bid price and an ask price, the Fund measures assets and long positions at a bid price and liabilities and short positions at an ask price.

Portfolios of financial assets and financial liabilities that are exposed to market risk and credit risk that are managed by the Fund on the basis of the net exposure to either market or credit risk, are measured on the basis of a price that would be received to sell a net long position (or paid to transfer a net short position) or a particular risk exposure. Those portfolio level adjustments are allocated to the individual financial assets and liabilities on the basis of the relative risk adjustment of each of the individual instruments in the portfolio.

The Fund recognises transfers between levels of the fair value hierarchy as of the end of the reporting period during which the change has occurred.

(v) Amortised cost measurement principles

The amortised cost of a financial asset or liability is the amount at which the financial asset or liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between the initial amount recognised and the maturity amount, minus any reduction for impairment.

(vi) Impairment

At each reporting date, the Fund assesses whether credit risk for financial assets held at amortised cost has increased significantly since initial recognition. If there is a significant increase in credit risk since initial recognition, then the Fund measures the loss allowances on financial assets at an amount equal to the lifetime expected credit losses.

If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Fund measures the loss allowances on financial assets at an amount equal to the expected credit losses for the later of 12 months or the period to maturity, if the amount is material. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered as credit impaired.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

## (vii) Derecognition

The Fund derecognises a financial asset when the contractual rights to the cash flows from the financial assets expire or it transfers the financial asset and the transfer qualifies for derecognition in accordance with HKFRS 9.

The Fund uses the weighted average method to determine realised gains and losses on derecognition.

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or has expired.

## (viii) Offsetting

Financial assets and liabilities are offset and the net amount is reported in the statement of financial position when the Fund has a legally enforceable right to offset the recognised amounts and the transactions are intended to be settled on a net basis or simultaneously, e.g. through a market clearing mechanism.

## (ix) Cash and cash equivalents

Cash comprises current deposits and time deposit with maturities of these months or less from the date of acquisition with banks. Cash equivalents are short term and highly liquid investments that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short term cash commitments rather than for investment or other purposes.

## (f) Revenue recognition

Revenue is recognised in profit or loss as follows:

### (i) Dividend income

Dividend income from listed equity investments is recognised when the share price of the investment goes ex dividend. Dividends from other investments are recognised in profit or loss as dividend income when declared. In some cases, the Fund may choose to receive dividends in the form of additional shares rather than cash. In such cases, the Fund recognises the dividend income for the amount of the equivalent cash dividend with the corresponding debit treated as an additional investment.

### (ii) Interest income

Interest income is recognised in profit or loss as it accrues, using the effective interest rate method using the rate exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of the financial asset. Interest income on bank deposits is disclosed separately on the face of the statement of comprehensive income. Interest income on debt securities is included in net gains or losses from financial instruments at FVTPL.

## (g) Expenses

All expenses are recognised in profit or loss on an accrual basis.

## (h) Foreign exchange gains and losses

Foreign exchange gains and losses on financial assets and financial liabilities at fair value through profit or loss are recognised together with other changes in the fair value. Included in profit or loss line item "Net foreign exchange losses" are net of foreign exchange gains and losses on monetary financial assets and financial liabilities other than those classified as FVTPL.

## (i) Related parties

(a) A person, or a close member of that person's family, is related to the Fund if that person:

- (i) has control or joint control over the Fund;
- (ii) has significant influence over the Fund; or
- (iii) is a member of the key management personnel of the Fund.

(b) An entity is related to the Fund if any of the following conditions applies:

- (i) The entity and the Fund are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
- (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

- (iii) Both entities are joint ventures of the same third party.
- (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
- (v) The entity is a post employment benefit plan for the benefit of employees of an entity related to the Fund.
- (vi) The entity is controlled or jointly controlled by a person identified in (a).
- (vii) A person identified in note 2(i)(a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).
- (viii) The entity, or any member of a group of which it is a part, provides key management personnel services to the Fund.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

## **(j) Subscriptions and redemptions**

The Fund recognises unitholders' subscriptions and allots units upon receipt of a valid subscription application and derecognises them upon receipt of a valid redemption application.

## **(k) Units in issue**

The Fund classifies financial instruments issued as financial liabilities or equity instruments in accordance with the substance of the contractual terms of the instruments.

The Fund has multiple classes of redeemable units in issue "A" class, Provident class and "Z" class. All the classes belong to the most subordinate class of financial instruments in the Fund and rank pari passu in all material respects and have the same terms and conditions other than different fee rates and distribution rights. The redeemable units provide unitholders with the right to require redemption for cash at a value proportionate to the unitholders' share in the Fund's net assets at each daily redemption date, and also in the event of the Fund's liquidation. The redeemable units are classified as financial liabilities and are measured at the present value of the redeemable amounts.

## **(l) Distributions to holders of redeemable units**

Distributions to holders of redeemable units of "A" class, Provident class and "Z" class classified as financial liabilities are recognised in profit or loss as finance costs when they are authorised and no longer at the discretion of the Fund.

For the Provident class and "Z" class, all dividend income and interest arising are accumulated within the Fund and will not be distributed to the unitholders.

## **(m) Segment reporting**

An operating segment is a component of the Fund that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Fund's other components, whose operating results are reviewed regularly by the chief operating decision maker to make decisions about resources allocated to the segment and assess its performance, and for which discrete financial information is available. Segment results that are reported to the chief operating decision maker include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. The chief operating decision maker of the Fund is identified as the Manager.

## **(n) Transaction costs**

Transactions costs are costs incurred to purchase/sale of financial assets or liabilities at FVTPL. They include fees and commissions paid to agents, brokers and dealers. Transaction costs, when incurred, are immediately recognised in profit or loss as an expense.

## **3 Net gains/(losses) from financial instruments at fair value through profit or loss**

	2024	2023
Net realised losses on the sale of investments	\$(1,365,017)	\$(2,721,061)
Changes in unrealised gains in value of investments	4,889,804	2,379,885
	\$3,524,787	\$(341,176)

During the year ended 31 July 2024, the Fund received interest from investments of \$1,251,800 (2023: \$1,083,326).

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

## 4 Taxation

No provision for Hong Kong profits tax has been made in the financial statements as the Fund is exempt from taxation under section 26A(1A) of the Hong Kong Inland Revenue Ordinance.

Interest income and dividend income received by the Fund may be subject to non recoverable withholding tax imposed in the country of origin. Interest income and dividend income is recorded gross of such taxes and the withholding tax is recognised in profit or loss as incurred.

Capital gains realised in certain jurisdictions may be subject to capital gains tax. Capital gains tax is charged to profit or loss on an accrual basis, using tax rates enacted or substantively enacted at the date of the statement of financial position.

Taxation in profit or loss represents:

	2024	2023
Overseas withholding tax	\$(18,743)	\$(19,630)
Capital gains tax refund	13,063	15,223
	<u>\$(5,680)</u>	<u>\$(4,407)</u>

## 7 Related party transactions

The following is a summary of significant related party transactions or transactions entered into during the year between the Fund, the Trustee, the Manager and their Connected Persons. Connected Persons are those as defined in the SFC code. All transactions during the year between the Fund, the Trustee, the Manager and their Connected Persons were entered into in the ordinary course of business and under normal commercial terms. To the best of the knowledge of the Trustee and the Manager, the Fund did not have any other transactions with Connected Persons except for those disclosed below.

(a) The Fund is managed by the Manager, which receives a management fee, payable monthly in arrears, equivalent to a percentage per annum of the net asset value of the Fund as follows for the years ended 31 July 2024 and 2023:

For "A" class units	1.5%
For Provident class units	0.75%
For "Z" class units	Nil

HSBC Institutional Trust Services (Asia) Limited ("HTHK") is entitled to registrar's fees per annum for each class of units and fees for various administrative functions performed on behalf of the Fund. The registrar's fees are computed based on different type of transaction processes with different charge rate.

	2024	2023
(i) Management fees for the year	\$961,280	\$1,162,871
(ii) Management fees payable at year end	85,706	98,743
(iii) Registrar's fees and other administrative fees paid to HTHK for the year	116,733	115,441
(iv) Registrar's fees and other administrative fees payable to HTHK at year end	17,644	17,644

(b) Bank accounts are maintained with The Hongkong and Shanghai Banking Corporation Limited, member of the HSBC Group. The balances of these accounts amounted to \$1,174,629 (2023: \$1,287,332) at year ended 31 July 2024. Interest income arising from these accounts amounted to \$30,473 (2023: \$25,750). Bank charges paid to HSBC group amounted to \$288 (2023: Nil). Margin accounts are maintained with HSBC Bank Plc, which is fellow subsidiary of the Manager within the HSBC Group. There is margin deposits amounted to \$246,528 at year ended 31 July 2024 (2023: \$126,859).

(c) The Trustee of the Fund receives a monthly fee equivalent to 0.07% (2023: 0.07%) for all class units per annum of the net asset value of the Fund.

	2024	2023
(i) Trustee's fees paid to the Trustee	\$79,459	\$96,927
(ii) Trustee's fees payable to the Trustee at year end	7,065	7,665

(d) The safe custodian of the Fund is HSBC Institutional Trust Services (Asia) Limited ("HTHK") (the "Custodian"), which are the fellow subsidiary of the Manager within the HSBC Group. The Custodian receives a monthly fee equivalent to 0.15 – 62 (2023: 0.15 – 62) basis points based on HSBC Institutional Trust Services (Asia) Limited, the sub-custodian, value of the securities. The custodian also receives a transaction fee of US\$4.40 – US\$100.00 (2023: US\$4.40 – US\$100.00) for each trade handled.

	2024	2023
(i) Safe custody fees paid to HTHK	\$7,648	\$7,759
(ii) Safe custody fee payable to HTHK at year end	694	699
(iii) Safe custody transaction fees paid to HTHK	88,204	50,803
(iv) Safe custody transaction fees payable to HTHK at year end	185,808	181,207

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

- (e) In its purchases and sales of investments, the Fund utilises the brokerage services of The Hongkong and Shanghai Banking Corporation Limited, HSBC Bank plc London, HSBC Institutional Trust Services (Asia) Limited and HSBC Global Asset Management (UK) Limited who are the members of the HSBC Group. Details of transactions effected through these companies are as follows:

	The Hong Kong and Shanghai			
	Banking Corporation Limited		HSBC Bank plc London	
	2024	2023	2024	2023
	HKD	HKD	HKD	HKD

The market value of these investments at year end was \$37,206,717 (2023: \$53,575,608).

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

- (g) During the years ended 31 July 2024 and 2023, the Fund entered into foreign currency forward contracts with HSBC group company. The details of the outstanding foreign currency forward contracts as financial assets and financial liabilities with The Hongkong and Shanghai Banking Corporation Limited as at years ended 31 July 2024 and 2023 are as follows:

	2024	2023
Receivable on forward contracts	\$1,941	\$1,837
Payable on forward contracts	\$(80,615)	\$-

- (h) During the year ended 31 July 2024, the Fund has incurred other expenses amounting to \$47,080 (2023: \$47,256) paid to the Connected Persons of the Fund.

- (i) During the year ended 31 July 2024, the Manager and its Connected Persons did not subscribe or redeem units of the Fund (2023: nil).

## 8 Soft commission arrangements

During the years ended 31 July 2024 and 2023, the Manager had not entered into soft commission arrangements with brokers.

The Manager may enter into soft commission arrangements for the provision to the Manager or Connected Persons of goods and services which are of demonstrable benefit to the Unitholders provided that (i) the brokerage rates do not exceed customary institutional full service brokerage rates and the execution of transactions for a Fund is consistent with best execution standards, (ii) periodic disclosure is made in the annual report of the Fund or the relevant Fund in the form of a statement describing the soft dollar policies and practices of the Manager, including a description of goods and services received by it, and (iii) the availability of soft dollar arrangements is not the sole or primary purpose to perform or arrange transaction with such broker or dealer.

For the avoidance of doubt (and without prejudice to the generality of the foregoing) the following goods and services may be considered as of such benefit to Unitholders: research and advisory services; economic and political analysis; portfolio analysis (including valuation and performance measurement); market analysis, data and quotation services; computer hardware and software incidental to the above goods and services; clearing and custodian services; and investment-related publications.

## 9 Number of units in issue and net assets attributable to unitholders per unit

- (a) Net assets attributable to unitholders per unit are calculated based on the net assets attributable to unitholders divided by the total units in issue as at 31 July 2024 and 2023. The detailed breakdown are as follows:

	2024	2023
	Units	Units
Number of units in issue as at 31 July		
- "A" class units	1,042,647	1,681,150
- Provident class units	4,966,845	5,421,711
	<b>2024</b>	<b>2023</b>
Net assets attributable to unitholders		
per unit		
"A" class units	\$14.26	\$14.03
Provident class units	19.35	18.85

- (b) The capital of the Fund is represented by the net assets attributable to unitholders which are subject to subscriptions and redemptions of units. The Fund does not have any externally imposed capital requirements.

Units may be acquired and redeemed on any valuation date at the unit value determined on that day. The valuation date is every business day, which is also a day on which banks in Hong Kong are normally open for business, or such other day(s) as the Manager may determine. The minimum initial investment amount for the Fund is \$10,000 for "A" Class Units, with subsequent minimum investments of no less than \$10,000. No minimum initial and subsequent investment amounts apply to Provident Class Units and "Z" Class Units.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

Units may be redeemed on any valuation date, at the redemption price applicable as at the close of business in Hong Kong on such day. The minimum amount which can be redeemed at any one time is \$10,000 for "A" Class Units. No minimum redemption amounts apply to Provident Class Units and "Z" Class Units. A unitholder may not make a partial redemption if this would result in his holding being less than the minimum holding of \$10,000 for "A" Class Units. The Manager may in its discretion agree to redeem a lesser amount from time to time than the minimum partial redemption, whether generally or in a particular case. No minimum holding applies to Provident Class Units and "Z" Class Units.

## 10 Equalisation

The equalisation portion of received and receivable on issue of units or paid and payable on redemption of units is calculated based on the portion of the unit price related to undistributed accumulated net investment income and accumulated expenses of the unit at the date of issue or redemption.

## 11 Distributions

	Note	2024	2023
<b>Amount available for distribution brought forward</b>		\$362,823,183	\$362,951,129
Profit for the year available for distribution *		496,976	(482)
Equalisation on subscriptions and redemptions	10	2,564	(127,464)
Distributions to unitholders		(49,246)	-
<b>Amount available for distribution carried forward</b>		<u>\$363,273,477</u>	<u>\$362,823,183</u>
<b>Distribution history</b>			
<b>"A" Class income units</b>			
Distribution per unit		<u>\$0.0472</u>	<u>\$-</u>
Date of Distribution		31 July 2024	N/A

\* Profit for the year available for distribution is the adjusted total comprehensive income for the year, for which the amount is the sum of all the dividend income and interest arising deducted the ongoing charges for the year, in accordance with the relevant clauses of the Trust Deed.

## Distribution attributable to the year

	2024	2023
<b>"A" Class income units</b>		
(a) Distribution attributable to the year		
	Distributions declared of \$0,0472 per unit on 1,042,647 units as at 31 July 2024 (2023: Nil)	\$49,246
(b) No distributions were declared during the previous financial year and paid during the year.		-

## 12 Financial instruments and associated risks

The Fund maintains an investment portfolio in a variety of listed and unlisted financial instruments as dictated by its investment management strategy. The objective of the Fund is to achieve long term stable capital growth by investing in a diversified portfolio with a bias towards global bonds and fixed income instruments through direct investment and/ or other collective investment schemes that the Fund may invest in. The Fund's investment portfolio comprises debt securities, equities, unit trusts, futures, options and forward contracts.

The Fund's investing activities expose it to various types of risks that are associated with the financial instruments and markets in which it invests. The Manager and the Trustee have set out below the most important types of financial risks inherent in each type of financial instrument. The Manager and the Trustee would like to highlight that the following list of associated risks only sets out some of the risks but does not purport to constitute an exhaustive list of all the risks inherent in an investment in the Fund.

Unitholders should note that additional information in respect of risks associated with financial instruments in the Fund can be found in the Fund's offering document.

The nature and extent of the financial instruments outstanding at the date of the statement of financial position and the risk management policies employed by the Fund are discussed below.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

## (a) Price risk

Price risk is the risk that value of the instrument will fluctuate as a result of changes in market prices, whether caused by factors specific to an individual investment, its issuer or all factors affecting all instruments traded in the market.

The impact of a 10% (2023: 10%) increase in value of the investments at 31 July 2024, with all other variables held constant, is shown below. An equal change in the opposite direction would have reduced the net assets attributable to unitholders by an equal amount. The analysis is performed on the same basis for 2023.

	Market exposures	Change in net assets if investment value increased by 10%
<b>As at 31 July 2024</b>		
Futures contracts	\$2,393	\$239
Equities	3	–
Put options	44,716	4,472
Unit trusts	56,824,799	5,682,480

	Market exposures	Change in net assets if investment value increased by 10%
<b>As at 31 July 2023</b>		
Futures contracts	\$(72,625)	\$(7,263)
Equities	1	–
Put options	1,544	154
Unit trusts	66,461,965	6,646,197

## (b) Interest rate risk

Interest rate risk arises from changes in interest rates which may affect the value of debt instruments and therefore result in potential gain or loss to the Fund. The Fund's interest rate risk is managed on an ongoing basis by the Manager. The following table indicates the period in which the interest-bearing assets mature at the date as at year ended 31 July 2024 and 2023.

All amounts stated in '000

	2024				Total
	1 year or less	Over 1 year to 5 years	Over 5 years	Non interest bearing	
Financial assets at fair value through profit or loss	\$1,922	\$19,396	\$31,863	\$56,990	\$110,171
Cash and cash equivalents	\$1,175	\$–	\$–	\$–	\$1,175
<b>Total interest-bearing assets</b>	<b>\$3,097</b>	<b>\$19,396</b>	<b>\$31,863</b>		
Financial liabilities at fair value through profit or loss	\$–	\$–	\$–	\$158	\$158
<b>Interest sensitivity gap</b>	<b>\$3,097</b>	<b>\$19,396</b>	<b>\$31,863</b>		
	2023				Total
	1 year or less	Over 1 year to 5 years	Over 5 years	Non interest bearing	
Financial assets at fair value through profit or loss	\$6,327	\$17,545	\$36,457	\$66,583	\$126,912
Cash and cash equivalents	\$1,287	\$–	\$–	\$–	\$1,287
<b>Total interest-bearing assets</b>	<b>\$7,614</b>	<b>\$17,545</b>	<b>\$36,457</b>		
Financial liabilities at fair value through profit or loss	\$–	\$–	\$–	\$345	\$345
<b>Interest sensitivity gap</b>	<b>\$7,614</b>	<b>\$17,545</b>	<b>\$36,457</b>		

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

## Interest rate sensitivity

At the date of the statement of financial position, assuming all other factors unchanged, it is estimated that an increase in interest rates of 100 basis points (2023: 100 basis points) would result in a decrease in the net assets attributable to the unitholders and the profit for the year by \$3,507,410 (2023: \$4,229,871); an equal change in the opposite direction would result in an increase in the net assets attributable to unitholders by an approximately equal amount. The analysis is performed on the same basis for 2023.

## (c) Currency risk

The Fund may invest in financial instruments and enter into transactions denominated in currencies other than its functional currency. Consequently, the Fund is exposed to risks that the exchange rate of its functional currency relative to other foreign currencies may change in a manner that has an adverse effect on the value of that portion of the Fund's assets or liabilities denominated in currencies other than Hong Kong dollars.

The fluctuations in the rate of exchange between the currency in which the asset or liability is denominated and the functional currency could result in an appreciation or depreciation in the fair value of that asset or liability. The Manager may attempt to mitigate this risk by using financial derivative instruments. The Manager monitors the Fund's currency exposures on an ongoing basis.

## Currency sensitivity

At 31 July 2024 and 2023, had the HKD weakened by 5% (2023: 5%) in relation to respective currencies, with all other variables held constant, the net assets attributable to unitholders and the profit for the year would have increased by the amounts shown below. The analysis is performed on the same basis for 2023.

	Net exposure	Change in net assets if HKD weakened by 5%
<b>As at 31 July 2024</b>		
<i>Currencies</i>		
Australian dollar	\$1,875,817	\$93,791

Turkish lira	1	-
<b>Total</b>	<b>\$50,137,864</b>	<b>\$2,506,893</b>

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

As the HKD is pegged to the United States dollar ("USD"), the Fund does not expect any significant movements in USD/HKD exchange rate. A 5% (2023: 5%) appreciation of the HKD against the above currencies would have resulted in an equal but opposite effect on the financial statement amounts, on the basis that all other variables remain constant.

## (d) Credit risk

### (i) Analysis of credit policy and concentration of credit risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund's exposure to credit risk is monitored by the Manager on an ongoing basis.

As at 31 July 2024 and 2023, all of the Fund's financial assets were exposed to credit risk. These include financial assets at fair value through profit or loss, interest and dividends receivable, subscriptions receivable, amounts due from brokers, other receivables and cash and cash equivalents placed with banks and the custodian.

At the date of the statement of financial position, the Fund invested in debt securities with the following credit ratings equivalent to which provided by Moody's credit rating services expressed as a percentage of debt securities:

Rating (Moody's)	% of debt securities	
	2024	2023
Aaa	54.41	52.56
Aa1	1.76	1.94
Aa2	4.33	1.31
Aa3	6.29	11.16
A1	18.75	17.42
A2	0.56	1.11
A3	0.44	0.43
Baa1	3.52	4.64
Baa2	-	1.33
Baa3	5.16	8.10
NR	4.78	-
<b>Total</b>	<b>100.00</b>	<b>100.00</b>

Credit risk is managed by the reviewing and monitoring of the credit quality of debt instruments held by the Fund or the issuers of the debt instruments held by the Fund on an ongoing basis.

Credit risk arising from transactions with brokers relates to transactions awaiting settlement. Risk relating to unsettled transactions is considered small due to the short settlement period involved and the high credit quality of the brokers used.

A majority of the cash held by the Fund is deposited with the HSBC Group. Bankruptcy or insolvency of the bank may cause the Fund's rights with respect to the cash held by the bank to be delayed or limited. The Manager monitors the credit rating and financial position of the bank on an ongoing basis.

Substantially all of the assets of the sub funds are held by the Custodian. Bankruptcy or insolvency of the Custodian may cause the sub funds' rights with respect to securities held by the Custodian to be delayed or limited. The Custodian is a group company of HSBC, for which the long-term credit rating is Aa2 (2023: Aa2), as determined by Moody's.

The carrying amounts of financial assets best represent the maximum credit risk exposure at the date of statement of financial position.

As of 31 July 2024, the Fund held debt securities issued by the US Government amounting to 18.59% (2023: 18.27%) of the net asset value of the Fund.

As at 31 July 2024 and 2023, there were no other significant concentrations of credit risk to counterparties except to the Custodian.

### (ii) Offsetting financial assets and financial liabilities

None of the financial assets and financial liabilities is offset in the statement of financial position.

As at 31 July 2024 and 2023, the disclosure set out in the table below include financial assets and financial liabilities that are subject to an enforceable master netting arrangement.

The enforceable master netting arrangements do not meet the criteria for offsetting in the statement of financial position. This is because they create a right of set off of recognised amounts that is enforceable only following on event of default, insolvency or bankruptcy of the Fund or its counterparties. In addition, the Fund and its counterparties do not intend to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

As at 31 July 2024

(iii) Amounts arising from ECL

Impairment on interest and dividends receivable, subscriptions receivable, amounts due from brokers, other receivables, and cash and cash equivalents has been measured on a 12-month expected loss basis and reflects the short maturities of the exposures.

The Fund considers that these exposures have low credit risk based on the external credit ratings and/or review result of the counterparties.

The Manager of the Fund monitors changes in credit risk on these exposures by tracking published external credit ratings of the counterparties and/or performed ongoing review of the counterparties.

The Manager considers the probability of default to be minimal as the counterparties have a strong capacity to meet their contractual obligations in the near term. There is no impairment allowance recognised on interest and dividends receivable, subscriptions receivable, amounts due from brokers, other receivables and cash and cash equivalents. The amount of the loss allowance did not change during the years ended 31 July 2024 and 2023.

### (e) Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting obligations arising from its financial liabilities that are settled by delivering cash or another financial asset, or that such obligations will have to be settled in a manner disadvantageous to the Fund. The Fund is exposed to daily liquidity risk on redemption of units.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

The Fund's policy is to regularly monitor current and expected liquidity requirements to ensure that it maintains sufficient reserves of cash and readily realisable marketable securities to meet its liquidity requirements in the short and longer term.

The Fund's listed investments are considered to have insignificant exposure to liquidity risk as they are all readily realisable under normal market conditions. The Fund, however, also invests in unlisted investments such as unlisted bonds and unit trusts, which are not publicly traded on exchanges and may become illiquid.

As at 31 July 2024 and 2023, the Fund's financial liabilities are due within three months, except for redemptions payable and net assets attributable to unitholders which are repayable on demand.

## (f) Capital management

The Fund's capital as at the year end date is represented by its redeemable units, which is classified as financial liabilities.

The Fund's objective in managing the capital is to ensure a stable and strong base to achieve long term capital growth, and to manage liquidity risk arising from the redemptions. The Manager manages the capital of the Fund in accordance with the Fund's investment objectives and policies stated in the Fund's Explanatory Memorandum.

There were no changes in the policies and procedures during the year with respect to the Fund's approach to its capital management.

The amount and the movement of net assets attributable to unitholders are stated in the statement of changes in net assets attributable to unitholders. As the redeemable units are redeemed on demand at the unitholders' option, the actual level of redemption may differ significantly from historical experience.

## (g) Specific instruments

### Forward contracts

Forward contracts are commitments either to purchase or sell a designated financial instrument, currency, commodity or index at a specified future date for a specified price and may be settled in cash or the underlying financial asset.

Forward contracts result in exposure to market risk based on changes in market prices relative to contracted prices. Market risks arise due to the possible movement in foreign currency exchange rates, indices, and securities' values underlying these instruments. In addition, because of the low margin deposits normally required in relation to notional contract sizes, a high degree of leverage may be typical of a forward contract and may result in substantial losses to the Fund. Forward contracts are generally subject to liquidity risk.

As at 31 July 2024 and 2023, the Fund's holdings in foreign currency forward contracts were as specified in the following tables.

### As at 31 July 2024

Buy	Sell	Settlement date	Fair value assets	Fair value liabilities
HKD5,111,962	EUR599,800	12 September 2024	\$37,906	\$-

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

## Futures contracts

Futures contracts are legally binding commitments to buy or sell a financial instrument, currency, commodity or index at a specified future date for a specified price which are agreed upon at the initiation of the contract by the buyer and seller.

Futures contracts are standardised for quality and quantity and traded on a futures exchange.

As at 31 July 2024 and 2023, the Fund's holdings in futures contracts were as specified in the following table.

### As at 31 July 2024

Underlying equity	Futures exchange	No of contracts	Weighted average contract price	Contract size	Maturity date	Fair value assets	Fair value liabilities

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

## 13 Fair value information

The Fund's financial instruments are measured at fair value on the date of the statement of financial position. Fair value estimates are made at a specified point in time, based on market conditions and information about the financial instruments. Usually, fair values can be reliably determined within a reasonable range of estimates. For certain other financial instruments, including interest and dividends receivable, other receivables, subscriptions receivable, amounts due from brokers, redemptions payable, amounts due to brokers, and other payables, the carrying amounts approximate fair values due to the immediate or short term nature of these financial instruments.

### Valuation of financial instruments

The Fund's accounting policy on fair value measurements is detailed in significant accounting policy in note 2(e)(iv).

The Fund measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements.

- Level 1: Inputs that are quoted market prices (unadjusted) in active markets for identical instruments.
- Level 2: Inputs other than quoted prices included within level 1 that are observable either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques in which all significant inputs are directly or indirectly observable from market data.
- Level 3: Inputs that are unobservable. This category includes all instruments for which the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments but for which significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

When fair values of listed and quoted investments at the reporting date are based on quoted market prices or binding dealer price quotations in an active market, without any deduction for transactions costs, the instruments are included within level 1 of the hierarchy. When fair values of debt securities at the reporting date represent quoted prices in markets that are considered less than active or consensus prices derived by third parties using valuation techniques where all significant inputs are directly or indirectly observable from market data, those debt securities are included within level 2 of the hierarchy. For all other financial instruments, the Fund determines fair value using valuation techniques.

The Fund uses widely recognised valuation models for determining the fair value of the financial instruments which do not have quoted market prices in active markets. Valuation techniques include net present value, discounted cash flow models, comparison to similar instruments for which market observable prices exist, comparison to quoted prices for identical instruments that are considered less than active and other valuation models.

The following analyses financial assets and liabilities at fair value through profit or loss at the date of the statement of financial position, by the level in the fair value hierarchy into which the fair value measurement is categorised.

### Financial instruments at fair value through profit or loss

	Level 1	Level 2	Level 3	Total
<b>31 July 2024</b>				
<b>Financial assets</b>

	\$37,045	\$126,875,471	\$-	\$126,912,516

## Financial liabilities

Forward contracts	\$-	\$199,724	\$-	\$199,724
Futures contracts	109,669	-	-	109,669
Put options	-	35,962	-	35,962
	\$109,669	\$235,686	\$-	\$345,355

<sup>(\*)</sup> As at 31 July 2024 and 2023, listed equity securities include two investments (2023: two) whose trading was suspended and their fair values were marked as HK\$Nil.

There were no transfers between levels during the years ended 31 July 2024 and 2023.

## Quantitative information of significant unobservable inputs – Level 3

The table below sets out information about significant unobservable inputs used at 31 July 2024 and 2023 in measuring financial instruments categorised as level 3 in the fair value hierarchy.

Description	Fair value at 31 July 2024	Fair value at 31 July 2023	Valuation techniques	Unobservable input
Equities	\$-	\$-	Adjustment on last traded price before suspension	Adjustment based on the information relating to the investments

The significant unobservable inputs used in the fair value measurement categorised within level 3 of the fair value hierarchy together with a quantitative sensitivity analysis is as shown below:

Description	Input	Change in the relevant input	Effect on the net assets attributable to unitholders
<b>As at 31 July 2024</b>			
Equities	100%	5%/(5)%	\$-/28,007

## As at 31 July 2023

Equities	100%	5%/(5)%	\$-/28,013
----------	------	---------	------------

## Valuation of financial instruments not measured at fair value

The financial instruments not measured at fair value through profit or loss are short term financial assets and financial liabilities whose carrying amounts approximate fair value.

## 14 Segment information

The Manager makes the strategic resource allocation on behalf of the Fund and determines the operating segments based on the internal reporting used to make strategic decisions.

The Manager's asset allocation decisions are based on one single and integrated investment strategy, and the Fund's performance is evaluated on an overall basis. Accordingly the Manager considers that the Fund has one single operating segment which is investing in a portfolio of financial instruments to generate investment returns in accordance with the investment objective stipulated in its Explanatory Memorandum of the fund. There were no changes in the reportable operating segment during the year.

All revenues and losses generated from investments by the Fund are disclosed in note 3. The segment information provided to the Manager is the same as that disclosed in the statement of comprehensive income and the statement of financial position.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

## 15 Involvement with unconsolidated structured entities

The Fund has concluded that the listed and unlisted investment funds in which it invests, but that it does not consolidate, meet the definition of structured entities because:

- the voting rights in the funds are not dominant rights in deciding who controls them as they relate to administrative tasks only;
- each fund's activities are restricted by its prospectus; and
- the funds have narrow and well defined objectives to provide investment opportunities to investors.

The table below describes the types of structured entities that the Fund does not consolidate but in which it holds an interest.

Type of structured entity	Nature and purpose	Interest held by the Fund
Investment funds	To manage assets on behalf of third party investors and generate fees for the investment manager	Investment in units issued by the funds
	These vehicles are financed through the issue of units to investors	

The table below sets out interests held by the Fund in unconsolidated structured entities. The maximum exposure to loss is the carrying amount of the financial assets held.

	31 July 2024		
	Number of investee funds	Total net assets (based on unaudited information)	Carrying amount included in "Financial assets of fair value through profit or loss"
Listed investment funds	14	\$2,341,718,000,000	\$13,609,443
Unlisted investment funds	12	45,904,000,000	43,215,356

31 July 2023

	Number of investee funds	Total net assets (based on unaudited information)	Carrying amount included in "Financial assets of fair value through profit or loss"
Listed investment funds	8	\$1,091,180,000,000	\$7,896,677
Unlisted investment funds	10	2,581,433,000,000	58,565,288

During the years ended 31 July 2024 and 2023, the Fund did not provide financial support to unconsolidated structured entities and has no intention of providing financial or other support.

The Fund can redeem units in the above investment funds on any respective dealing day.

## 16 Possible impact of amendments, new standards and interpretations issued but not yet effective for the year ended 31 July 2024

Up to the date of issue of these financial statements, the HKICPA has issued a number of amendments and a new standard which are not yet effective for the year ended 31 July 2024 and which have not been adopted in these financial statements.

Of these developments, the following may be relevant to the Fund's operations and financial statements:

### Effective for accounting periods beginning on or after

Amendments to HKAS 1, <i>Presentation of financial statements: Classification of liabilities as current or non-current</i>	1 January 2024
Amendments to HKAS 21, <i>The effects of changes in foreign exchange rates: Lack of exchangeability</i>	1 January 2025

The Fund is in the process of making an assessment of what the impact of these developments is expected to be in the period of initial application. So far it has concluded that the adoption of them is unlikely to have a significant impact on the Fund's result of operations and financial position.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

## **17 Event occurring after year-end date**

In preparing these financial statements, the Manager and the Trustee have evaluated all significant events up to the date the financial statements are approved and authorized for issue. There were no subsequent events that would require adjustment or disclosure to these financial statements.

## **18 Approval of financial statements**

The financial statements were approved by the Manager and the Trustee on 29 November 2024.

# SFC ESG related disclosure for the year ended 31 July 2024 (Unaudited)

## (a) HSBC Managed Stable Fund's Carbon Footprint including formula

	Carbon Footprint	Coverage	Holdings Weight
<b>Corporate Carbon Footprint*</b>	103.23	96%	42%

\* Expressed in CO<sub>2</sub>e/USDmn invested using Scope 1+2 Carbon Emissions, source from S&P Trucost

## (b) Corporate Carbon Footprint (tonnes CO<sub>2</sub>e/USDmn):

The GHG emissions apportioned to the portfolio per million USD owned by the portfolio. Each holding's contribution to the carbon footprint of the portfolio is calculated on an equity ownership basis using the Enterprise Value (EVIC) of the companies. The carbon footprint of the Fund is the sum of these contributions, normalised by amount owned.

$$\frac{\sum_i \left( \frac{\text{current value of investment}_i}{\text{investee company's enterprise value}_i} \times \text{investee company's Scope 1 and 2 GHG emissions}_i \right)}{\text{current value of all investments (USDm)}}$$

Coverage: This indicates the proportion of the Fund for which data can be sourced.

## (c) Assumption/data limitation

This GHG consists to sum of the carbon emissions (scope 1, 2 and 3) of issuer divided by enterprise value, multiplied by the weight of the investment. Enterprise Value, including cash (EVIC) in million Euro are sourced from AM's reporting vendor FactSet. It is a measure of carbon emissions ownership, as it takes into account the proportion of emissions per investment, relative to the total size of the issuer value. However, carbon footprint can fluctuate without a change in carbon emissions as a result of changes in issuer value. Total carbon footprint is the sum of all issuer carbon footprint, divided by the value of the portfolio.

Data limitation: Carbon emissions (Scope 1, 2 & 3) are primarily based on company carbon disclosures, or estimated by S&P Trucost in the absence of company reports. It is worth noting the lack of coverage of scope 3 GHG emissions and some niche asset classes (such as Small Caps, High Yield or emerging markets issuers). These gaps are due to companies not reporting emissions and it is not appropriate to estimate non-reported emissions for niche asset classes or sub-industries.

It is important to note that we decided to zero down the carbon emission for internally approved green bonds – i.e. green bonds for which “greenness” has been ascertained and approved by a fully-fledged HSBC AM committee. This option has been set in the absence of a more accurate and systematic assessment which would consist in applying to the concerned bond a reduced CHG emissions based on the financed projects/use of proceeds. The same abatement (“zeroing”) will apply similarly to portfolio position and corresponding benchmark components.

# Trustee's Report

## **HSBC Managed Stable Growth Fund ("the Fund")**

We hereby confirm that, to the best of our knowledge, the Manager of the Fund has, in all material respects, managed the Fund in accordance with the provisions of the Trust Deed dated 16 May 2003, as amended, for the year ended 31 July 2024.

)  
) For and on behalf of

# Independent Auditor's Report to the Unitholders

## Report on the Audit of the Financial Statements

### Opinion

We have audited the financial statements of HSBC Managed Stable Growth Fund ("the Fund") set out on pages 137 to 162, which comprise the statement of financial position as at 31 July 2024, the statement of comprehensive income, the statement of changes in net assets attributable to unitholders, the cash flow statement for the year then ended and notes to the financial statements, including material accounting policy information.

In our opinion, the financial statements give a true and fair view of the financial disposition of the Fund as at 31 July 2024 and of its financial transactions and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

### Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Fund in accordance with the HKICPA's Code of Ethics for Professional Accountants ("the Code") and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Information Other than the Financial Statements and Auditor's Report Thereon

The Manager and the Trustee of the Fund are responsible for the other information. The other information comprises all the information included in the annual report, other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other

information, we are required to report that fact. We have nothing to report in this regard.

Independent Auditor's Report to the Unitholders of HSBC Managed Stable Growth Fund (continued)

Report on the Audit of the Financial Statements (continued)

Responsibilities of the Manager and the Trustee of the Fund for the Financial Statements

The Manager and the Trustee of the Fund are responsible for the preparation of financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and for such internal control as the Manager and the Trustee of the Fund determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Manager and the Trustee of the Fund are responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager and the Trustee of the Trust either intend to liquidate the Trust or to cease operations, or have no realistic alternative but to do so.

In addition, the Manager and the Trustee of the Fund are required to ensure that the financial statements have been properly prepared in accordance with the relevant provisions of the Trust Deed, as amended ("the Trust Deed"), and the relevant disclosure provisions of Appendix E of the Code on Unit Trusts and Mutual Funds ("the SFC Code") issued by the Hong Kong Securities and Futures Commission.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with HKSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they

# Independent Auditor's Report to the Unitholders

could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Fund have been properly prepared, in all material respects, in accordance with the relevant provisions of the Trust Deed and the relevant disclosure provisions of Appendix E of the SFC Code.

As part of an audit in accordance with HKSAAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager and the Trustee of the Fund.
- Conclude on the appropriateness of the Manager's and the Trustee's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager and the Trustee of the Fund regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant provisions of the Trust Deed and the relevant disclosure provisions of Appendix E of the SFC Code.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

## HSBC Managed Stable Growth Fund

### 1 The Fund

HSBC Managed Stable Growth Fund (“the Fund”) is an open ended unit trust which was established under a trust deed dated 16 May 2003, as amended (“the Trust Deed”) made between HSBC Investment Funds (Hong Kong) Limited (the “Manager”) and HSBC Institution Trust Services (Asia) Limited (the “Trustee”), The Trust Deed was governed by the laws of the Cayman Islands.

The Fund was registered under the Mutual Funds Law of the Cayman Islands on 10 June 2003. With effect on and from 18 January 2019 the fund is governed by Hong Kong laws. The objective of the Fund is to achieve long-term capital growth by investing in a diversified portfolio with a mixture of global equities and global bonds and fixed income instruments through direct investment and/or other collective investments schemes that the Fund may invest in.

The Fund is authorised by the Hong Kong Securities and Futures Commission (“SFC”) under section 104 of the Hong Kong Securities and Futures Ordinance (“HKSF”) and is governed by the Hong Kong Code on Unit Trusts and Mutual Funds issued by the SFC (the “SFC code”).

### 2 Material accounting policies

#### (a) Statement of compliance

The financial statements have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards (“HKFRSs”), which collective term includes all applicable individual HKFRSs, Hong Kong Accounting Standards (“HKASs”) and Interpretations issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”), the relevant provisions of the Trust Deed and the relevant disclosure provisions of the SFC code. Material accounting policies adopted by the Fund are set out below.

The HKICPA has issued certain new and revised HKFRSs that are first effective or available for early adoption for the current accounting period of the Fund. Note 2(c) provides information on any changes in accounting policies resulting from initial application of these developments to the extent that they are relevant to the Fund for the current and prior accounting periods reflected in these financial statements.

#### (b) Basis of preparation of the financial statements

The functional and presentation currency of the Fund is the Hong Kong dollar (“HKD”) reflecting the fact that the participating redeemable units of the Fund are issued and redeemed in Hong Kong dollars.

The financial statements are prepared on a fair value basis for financial assets and financial liabilities at fair value through profit or loss (“FVTPL”) and financial derivative instruments. Other financial assets and financial liabilities are stated at amortised cost or redemption amount (redeemable units).

The preparation of financial statements in conformity with HKFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

#### (c) Changes in accounting policies

The HKICPA has issued certain amendments to HKFRSs that are first effective for the current accounting period of the Fund. None of these developments have had a material effect on how the Fund’s result and financial position for the current or prior periods have been prepared or presented in this financial report.

The Fund adopted the Amendments of HKAS 1, *Presentation of financial statements and HKFRS Practice Statement 2, Making materiality judgements: Disclosure of accounting policies*. Although the amendments did not result in any changes to the accounting policies themselves, they impacted the accounting policy information disclosed in the financial statements.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

The amendments required the disclosure of 'material' rather than 'significant' accounting policies. The amendments also provide guidance on the application of materiality to disclosure of accounting policies, assisting entities to provide useful, entity-specific accounting policy information that users need to understand other information in the financial statements.

The Fund has not applied other new standard or interpretation that is not yet effective for the current accounting period (see note 16).

## **(d) Foreign currency translation**

Foreign currency transactions during the year are translated into Hong Kong dollars at the exchange rates ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated into Hong Kong dollars at the exchange rates ruling at the date of the statement of financial position. Foreign currency exchange differences arising on translation and realised gains and losses on disposal or settlement of monetary assets and liabilities are recognised in profit or loss.

Foreign currency exchange differences relating to investments at FVTPL are included in net gains or losses from financial instruments at FVTPL. All other foreign currency exchange differences relating to monetary items including cash and cash equivalents are presented separately in profit or loss.

## **(e) Financial instruments**

### **(i) Classification**

On initial recognition, the Fund classifies financial assets as measured at amortised cost or FVTPL.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest ("SPPI").

All other financial assets of the Fund is measured at FVTPL.

### *Business model assessment*

In making an assessment of the objective of the business model in which a financial asset is held, the Fund considers all of the relevant information about how the business is managed, including:

- the documented investment strategy and the execution of this strategy in practice. This includes whether the investment strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Fund's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how the investment manager is compensated: e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Fund's continuing recognition of the assets.

The Fund has determined that it has two business models.

- Held-to-collect business model: this includes interest and dividends receivable, subscriptions receivable, amounts due from brokers, other receivables, cash and cash equivalents. These financial assets are held to collect contractual cash flow.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

- Other business model: this includes equity instruments, debt instruments, collective investment schemes and financial derivative instruments. These financial assets are managed and their performance is evaluated, on a fair value basis, with frequent sales taking place.

## *Assessment whether contractual cash flows are SPPI*

For the purposes of this assessment, "principal" is defined as the fair value of the financial asset on initial recognition. "Interest" is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are SPPI, the Fund considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Fund considers:

- contingent events that would change the amount or timing of cash flows;
- leverage features;
- prepayment and extension features;
- terms that limit the Fund's claim to cash flows from specified assets (e.g. non-recourse features); and
- features that modify consideration for the time value of money (e.g. periodical reset of interest rates).

The Fund classifies its investments based on the business model and contractual cash flows assessment. Accordingly, the Fund classifies all its equity instruments, debt instruments, collective investment schemes and financial derivative instruments into financial assets at FVTPL category. Financial assets measured at amortised cost include interest and dividends receivable, subscriptions receivable, amounts due from brokers, other receivable and cash and cash equivalents. Financial liabilities that are not at fair value through profit or loss included amounts due to brokers and other payables.

All derivatives in a net receivable position (positive fair value) are reported as financial assets. All derivatives in a net payable position (negative fair value) are reported as financial liabilities.

## *Reclassifications*

Financial assets are not reclassified subsequent to their initial recognition unless the Fund was to change its business model for managing financial assets, in which case all affected financial assets would be reclassified on the first day of the first reporting period following the change in the business model.

## (ii) Recognition

The Fund recognises financial assets and financial liabilities on the date it becomes a party to the contractual provisions of the instrument.

A regular way purchase or sale of financial assets and financial liabilities is recognised by using trade date accounting. From this date any gains and losses arising from changes in fair value of the financial assets or financial liabilities are recorded.

Financial liabilities are not recognised unless one of the parties has performed their obligations under the contract or the contract is a derivative contract not exempted from the scope of HKFRS 9.

## (iii) Measurement

Financial instruments are measured initially at fair value (transaction price). Transaction costs on financial assets and liabilities at FVTPL are expensed immediately, while on other financial instruments that they are amortised.

Subsequent to initial recognition, all instruments classified at FVTPL are measured at fair value with changes in their fair value recognised in profit or loss.

Financial assets classified as measured at amortised cost are carried at amortised cost using the effective interest rate method, less impairment losses, if any.

Financial liabilities other than those at FVTPL are measured at amortised cost using the effective interest rate method. Financial liabilities arising from the redeemable units issued by the Fund are carried at the redemption amount representing the unitholders' right to a residual interest in the Fund's assets.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

## (iv) Fair value measurement principles

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal, or in its absence, the most advantageous market to which the Fund has access at that date. The fair value of a liability reflects its non performance risk.

When available, the Fund measures the fair value of an instrument using the quoted price in an active market for that instrument provided such price is within the bid ask spread. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. In circumstances where the quoted price is not within the bid ask spread, the manager of the Fund will determine the points within the bid ask spread that are most representative of the fair value.

When there is no quoted price in an active market, the Fund uses valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all the factors that market participants would take into account in pricing a transaction.

The best evidence of the fair value of a financial instrument at initial recognition is normally the transaction price i.e. the fair value of the consideration given or received. If the Fund determines that the fair value at initial recognition differs from the transaction price and the fair value is evidenced neither by a quoted price in an active market for an identical asset or liability nor based on a valuation technique that uses only data from observable markets, the financial instrument is initially measured at fair value, adjusted to defer the difference between the fair value at initial recognition and the transaction price. Subsequently, that difference is recognised in profit or loss on an appropriate basis over the life of the instrument but no later than when the valuation is supported wholly by observable market data or the transaction is closed out.

If an asset or a liability measured at fair value has a bid price and an ask price, the Fund measures assets and long positions at a bid price and liabilities and short positions at an ask price.

Portfolios of financial assets and financial liabilities that are exposed to market risk and credit risk that are managed by the Fund on the basis of the net exposure to either market or credit risk, are measured on the basis of a price that would be received to sell a net long position (or paid to transfer a net short position) or a particular risk exposure. Those portfolio level adjustments are allocated to the individual assets and liabilities on the basis of the relative risk adjustment of each of the individual instruments in the portfolio.

The Fund recognises transfers between levels of the fair value hierarchy as of the end of the reporting period during which the change has occurred.

## (v) Amortised cost measurement principles

The amortised cost of a financial asset or liability is the amount at which the financial asset or liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between the initial amount recognised and the maturity amount, minus any reduction for impairment.

## (vi) Impairment

At each reporting date, the Fund assesses whether credit risk for financial assets held at amortised cost has increased significantly since initial recognition. If there is a significant increase in credit risk since initial recognition, then the Fund measures the loss allowances on financial assets at an amount equal to the lifetime expected credit losses. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Fund measures the loss allowances on financial assets at an amount equal to the expected credit losses for the later of 12 months or the period to maturity, if the amount is material. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered as credit impaired.

## (vii) Derecognition

The Fund derecognises a financial asset when the contractual rights to the cash flows from the financial assets expire or it transfers the financial asset and the transfer qualifies for derecognition in accordance with HKFRS 9.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

The Fund uses the weighted average method to determine realised gains and losses on derecognition.

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or has expired.

(viii) Offsetting

Financial assets and liabilities are offset and the net amount is reported in the statement of financial position when the Fund has a legally enforceable right to offset the recognised amounts and the transactions are intended to be settled on a net basis or simultaneously, e.g. through a market clearing mechanism.

(ix) Specific instruments

*Cash and cash equivalents*

Cash comprises current deposits with banks. Cash equivalents are short term and highly liquid investments that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short term cash commitments rather than for investment or other purposes. Bank overdrafts that are repayable on demand and form an integral part of the Fund's cash management are also included as a component of cash and cash equivalents for the purpose of the cash flow statement.

**(f) Revenue recognition**

Revenue is recognised in statement of comprehensive income as follows:

(i) Dividend income

Dividend income from listed investments is recognised when the share price of the investment goes ex dividend. Dividends from other investments are recognised in profit or loss as dividend income when declared. In some cases, the Fund may choose to receive dividends in the form of additional shares rather than cash. In such cases, the Fund recognises the dividend income for the amount of the equivalent cash dividend with the corresponding debit treated as an additional investment.

(ii) Interest income

Interest income is recognised in profit or loss as it accrues, using the effective interest rate method using the rate exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of the financial asset. Interest income on bank deposits is disclosed separately on the face of the statement of comprehensive income.

**(g) Expenses**

All expenses are recognised in statement of comprehensive income on an accrual basis.

**(h) Foreign exchange gains and losses**

Foreign exchange gains and losses on financial assets and financial liabilities at FVTPL are recognised together with other changes in the fair value. Included in profit or loss line item "Net foreign exchange loss" are net of foreign exchange gains and losses on monetary financial assets and financial liabilities other than those classified as FVTPL.

**(i) Related parties**

(a) A person, or a close member of that person's family, is related to the Fund if that person:

- (i) has control or joint control over the Fund;
- (ii) has significant influence over the Fund; or
- (iii) is a member of the key management personnel of the Fund.

(b) An entity is related to the Fund if any of the following conditions applies:

- (i) The entity and the Fund are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
- (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
- (iii) Both entities are joint ventures of the same third party.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

- (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
- (v) The entity is a post employment benefit plan for the benefit of employees of an entity related to the Fund.
- (vi) The entity is controlled or jointly controlled by a person identified in (a).
- (vii) A person identified in note 2(f)(a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).
- (viii) The entity, or any member of a group of which it is a part, provides key management personnel services to the Fund.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

## **(j) Subscriptions and redemptions**

The Fund recognises unitholders' subscriptions and allots units upon receipt of a valid subscription application and derecognises them upon receipt of a valid redemption application.

## **(k) Units in issue**

The Fund classifies financial instruments issued as financial liabilities or equity instruments in accordance with the substance of the contractual terms of the instruments.

A puttable financial instrument that includes a contractual obligation for the issuer to repurchase or redeem that instrument for cash or another financial asset is classified as equity instrument if it meets the following conditions:

- it entitles the holder to a pro rata share of the entity's net assets in the event of the Fund's liquidation;
- it is in the class of instruments that is subordinate to all other classes of instruments;
- all financial instruments in the class of instruments that is subordinate to all other classes of instruments have identical features;

- apart from the contractual obligation for the Fund to repurchase or redeem the instrument for cash or another financial asset, the instrument does not include any other features that would require classification as a liability; and
- the total expected cash flows attributable to the instrument over its life are based substantially on profit or loss, the change in the recognised net assets or the change in the fair value of the recognised and unrecognised net assets of the Fund over the life of the instrument.

As at 31 July 2024 and 2023, the Fund has multiple classes of redeemable units in issue Provident class and Z class. All the classes belong to the most subordinate class of financial instruments in the Fund and rank *pari passu* in all material respects and have the same terms and conditions other than different management fee rates and distribution rights. The redeemable units provide unitholders with the right to require redemption for cash at a value proportionate to the unitholders' share in the Fund's net assets at each daily redemption date, and also in the event of the Fund's liquidation. The redeemable units are classified as financial liabilities and are measured at the present value of the redeemable amounts.

## **(l) Segment reporting**

An operating segment is a component of the Fund that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Fund's other components, whose operating results are reviewed regularly by the chief operating decision maker to make decisions about resources allocated to the segment and assess its performance, and for which discrete financial information is available. Segment results that are reported to the chief operating decision maker include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. The chief operating decision maker of the Fund is identified as the Manager.

## **(m) Transaction costs**

Transactions costs are costs incurred to purchase/sale of financial assets or liabilities at FVTPL. They include fees and commissions paid to agents, brokers and dealers. Transaction costs, when incurred, are immediately recognised in profit or loss as an expense.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

## 3 Net gains from financial instruments at fair value through profit or loss

	2024	2023
Net realised gains/(losses) on sale of investments	\$821,611	\$(256,001)
Changes in unrealised gains in value of investments	495,055	365,134
	<u>\$1,316,666</u>	<u>\$109,133</u>

## 4 Taxation

No provision for Hong Kong profits tax has been made in the financial statements as the Fund is exempt from taxation under section 26A(1A) of the Hong Kong Inland Revenue Ordinance.

Interest income and dividend income received by the Fund may be subject to non recoverable withholding tax imposed in the country of origin. Interest income and dividend income are recorded gross of such taxes and the withholding tax is recognised in profit or loss as incurred.

Capital gains realised in certain jurisdictions may be subject to capital gains tax. Capital gains tax is charged to profit or loss on an accrual basis, using tax rates enacted or substantively enacted at the date of the statement of financial position.

Taxation in profit or loss represents:

	2024	2023
Overseas withholding tax	\$8,234	\$4,884
Reversal of capital gains tax	(2,931)	(3,745)
Taxation	<u>\$5,303</u>	<u>\$1,139</u>

## 5 Financial assets and financial liabilities at fair value through profit or loss

<b>Balances due to brokers</b>		
Amounts payable on purchase of investments	\$254,338	\$74,650

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

## 7 Related Parties Transactions

The following is a summary of significant related party transactions or transactions entered into during the year between the Fund, the Trustee, the Manager and their Connected Persons. Connected Persons are those as defined in the SFC code. All transactions during the year between the Fund, the Trustee, the Manager and their Connected Persons were entered into in the ordinary course of business and under normal commercial terms. To the best of the knowledge of the Trustee and the Manager, the Fund did not have any other transactions with Connected Persons except for those disclosed below.

- (a) The Fund is managed by the Manager, which receives a management fee, payable monthly in arrears, equivalent to a percentage per annum of the net asset value of the Fund as follows for years ended 31 July 2024 and 2023:

For Provident class units	0.75%
For Z class units	Nil

HSBC Institutional Trust Services (Asia) Limited (“HTHK”) is entitled to registrar’s fees per annum for each class of units and fees for various administrative functions performed on behalf of the Fund. The registrar’s fees are computed based on different type of transaction processes with different charge rate.

	2024	2023
(i) Management fees for the year	\$266,983	\$276,987
(ii) Management fees payable at year end	23,492	23,340
(iii) Registrar’s fees and other administrative fees paid to HTHK for the year	90,300	93,379
(iv) Registrar’s fees and other administrative fees payable to HTHK at year end	8,822	8,822

- (b) Bank accounts are maintained with The Hong Kong and Shanghai Corporation Limited, which are members of the HSBC Group. The balances of these accounts amounted to \$153,550 (2023: \$701,893) at year ended 31 July 2024. Interest income arising from these accounts amounted to \$18,855 (2023: \$9,351). Margin accounts are maintained with HSBC Bank plc at year end, which is fellow subsidiary of the Manager within the HSBC Group, the balances of margin deposits amounted to \$60,823 (2023: \$Nil) at year ended 31 July 2024.

- (c) The Trustee of the Fund receives a monthly fee equivalent to 0.07% (2023: 0.07%) for all class units per annum of the net asset value of the Fund.

	2024	2023
(i) Trustee’s fees paid to the Trustee	\$24,918	\$27,819
(ii) Trustee’s fees payable to the Trustee at year end	2,193	2,178

- (d) During the year ended 31 July 2024, the safe custodian of the Fund is HSBC Institutional Trust Services (Asia) Limited (the “Custodian”) which is the fellow subsidiary of the Manager within the HSBC Group. The Custodian receives a monthly fee equivalent to 0.15 – 62 (2023: 0.15 – 62) basis points based on sub custodian value of the securities. The custodian also receives a transaction fee of US\$4.40 – US\$100.00 (2023: US\$4.40 – US\$100.00) for each trade handled.

	2024	2023
(i) Safe custody fees paid to HTHK	\$2,148	\$2,206

The market value of these investments at year end was \$26,479,199 (2023: \$32,650,176).

(g) During the years ended 31 July 2024 and 2023, the Fund entered into foreign currency forward contracts with HSBC group company. The details of the outstanding foreign currency forward contracts with The Hongkong and Shanghai Banking Corporation Limited as at years ended 31 July 2024 and 2023 are as follows:

	2024	2023
Receivable on forward contracts	\$8,178	\$240
Payable on forward contracts	(27,242)	-

As at 31 July 2024, the Fund held outstanding futures contracts as financial assets HK\$1,765 (2023: HK\$Nil) and financial liabilities HK\$11,679 (2023: HK\$Nil) respectively with HSBC Holdings PLC.

As at 31 July 2024, the Fund held outstanding option contracts as financial assets HK\$50,655 (2023: HK\$Nil) and financial liabilities HK\$38,742 (2023: HK\$Nil) respectively with HSBC Global Banking and Markets.

(h) During the year ended 31 July 2024, the Fund has incurred other expenses amounting to \$47,080 (2023: 47,256) paid to the Connected Persons of the Trustee.

## 8 Soft commission arrangements

No soft commission arrangements were entered into with brokers by the Fund during the years ended 31 July 2024 and 2023.

The Manager may enter into soft commission arrangements for the provision to the Manager or Connected Persons of goods and services which are of demonstrable benefit to the Unitholders provided that (i) the brokerage rates do not exceed customary institutional full service brokerage rates and the execution of transactions for a Fund is consistent with best execution standards, (ii) periodic disclosure is made in the annual report of the Fund or the relevant Fund in the form of a statement describing the soft dollar policies and practices of the Manager, including a description of goods and services received by it, and (iii) the availability of soft dollar arrangements is not the sole or primary purpose to perform or arrange transaction with such broker or dealer.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

For the avoidance of doubt (and without prejudice to the generality of the foregoing) the following goods and services may be considered as of such benefit to Unitholders: research and advisory services; economic and political analysis; portfolio analysis (including valuation and performance measurement); market analysis, data and quotation services; computer hardware and software incidental to the above goods and services; clearing and custodian services; and investment-related publications.

## 9 Number of units in issue and net assets attributable to unitholders per unit

- (a) Net assets attributable to unitholders per unit are calculated based on the net assets attributable to unitholders divided by the total units in issue as at 31 July 2024 and 2023. The detailed breakdown are as follows:

	2024	2023
Number of units in issue as at 31 July		
- Provident class units	1,493,960	1,701,158
	<hr/>	<hr/>
	2024	2023
Net assets attributable to unitholders per unit		
- Provident class units	\$22.39	\$21.90

- (b) The capital of the Fund is represented by the net assets attributable to unitholders which are subject to subscriptions and redemptions of units. The Fund does not have any externally imposed capital requirements.

Units may be acquired and redeemed on any valuation date at the unit value determined on that day. The valuation date is every business day, which is also a day on which banks in Hong Kong are normally open for business, or such other day(s) as the Manager may determine. No minimum initial and subsequent investment amounts apply to Provident Class Units and Z Class Units.

Units may be redeemed on any valuation date, at the redemption price applicable as at the close of business in Hong Kong on such day. No minimum redemption amounts and minimum holding apply to Provident Class Units and Z Class Units.

## 10 Equalisation

The equalisation portion of received and receivable on issue of units or paid and payable on redemption of units is calculated based on the portion of the unit price related to undistributed accumulated net investment income and accumulated expenses of the unit at the date of issue or redemption.

## 11 Distributions

Pursuant to the Trust Deed, no distributions shall be made to the holders of the Provident class units and Z class units.

## 12 Financial instruments and associated risks

The Fund maintains an investment portfolio in a variety of listed and unlisted financial instruments as dictated by its investment management strategy. The investment objective of the Fund is to achieve long-term capital growth by investing in a diversified portfolio with a mixture of global equities and global bonds and fixed income instruments through direct investment and/or other collective investment schemes that the Fund may invest in. The Fund's investment portfolio comprises equities, unit trusts and forward contracts.

The Fund's investing activities expose it to various types of risks that are associated with the financial instruments and markets in which it invests. The Manager and the Trustee have set out below the most important types of financial risks inherent in each type of financial instrument. The Manager and the Trustee would like to highlight that the following list of associated risks only sets out some of the risks but does not purport to constitute an exhaustive list of all the risks inherent in an investment in the Fund. Unitholders should note that additional information in respect of risks associated with financial instruments in the Fund can be found in the Fund's offering document.

The nature and extent of the financial instruments outstanding at the date of the statement of financial position and the risk management policies employed by the Fund are discussed below.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

## (a) Price risk

Price risk is the risk that value of the instrument will fluctuate as a result of changes in market prices, whether caused by factors specific to an individual investment, its issuer or all factors affecting all instruments traded in the market.

The impact of a 10% (2023: 10%) increase in value of the investments at 31 July 2024, with all other variables held constant, is shown below. An equal change in the opposite direction would have reduced the net assets attributable to unitholders by an equal amount. The analysis is performed on the same basis for year ended 31 July 2023.

	Market exposures	Change in net assets if investment value increased by 10%
<b>As at 31 July 2024</b>		
Equities	\$2	\$-
Unit trusts	33,568,019	3,356,802
Futures contracts	(9,914)	(991)
Option contracts	11,913	1,191

### As at 31 July 2023

	Market exposures	Change in net assets if investment value increased by 10%
Equities	\$1	\$-
Unit trusts	36,762,453	3,676,245

## (b) Interest rate risk

Interest rate risk arises from changes in interest rates which may affect the value of debt instruments and therefore result in potential gain or loss to the Fund. The Fund's interest rate risk is managed on an ongoing basis by the Manager.

The following table indicates the period in which the interest-bearing assets and interest-bearing liabilities analysed by the earlier of contractual re-pricing or maturity date as at years ended 31 July 2024 and 2023.

All amounts stated in '000

	2024				Total
	1 year or less	Over 1 year to 5 years	Over 5 years	Non interest bearing	
<b>Assets</b>					
Financial assets at fair value through profit or loss	\$2	\$-	\$-	\$33,627	\$33,629
Cash and cash equivalents	154	-	-	-	154
<b>Total interest-bearing assets</b>	\$156	\$-	\$-		
<b>Liabilities</b>					
Financial liabilities at fair value through profit or loss	\$(1)	\$-	\$-	\$(77)	\$(78)
<b>Total interest-bearing liabilities</b>	(1)	-	-		
<b>Interest sensitivity gap</b>	\$155	\$-	\$-		
	2023				
	1 year or less	Over 1 year to 5 years	Over 5 years	Non interest bearing	Total
<b>Assets</b>					
Financial assets at fair value through profit or loss	\$-	\$-	\$-	\$36,774	\$36,774
Cash and cash equivalents	702	-	-	-	702
<b>Total interest-bearing assets</b>	\$702	\$-	\$-		
<b>Liabilities</b>					
Financial liabilities at fair value through profit or loss	\$-	\$-	\$-	\$(107)	\$(107)
<b>Total interest-bearing liabilities</b>	-	-	-		
<b>Interest sensitivity gap</b>	\$702	\$-	\$-		

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

## Interest rate sensitivity

As at 31 July 2024 and 2023, the Fund did not hold any debt securities and therefore has minimal exposure to interest rate risk.

### (c) Currency risk

The Fund may invest in financial instruments and enter into transactions denominated in currencies other than its functional currency. Consequently, the Fund is exposed to risks that the exchange rate of its functional currency relative to other foreign currencies may change in a manner that has an adverse effect on the value of that portion of the Fund's assets or liabilities denominated in currencies other than Hong Kong dollars.

The fluctuations in the rate of exchange between the currency in which the asset or liability is denominated and the functional currency could result in an appreciation or depreciation in the fair value of that asset or liability. The Manager may attempt to mitigate this risk by using financial derivative instruments. The Manager monitors the Fund's currency exposures on an ongoing basis.

#### Currency sensitivity

At 31 July 2024 and 2023, had the HKD weakened by 5% (2023: 5%) in relation to respective currencies, with all other variables held constant, the net assets attributable to unitholders and loss for the year would have increased by the amounts shown below. The analysis is performed on the same basis for year ended 31 July 2023.

Change in net  
assets if HKD  
weakened by

Net exposure 5%

#### As at 31 July 2024

Currencies		
Australian dollar	\$493,890	\$24,695
Canadian dollar	(332,721)	(16,636)
Danish krone	(1)	-
Euro	983,434	49,172
Japanese Yen	1,768	88
Norwegian krone	356,770	17,839
Pound sterling	5,431,878	271,594
Swiss franc	(4)	-
Turkish lira	2	-
South African rand	197,156	9,858
South Korean won	41,518	2,076
Total	\$7,173,690	\$358,686

Change in net  
assets if HKD  
weakened by

Net exposure 5%

#### As at 31 July 2023

Currencies		
Danish krone	\$(1)	\$-
Euro	1,247,455	62,373
Japanese Yen	1,027,528	51,376
Pound sterling	6,071,036	303,552
Swiss franc	(4)	-
Turkish lira	1	-
Total	\$8,346,015	\$417,301

As the HKD is pegged to the United States dollar ("USD"), the Fund does not expect any significant movements in USD/HKD exchange rate. A 5% (2023: 5%) appreciation of the HKD against the above currencies would have resulted in an equal but opposite effect on the financial statement amounts, on the basis that all other variables remain constant.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

## **(d) Credit risk**

### (i) Analysis of credit policy and concentration of credit risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund's exposure to credit risk is monitored by the Manager on an ongoing basis.

As at 31 July 2024 and 2023, all of the Fund's financial assets were exposed to credit risk. These include investments and cash and cash equivalents placed with banks and the custodian.

Credit risk arising from transactions with brokers relates to transactions awaiting settlement. Risk relating to unsettled transactions is considered small due to the short settlement period involved and the high credit quality of the brokers used.

All the cash held by the Fund is deposited with the HSBC Group. According to Moody's, the credit rating of HSBC Group is A3 (2023: A3). Bankruptcy or insolvency of the bank may cause the Fund's rights with respect to the cash held by the bank to be delayed or limited. The Manager monitors the credit rating and financial position of the bank on an ongoing basis.

Substantially all of the assets of the sub-funds are held by the Custodian. Bankruptcy or insolvency of the Custodian may cause the sub-funds' rights with respect to securities held by the Custodian to be delayed or limited. The Custodian is a group company of HSBC, for which the long-term credit rating is Aa2 (2023: Aa2), as determined by Moody's.

The carrying amounts of financial assets best represent the maximum credit risk exposure at the date of statement of financial position.

### (ii) Offsetting financial assets and financial liabilities

None of the financial assets and financial liabilities are offset in the statement of financial position.

As at 31 July 2024 and 2023, the disclosure set out in the table below include financial assets and financial liabilities that are subject to an enforceable master netting arrangement.

The enforceable master netting arrangements do not meet the criteria for offsetting in the statement of financial position. This is because they create a right of set off of recognised amounts that is enforceable only following an event of default, insolvency or bankruptcy of the Fund or its counterparties. In addition, the Fund and its counterparties do not intend to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

# Notes to the Financial Statements

(iii) Amounts arising from ECL

Impairment on interest and dividends receivable, subscriptions receivable, amounts due from brokers, other receivables and cash and cash equivalents has been measured on a 12-month expected loss basis and reflects the short maturities of the exposures. The Fund considers that these exposures have low credit risk based on the external credit ratings and/or review result of the counterparties.

The Manager of the Fund monitors changes in credit risk on these exposures by tracking published external credit ratings of the counterparties and/or performed ongoing review of the counterparties.

The Manager considers the probability of default to be minimal as the counterparties have a strong capacity to meet their contractual obligations in the near term. There is no impairment allowance recognised on other receivables, interest and dividends receivable, subscriptions receivable, amounts due from brokers and cash and cash equivalents. The amount of the loss allowance did not change during the years ended 31 July 2024 and 2023.

### (e) Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting obligations arising from its financial liabilities that are settled by delivering cash or another financial asset, or that such obligations will have to be settled in a manner disadvantageous to the Fund. The Fund is exposed to daily liquidity risk on redemption of units.

The Fund's policy is to regularly monitor current and expected liquidity requirements to ensure that it maintains sufficient reserves of cash and readily realisable marketable securities to meet its liquidity requirements in the short and longer term.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

The Fund's listed investments are considered to have insignificant exposure to liquidity risk as they are all readily realisable under normal market conditions. The Fund, however, also invests in unlisted investments such as unlisted unit trusts, which are not publicly traded on exchanges and may become illiquid.

As at 31 July 2024 and 2023, the Fund's financial liabilities are due within three months, except for net assets attributable to unitholders and redemptions payable which are repayable on demand.

## (f) Capital management

The Fund's capital as at the year end date is represented by its redeemable units, which is classified as financial liabilities.

The Fund's objective in managing the capital is to ensure a stable and strong base to achieve long-term capital growth, and to manage liquidity risk arising from the redemptions. The Manager manages the capital of the Fund in accordance with the Fund's investment objectives and policies stated in the Fund's Explanatory Memorandum.

There were no changes in the policies and procedures during the year with respect to the Fund's approach to its capital management.

The amount and the movement of net assets attributable to unitholders are stated in the statement of net assets attributable to unitholders. As the redeemable units are redeemed on demand at the unitholders' option, the actual level of redemption may differ significantly from historical experience.

## (g) Specific instruments

### Forward contracts

Forward contracts are commitments either to purchase or sell a designated financial instrument, currency, commodity or index at a specified future date for a specified price and may be settled in cash or the underlying financial asset.

Forward contracts result in exposure to market risk based on changes in market prices relative to contracted prices. Market risks arise due to the possible movement in foreign currency exchange rates, indices, and securities' values underlying these instruments. In addition, because of the low margin deposits normally required in relation to notional contract sizes, a high degree of leverage may be typical of a forward contract and may result in substantial losses to the Fund. Forward contracts are generally subject to liquidity risk.

As at 31 July 2024 and 2023, the Fund's holdings in foreign currency forward contracts were as specified in the following tables.

### As at 31 July 2024

Buy	Sell	Settlement date	Fair value assets	Fair value liabilities
HKD999,790	EUR117,300	12 September 2024	\$7,481	\$-

			<u>\$11,541</u>	<u>\$(107,068)</u>

### Future contracts

Futures contracts are legally binding commitments to buy or sell a financial instrument, currency, commodity or index at a specified future date for a specified price which are agreed upon at the initiation of the contract by the buyer and seller.

Futures contracts are standardised for quality and quantity and traded on a futures exchange.

As at 31 July 2024, the Fund's holdings in futures contracts were as specified in the following table.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

As at 31 July 2023, the Fund did not hold in any options.

## 13 Fair value information

The Fund's financial instruments are measured at fair value on the date of the statement of financial position. Fair value estimates are made at a specified point in time, based on market conditions and information about the financial instruments. Usually, fair values can be reliably determined within a reasonable range of estimates. For certain other financial instruments, including interest and dividends receivable, subscriptions receivable, amounts due to brokers, amounts due from brokers, redemptions payable and other payables, the carrying amounts approximate fair values due to the immediate or short-term nature of these financial instruments.

## Valuation of financial instruments

The Fund's accounting policy on fair value measurements is detailed in significant accounting policy in note 2(e)(iv).

The Fund measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements.

- Level 1: Inputs that are quoted market prices (unadjusted) in active markets for identical instruments.
- Level 2: Inputs other than quoted prices included within level 1 that are observable either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques in which all significant inputs are directly or indirectly observable from market data.
- Level 3: Inputs that are unobservable. This category includes all instruments for which the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments but for which significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

When fair values of listed and quoted investments at the reporting date are based on quoted market prices or binding dealer price quotations in an active market, without any deduction for transaction costs, the instruments are included within level 1 of the hierarchy. When fair values of debt securities at the reporting date represent quoted prices in markets that are considered less than active or consensus prices derived by third parties using valuation techniques where all significant inputs are directly or indirectly observable from market data, those debt securities are included within level 2 of the hierarchy. For all other financial instruments, the Fund determines fair value using valuation techniques.

The Fund uses widely recognised valuation models for determining the fair value of the financial instruments which do not have quoted market prices in active markets. Valuation techniques include net present value, discounted cash flow models, comparison to similar instruments for which market observable prices exist, comparison to quoted prices for identical instruments that are considered less than active and other valuation models.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

The following analyses financial assets and liabilities at fair value through profit or loss at the date of the statement of financial position, by the level in the fair value hierarchy into which the fair value measurement is categorised.

*Financial instruments at fair value through profit or loss*

	Level 1	Level 2	Level 3	Total
--	---------	---------	---------	-------

**31 July 2024**

## Financial assets

	Level 1	Level 2	Level 3	Total
Equities	\$2	\$-	\$-	\$2
Unit trusts	-	33,568,019	-	33,568,019

## Quantitative information of significant unobservable inputs – Level 3

The table below sets out information about significant unobservable inputs used at 31 July 2024 and 2023 in measuring financial instruments categorised as level 3 in the fair value hierarchy.

Description	Fair value at 31 July 2024	Fair value at 31 July 2023	Valuation techniques	Unobservable input
Unlisted equities	-	-	Adjustment on last traded price before suspension	Adjustment based on the information relating to the investments

The significant unobservable inputs used in the fair value measurement categorised within level 3 of the fair value hierarchy together with a quantitative sensitivity analysis is as shown below:

Description	Input	Change in the relevant input	Effect on the net assets attributable to unitholders
-------------	-------	------------------------------	--

**As at 31 July 2024**

Unlisted equities	100%	5%/(5)%	\$/13,138
-------------------	------	---------	-----------

**As at 31 July 2023**

Unlisted equities	100%	5%/(5)%	\$/13,148
-------------------	------	---------	-----------

## Valuation of financial instruments not measured at fair value

The financial instruments not measured at fair value through profit or loss are short term financial assets and financial liabilities whose carrying amounts approximate fair value.

## 14 Segment information

The Manager makes the strategic resource allocation on behalf of the Fund and determines the operating segments based on the internal reporting used to make strategic decisions.

The Manager's asset allocation decisions are based on one single and integrated investment strategy, and the Fund's performance is evaluated on an overall basis. Accordingly the Manager considers that the Fund has one single operating segment which is investing in a portfolio of financial instruments to generate investment returns in accordance with the investment objective stipulated in its Explanatory Memorandum of the Fund. There were no changes in the reportable operating segment during the years ended 31 July 2024 and 2023.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

All revenues and losses generated from investments by the Fund are disclosed in note 3. The segment information provided to the Manager is the same as that disclosed in the statement of comprehensive income and the statement of financial position.

## 15 Involvement with unconsolidated structured entities

The Fund has concluded that the listed and unlisted investment funds in which it invests, but that it does not consolidate, meet the definition of structured entities because:

- the voting rights in the funds are not dominant rights in deciding who controls them as they relate to administrative tasks only;
- each fund's activities are restricted by its prospectus; and
- the funds have narrow and well defined objectives to provide investment opportunities to investors.

The table below describes the types of structured entities that the Fund does not consolidate but in which it holds an interest.

Type of structured entity	Nature and purpose	Interest held by the Fund
Investment funds	To manage assets on behalf of third party investors and generate fees for the investment manager	Investment in units issued by the funds
	These vehicles are financed through the issue of units to investors	

The table below sets out interests held by the Fund in unconsolidated structured entities. The maximum exposure to loss is the carrying amount of the financial assets held.

	31 July 2024		
	Number of investee funds	Total net assets (based on unaudited information)	Carrying amount included in "Financial assets of fair value through profit or loss"
Listed investment funds	16	\$1,305,834,000,000	\$7,088,820
Unlisted investment funds	11	\$2,755,900,000,000	\$26,479,199

	31 July 2023		
	Number of investee funds	Total net assets (based on unaudited information)	Carrying amount included in "Financial assets of fair value through profit or loss"
Listed investment funds	7	\$1,100,106,000,000	\$4,112,277
Unlisted investment funds	12	\$2,617,878,000,000	\$32,650,176

During the years ended 31 July 2024 and 2023, the Fund did not provide financial support to unconsolidated structured entities and has no intention of providing financial or other support.

The Fund can redeem units in the above investment funds on any respective dealing day.

## 16 Possible impact of amendments, new standards and interpretations issued but not yet effective for the year ended 31 July 2024

Up to the date of issue of these financial statements, the HKICPA has issued a number of amendments which are not yet effective for the year ended 31 July 2024 and which have not been adopted in these financial statements.

# Notes to the Financial Statements

(Expressed in Hong Kong dollars)

Of these developments, the following may be relevant to the Fund's operations and financial statements:

**Effective for  
accounting periods  
beginning on or after**

Amendments to HKAS 1, <i>Presentation of financial statements: Classification of liabilities as current or non-current</i>	1 January 2024
Amendments to HKAS 21, <i>The effects of changes in foreign exchange rates: Lack of exchangeability</i>	1 January 2025

The Fund is in the process of making an assessment of what the impact of these developments is expected to be in the period of initial application. So far it has concluded that the adoption of them is unlikely to have a significant impact on the Fund's result of operations and financial position.

## **17 Event occurring after year-end date**

In preparing these financial statements, the Manager and the Trustee have evaluated all significant events up to the date the financial statements are approved and authorized for issue. There were no subsequent events that would require adjustment or disclosure to these financial statements.

## **18 Approval of financial statements**

The financial statements were approved by the Manager and the Trustee on 29 November 2024.

# SFC ESG related disclosure for the year ended 31 July 2024 (Unaudited)

## (a) HSBC Managed Stable Growth Fund's Carbon Footprint including formula

	Carbon Footprint	Coverage	Holdings Weight
<b>Corporate Carbon Footprint*</b>	97.58	96%	59%

\* Expressed in CO<sub>2</sub>e/USDmn invested using Scope 1+2 Carbon Emissions, source from S&P Trucost

## (b) Corporate Carbon Footprint (tonnes CO<sub>2</sub>e/USDmn):

The GHG emissions apportioned to the portfolio per million USD owned by the portfolio. Each holding's contribution to the carbon footprint of the portfolio is calculated on an equity ownership basis using the Enterprise Value (EVIC) of the companies. The carbon footprint of the Fund is the sum of these contributions, normalised by amount owned.

$$\frac{\sum_i \left( \frac{\text{current value of investment}_i}{\text{investee company's enterprise value}_i} \times \text{investee company's Scope 1 and 2 GHG emissions}_i \right)}{\text{current value of all investments (USDm)}}$$

Coverage: This indicates the proportion of the Fund for which data can be sourced.

## (c) Assumption/data limitation

This GHG consists to sum of the carbon emissions (scope 1, 2 and 3) of issuer divided by enterprise value, multiplied by the weight of the investment. Enterprise Value, including cash (EVIC) in million Euro are sourced from AM's reporting vendor FactSet. It is a measure of carbon emissions ownership, as it takes into account the proportion of emissions per investment, relative to the total size of the issuer value. However, carbon footprint can fluctuate without a change in carbon emissions as a result of changes in issuer value. Total carbon footprint is the sum of all issuer carbon footprint, divided by the value of the portfolio.

Data limitation: Carbon emissions (Scope 1, 2 & 3) are primarily based on company carbon disclosures, or estimated by S&P Trucost in the absence of company reports. It is worth noting the lack of coverage of scope 3 GHG emissions and some niche asset classes (such as Small Caps, High Yield or emerging markets issuers). These gaps are due to companies not reporting emissions and it is not appropriate to estimate non-reported emissions for niche asset classes or sub-industries.

It is important to note that we decided to zero down the carbon emission for internally approved green bonds – i.e. green bonds for which “greenness” has been ascertained and approved by a fully-fledged HSBC AM committee. This option has been set in the absence of a more accurate and systematic assessment which would consist in applying to the concerned bond a reduced CHG emissions based on the financed projects/use of proceeds. The same abatement (“zeroing”) will apply similarly to portfolio position and corresponding benchmark components.

# Trustee's Report

## **HSBC Global Money Funds ("the Fund")**

We hereby confirm that, to the best of our knowledge, the Manager of HK Dollar sub-fund, US Dollar sub-fund and Renminbi sub-fund of the Fund ("the sub funds") has, in all material respects, managed the sub funds in accordance with the provisions of the Trust Deed dated 12 February 1991, as amended, for the year ended 31 July 2024.

)

# Independent Auditor's Report to the Unitholders

## Report on the Audit of Financial Statements

### Opinion

We have audited the financial statements of HK Dollar sub-fund, US Dollar sub-fund and Renminbi sub-fund ("the sub-funds"), sub funds of HSBC Global Money Funds set out on pages 175 to 300, which comprise the statements of financial position as at 31 July 2024, the statements of comprehensive income, the statements of changes in net assets attributable to unitholders, the cash flow statements for the year then ended, and notes to the financial statements, including material accounting policy information.

In our opinion, the financial statements give a true and fair view of the financial disposition of the sub-funds at 31 July 2024, and of their financial transactions and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

### Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the sub-funds in accordance with the HKICPA's Code of Ethics for Professional Accountants ("the Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Information Other than the Financial Statements and Auditor's Report Thereon

The Manager and the Trustee of the sub-funds are responsible for the other information. The other information comprises all the information included in the annual report, other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially

misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Responsibilities of the Manager and the Trustee of the sub-funds for the Financial Statements

The Manager and the Trustee of the sub-funds are responsible for the preparation and fair presentation of financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and for such internal control as the Manager and the Trustee determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Manager and the Trustee of the sub-funds are responsible for assessing the sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager and the Trustee of the sub-funds either intend to liquidate the sub-funds or to cease operations, or have no realistic alternative but to do so.

In addition, the Manager and the Trustee of the sub-funds are required to ensure that the financial statements have been properly prepared in accordance with the relevant provisions of the Trust Deed, as amended, ("the Trust Deed") and the relevant disclosure provisions of Appendix E of the Code on Unit Trusts and Mutual Funds ("the SFC Code") issued by the Hong Kong Securities and Futures Commission.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, and, for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with HKSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether

# Independent Auditor's Report to the Unitholders

the financial statements of the sub-funds have been properly prepared, in all material respects, in accordance with the relevant provisions of the Trust Deed and the relevant disclosure provisions of Appendix E of the SFC Code.

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the sub-funds' internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager and the Trustee of the sub-funds.
- Conclude on the appropriateness of the Manager's and the Trustee's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the sub-funds to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager and the Trustee of the sub-funds regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## **Report on matters under the relevant provisions of the Trust Deed and the relevant disclosure provisions of Appendix E of the SFC Code**

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant provisions of the Trust Deed and the relevant disclosure provisions of Appendix E of the SFC Code.

# Notes to the Financial Statements

## HSBC Global Money Funds

### 1 The Fund

HSBC Global Money Funds (“the Fund”) was established under a trust deed dated 12 February 1991, as amended (“the Trust Deed”) made between HSBC Investment Funds (Hong Kong) Limited (the “Manager”) and HSBC Institutional Trust Services (Asia) Limited (the “Trustee”) is governed by the laws of the Cayman Islands. The Fund is an umbrella investment fund divided into a number of underlying sub-funds, each of which is linked to a different currency. Currently, the Fund has three sub-funds (“the sub-funds”) linked to HK dollars, United States (“US”) dollars and Renminbi respectively.

The Fund was registered under the Mutual Funds Law of the Cayman Islands on 25 July 1994. With effect on and from 4 January 2019 the fund is governed by Hong Kong laws. The investment objective of the Fund is to preserve capital and provide daily liquidity together with an investment return that is comparable to normal market rate in the base currency of the sub-funds through investing in monetary instruments such as treasury bills, bills of exchange, commercial paper, certificates of deposit or interbank deposits.

The sub-funds are authorised by the Hong Kong Securities and Futures Commission (“SFC”) under section 104 of the Hong Kong Securities and Futures Ordinance (“HKSF”) and are governed by the Hong Kong Code on Unit Trusts and Mutual Funds (the “SFC code”).

### 2 Material accounting policies

#### (a) Statement of compliance

The financial statements have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards (“HKFRSs”), which collective term includes all applicable individual HKFRSs, Hong Kong Accounting Standards (“HKASs”) and Interpretations issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”), accounting principles generally accepted in Hong Kong, the relevant provisions of the Trust Deed and the relevant disclosure provisions of the SFC code. Material accounting policies adopted by the Fund are set out below.

The HKICPA has issued certain new and revised HKFRSs that are first effective or available for early adoption for the current accounting period of the Fund. Note 2 (c) provides information on any changes in accounting policies resulting from initial application of these developments to the extent

that they are relevant to the Fund for the current and prior accounting periods reflected in these financial statements.

#### (b) Basis of preparation of the financial statements

The functional and presentation currencies of the HK Dollar sub-fund, the US Dollar sub-fund and Renminbi sub-fund are Hong Kong dollars, United States dollars and Renminbi respectively reflecting the fact that the participating redeemable units of each sub-fund are issued and redeemed in those respective currencies.

The financial statements are prepared on a fair value basis for financial assets and financial liabilities at fair value through profit or loss (“FVTPL”). Other financial assets and financial liabilities are stated at amortised cost.

The Fund maintains a separate account for each sub-fund to which the proceeds of issue and the income arising from the investment of those proceeds are credited and against which the expenses are allocated accordingly. Upon redemption, unitholders are entitled only to their proportion of the net assets held in the account relating to the sub-fund in which the units are designated.

The preparation of financial statements in conformity with HKFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

#### (c) Changes in accounting policies

The HKICPA has issued certain amendments to HKFRSs that are first effective for the current accounting period of the sub-funds. None of these developments have had a material effect on how the sub-funds’ result and financial position for the current or prior periods have been prepared or presented in this financial report.

# Notes to the Financial Statements

The Fund adopted the Amendments of HKAS 1, Presentation of financial statements and HKFRS Practice Statement 2, Making materiality judgements: Disclosure of accounting policies. Although the amendments did not result in any changes to the accounting policies themselves, they impacted the accounting policy information disclosed in the financial statements.

The amendments required the disclosure of 'material' rather than 'significant' accounting policies. The amendments also provide guidance on the application of materiality to disclosure of accounting policies, assisting entities to provide useful, entity-specific accounting policy information that users need to understand other information in the financial statements.

The sub-funds have not applied other new standard or interpretation that is not yet effective for the current accounting period (see note 13).

## **(d) Foreign currency translation**

Foreign currency transactions during the years are translated into the reporting currencies of the respective sub-funds at the exchange rates ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated into the reporting currencies of the respective sub-funds at the foreign exchange rates ruling at the date of the statement of financial position. Foreign currency exchange differences arising on translation and realised gains and losses on disposals or settlements of monetary assets and liabilities are recognised in profit or loss.

Foreign currency exchange differences relating to investments at FVTPL are included in net gains or losses from financial instruments at FVTPL. All other foreign currency exchange differences relating to monetary items including cash and cash equivalents are presented separately in profit or loss.

## **(e) Financial instruments**

### (i) Classification

On initial recognition, the sub-funds classify financial assets as measured at amortised cost or FVTPL.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest ("SPPI").

All other financial assets of the sub-funds are measured at FVTPL.

### *Business model assessment*

In making an assessment of the objective of the business model in which a financial asset is held, the sub-funds consider all of the relevant information about how the business is managed, including:

- the documented investment strategy and the execution of this strategy in practice. This includes whether the investment strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the sub-funds' management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how the investment manager is compensated: e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

# Notes to the Financial Statements

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the sub-funds' continuing recognition of the assets.

The sub-funds have determined that it has two business models.

- Held-to-collect business model: this includes interest receivable, other receivable, fixed deposits with original maturity more than three months and cash and cash equivalents. These financial assets are held to collect contractual cash flow.
- Other business model: this includes debt instruments. These financial assets are managed and their performance is evaluated, on a fair value basis, with frequent sales taking place.

#### *Assessment whether contractual cash flows are SPPI*

For the purposes of this assessment, "principal" is defined as the fair value of the financial asset on initial recognition. "Interest" is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are SPPI, the sub-funds consider the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the sub-funds consider:

- contingent events that would change the amount or timing of cash flows;
- leverage features;
- prepayment and extension features;
- terms that limit the sub-funds' claim to cash flows from specified assets (e.g. non-recourse features); and
- features that modify consideration for the time value of money (e.g. periodical reset of interest rates).

The sub-funds classify their investments based on the business model and contractual cash flows assessment. Accordingly, the sub-funds classify all their debt instruments into financial assets at FVTPL category. Financial assets measured at amortised cost include interest receivable, other receivables, fixed deposits with original maturity more than three months and cash and cash equivalents. Financial liabilities that are not at FVTPL included redemptions payable, amount due to brokers, distributions payable and other payables.

#### *Reclassifications*

Financial assets are not reclassified subsequent to their initial recognition unless the sub-funds was to change its business model for managing financial assets, in which case all affected financial assets would be reclassified on the first day of the first reporting period following the change in the business model.

#### (ii) Recognition

The sub-funds recognise financial assets and financial liabilities on the date they become a party to the contractual provisions of the instruments.

A regular way purchase or sale of financial assets is recognised using trade date accounting. From this date any gains and losses arising from changes in fair value of the financial assets or financial liabilities are recorded.

Financial liabilities are not recognised unless one of the parties has performed their obligations under the contract or the contract is a derivative contract not exempted from the scope of HKFRS 9.

#### (iii) Measurement

Financial instruments are measured initially at fair value (transaction price). Transaction costs on financial assets and liabilities at FVTPL are expensed immediately, while on other financial instruments that they are amortised.

Subsequent to initial recognition, all instruments classified at FVTPL are measured at fair value with changes in their fair value recognised in profit or loss.

Financial assets classified as measured at amortised cost are carried at amortised cost using the effective interest rate method, less impairment losses, if any.

# Notes to the Financial Statements

Financial liabilities other than those at FVTPL are measured at amortised cost using the effective interest rate method. Financial liabilities arising from the redeemable units issued by the sub-funds are carried at the redemption amount representing the unitholders' right to a residual interest in the sub-funds' assets.

## (iv) Fair value measurement principles

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal, or in its absence, the most advantageous market to which the sub-funds have access at that date. The fair value of a liability reflects its non-performance risk.

When available, the sub-funds measure the fair value of an instrument using the quoted price in an active market for that instrument provided such price is within the bid ask spread. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. In circumstances where the quoted price is not within the bid ask spread, the Manager of the Sub-funds will determine the points within the bid ask spread that are most representative of the fair value.

When there is no quoted price in an active market, the sub-funds use valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all the factors that market participants would take into account in pricing a transaction.

The best evidence of the fair value of a financial instrument at initial recognition is normally the transaction price - i.e. the fair value of the consideration given or received. If the sub-funds determine that the fair value at initial recognition differs from the transaction price and the fair value is evidenced neither by a quoted price in an active market for an identical asset or liability nor based on a valuation technique that uses only data from observable markets, the financial instrument is initially measured at fair value, adjusted to defer the difference between the fair value at initial recognition and the transaction price. Subsequently, that difference is recognised in profit or loss on an appropriate basis over the life of the instrument but no later than when the valuation is supported wholly by observable market data or the transaction is closed out.

If an asset or a liability measured at fair value has a bid price and an ask price, the sub-funds measure assets and long positions at a bid price and liabilities and short positions at an ask price.

Portfolios of financial assets and financial liabilities that are exposed to market risk and credit risk that are managed by the sub-funds on the basis of the net exposure to either market or credit risk, are measured sub-funds would be received to sell a net long position (or paid to transfer a net short position) for a particular risk exposure. Those portfolio-level adjustments are allocated to the individual assets and liabilities on the basis of the relative risk adjustment of each of the individual instruments in the portfolio.

The sub-funds recognise transfers between levels of the fair value hierarchy as of the end of the reporting period during which the change has occurred.

## (v) Amortised cost measurement principles

The amortised cost of a financial asset or liability is the amount at which the financial asset or liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between the initial amount recognised and the maturity amount, minus any reduction for impairment.

## (vi) Impairment

At each reporting date, the sub-funds assess whether credit risk for financial assets held at amortised cost has increased significantly since initial recognition. If there is a significant increase in credit risk since initial recognition, then the sub-funds measure the loss allowances on financial assets at an amount equal to the lifetime expected credit losses. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the sub-funds measure the loss allowances on financial assets at an amount equal to the expected credit losses for the later of 12 months or the period to maturity, if the amount is material. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered as credit impaired.

# Notes to the Financial Statements

## (vii) Derecognition

The sub-funds derecognise a financial asset when the contractual rights to the cash flows from the financial asset expire or they transfer the financial assets and the transfer qualifies for derecognition in accordance with HKAS 39.

The sub-funds use the weighted average method to determine realised gains and losses on derecognition.

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or has expired.

## (viii) Offsetting

Financial assets and liabilities are offset and the net amount is reported in the statement of financial position when the sub-funds have a legally enforceable right to offset the recognised amounts and the transactions are intended to be settled on a net basis or simultaneously, e.g. through a market clearing mechanism.

## (ix) Specific instruments

### *Cash and cash equivalents*

Cash comprises current deposits and time deposits with maturities of three months or less from the date of acquisition with banks. Cash equivalents are short-term and highly liquid investments that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short term cash commitments rather than for investment or other purposes. Bank overdrafts that are repayable on demand and form an integral part of the Fund's cash management are also included as a component of cash and cash equivalents for the purpose of the cash flow statement.

## **(f) Revenue recognition**

Revenue is recognised in profit or loss as follows:

### *Interest income*

Interest income is recognised in profit or loss as it accrues, using the effective interest rate method using the rate exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of the financial asset. Interest income on bank

deposits and fixed deposits with original maturity more than three months is disclosed separately on the face of the statement of comprehensive income.

Interest income on debt securities is included in net gains or losses from financial instruments at FVTPL.

### *Other income*

Other income is recognised in the statement of comprehensive income on an accrual basis.

## **(g) Expenses**

All expenses are recognised in profit or loss on an accruals basis.

## **(h) Related parties**

(a) A person, or a close member of that person's family, is related to the Fund if that person:

- (i) has control or joint control over the Fund;
- (ii) has significant influence over the Fund; or
- (iii) is a member of the key management personnel of the Fund.

(b) An entity is related to the Fund if any of the following conditions applies:

- (i) The entity and the Fund are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
- (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
- (iii) Both entities are joint ventures of the same third party.
- (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
- (v) The entity is a post employment benefit plan for the benefit of employees of an entity related to the Fund.

# Notes to the Financial Statements

- (vi) The entity is controlled or jointly controlled by a person identified in (a).
- (vii) A person identified in note 2 (h)(a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).
- (viii) The entity, or any member of a group of which it is a part, provides key management personnel services to the Fund.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

## **(i) Subscriptions and redemptions**

The sub-funds recognise unitholders' subscriptions and allot units upon receipt of a valid subscription application and derecognise them upon receipt of a valid redemption application.

## **(j) Units in issue**

The sub-funds classify financial instruments issued as financial liabilities or equity instruments in accordance with the substance of the contractual terms of the instruments.

A puttable financial instrument that includes a contractual obligation for the issuer to repurchase or redeem that instrument for cash or another financial asset is classified as equity instrument if it meets the following conditions:

- it entitles the holder to a pro rata share of the sub fund's net assets in the event of the sub fund's liquidation;
- it is in the class of instruments that is subordinate to all other classes of instruments;
- all financial instruments in the class of instruments that is subordinate to all other classes of instruments have identical features;
- apart from the contractual obligation for the sub-funds to repurchase or redeem the instrument for cash or another financial asset, the instrument does not include any other features that would require classification as a liability; and

the total expected cash flows attributable to the instrument over its life are based substantially on profit or loss, the change in the recognised net assets or the change in the fair value of the recognised and unrecognised net assets of the sub-funds over the life of the instrument.

As at 31 July 2024, the HK Dollar sub-fund has ten classes of redeemable units in issue "Series A" class, "Series C" class, "Series D" class, "Series E" class, "Series F" class, "Series L" class, "Series Z" class, "Series DD" class, "Series ED" class and "Series FD" class. The US Dollar sub-fund has three classes of redeemable units in issue "Series A" class, "Series C" class, and "Series Z" class. The Renminbi sub-fund has seven classes of redeemable units in issue "Series C" class, "Series D" class, "Series E" class, "Series F" class, "Series DD" class, "Series FD" class, and "Series GD" class. Classes belong to the most subordinate class of financial instruments in the sub-fund and rank *pari passu* in all material respects and have the same terms and conditions other than different management fee rates. The redeemable units provide unitholders with the right to require redemption for cash at a value proportionate to the unitholders' share in the sub-fund's net assets at each redemption date, and also in the event of the sub-fund's liquidation. The redeemable units are classified as financial liabilities and are measured at the present value of the redemption amounts.

## **(k) Segment reporting**

An operating segment is a component of the sub-funds that engages in business activities from which they may earn revenues and incur expenses, including revenues and expenses that relates to transactions with any of the sub-funds' other components, whose operating results are reviewed regularly by the chief operating decision maker to make decisions about resources allocated to the segment and assess its performance, and for which discrete financial information is available. Segment results that are reported to the chief operating decision maker include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. The chief operating decision maker of the sub-funds is identified as the manager.

# Notes to the Financial Statements

## 3 Net gains from financial assets at fair value through profit or loss

	2024 HK Dollar sub-fund HKD	2023 HK Dollar sub-fund HKD
Net realised gains on sales of investments	17,573,484	9,446,760
Changes in unrealised gains in value of investments	90,781,111	30,617,621
	108,354,595	40,064,381

During the year ended 31 July 2024, the sub-fund received interest from investments of HKD17,573,484 (2023: HKD9,446,760).

	2024 US Dollar sub-fund USD	2023 US Dollar sub-fund USD
Net realised gains on sales of investments	793,052	577,808
Changes in unrealised gains in value of investments	7,095,678	5,955,936
	7,888,730	6,533,744

During the year ended 31 July 2024, the sub-fund received interest from investments of USD793,052 (2023: USD577,322).

	For the period ended 17 August 2022 (date of commencement of operation) to 2024 31 July 2023	
	Renminbi sub-fund RMB	Renminbi sub-fund RMB
Net realised gains on sales of investments	8,593,633	4,692,439
Changes in unrealised gains/(losses) in value of investments	1,688,965	(312,327)
	10,282,598	4,380,112

During the year ended 31 July 2024, the sub-funds received interest from investments of RMB8,593,633 (period ended 17 August 2022 (date of commencement of operation) to 31 July 2023: RMB4,681,421).

## 4 Taxation

No provision for Hong Kong profits tax has been made in the financial statements as the sub-funds are exempt from taxation under section 26A(1A) of the Hong Kong Inland Revenue Ordinance.

Interest income received by the sub-funds may be subject to non recoverable withholding tax imposed in the country of origin. Interest income is recorded gross of such taxes and the withholding tax is recognised in profit or loss as incurred.

### **Foreign Account Tax Compliance Act ("FATCA")**

On 18 March 2010, the Hiring Incentives to Restore Employment Act of 2010 added chapter 4 to Subtitle A ("Chapter 4") of the US Internal Revenue Code (the "Code"). The provisions in Chapter 4 are commonly referred to as the Foreign Account Tax Compliance Act ("FATCA"). US Treasury regulations providing guidance on the due diligence, reporting, and withholding obligations under FATCA were passed and came into effect in January 2013 ("the Regulations").

The Regulations require foreign financial institution ("FFI") to provide the Internal Revenue Service ("IRS") with information on certain U.S. persons invested in accounts outside of the U.S. and for certain non U.S. entities to provide information about any U.S. owners. The obligations of an FFI under FATCA may be modified by an Intergovernmental Agreement ("IGA") between the US and the FFI's country of organization. The Cayman Islands entered into a Model 1 IGA on 29 November 2013, which provides for reporting and enforcement by FFIs to be facilitated by local authorities. The Cayman Islands also entered into a similar IGA with the United Kingdom. Therefore, all Cayman Islands domiciled "financial institutions" are subject to domestic legislation and regulations that implement both the Foreign Account Tax Compliance Act ("US FATCA") and its UK equivalent ("UK FATCA" and together, "FATCA"). The due diligence and reporting regimes introduced by the domestic legislation and regulations apply to all such financial institutions irrespective of whether they have US or UK based account holders and/or have US or UK assets or source income.

## 6 Transactions with the Trustee, Manager and Connected Persons

The following is a summary of significant related party transactions or transactions entered into during the years/period between the Fund, the Trustee, the Manager and their Connected Persons. Connected Persons are those as defined in the SFC code. All transactions during the years/period between the Fund, the Trustee, Manager and their Connected Persons were entered into in the ordinary course of business and under normal commercial terms. To the best of the knowledge of the Trustee and the Manager, the Fund did not have any other transactions with Connected Persons except for those disclosed below.

(a) The sub-funds are managed by the Manager. The Manager receives a management fee, payable monthly in arrears, equivalent to a percentage per annum of the net asset value of the sub-funds as follows:

	HK Dollar sub-fund	US Dollar sub-fund	Renminbi sub-fund
For Series A units	Up to 0.25%	Up to 0.25%	N/A
For Series B units	N/A	N/A	N/A
For Series C units	Up to 0.30%	Up to 0.30%	Up to 0.30%
For Series D units	Up to 0.20%	N/A	Up to 0.20%
For Series E units	Up to 0.15%	N/A	Up to 0.15%
For Series F units	Up to 0.10%	Up to 0.10%	Up to 0.10%
For Series L units	Up to 0.25%	N/A	N/A
For Series Z units	0.00%	0.00%	0.00%
For Series DD units	Up to 0.20%	N/A	Up to 0.20%
For Series ED units	Up to 0.15%	N/A	Up to 0.15%
For Series FD units	Up to 0.10%	N/A	Up to 0.10%
For Series GD units	N/A	N/A	Up to 0.05%
For Series ZD units	N/A	N/A	N/A

HSBC Institutional Trust Services (Asia) Limited ("HTHK") is the registrar of the Fund and is entitled to registrar's fees per annum which computed by different rates of different types of transaction activities for each class of units and fees for various administrative functions performed on behalf of the Fund.

Percentage of such transactions in value to total transactions for the year/period	50.21%	-	13.76%	-

The figures for commission paid do not include any trading margin which may be reflected in the market price of transactions with this entity on any transactions by the sub-fund during the years/period ended 31 July 2024 and 2023.

# Notes to the Financial Statements

- (f) During the year/period ended 31 July 2023, one of the directors of the Trustee held units of HK Dollar sub fund and US Dollar sub fund details are as follows:

## HK Dollar sub-fund Class C

	2024	2023
No. of director with holdings	-	1
Units held at the beginning of the year	-	872,035
Subscription of units during the year	-	-
Redemption of units during the year	-	(872,035)
Unitholders at year end	-	-
Profit/(loss) from the transaction	-	9,418

## US Dollar sub-fund Class C

	2024	2023
No. of director with holdings	-	1
Units held at the beginning of the year	-	380,619
Subscription of units during the year	-	-
Redemption of units during the year	-	(380,619)
Unitholders at year end	-	-
Profit/(loss) from the transaction	-	5,747

There was no other directors of the Trustee, Manager or Connected Persons held units of other sub-funds that did not disclose above for the years/period ended 31 July 2024 and 2023.

## 7 Soft commission arrangements

No soft commission arrangements were entered into with brokers during the years/period ended 31 July 2024 and 2023.

The Manager may enter into soft commission arrangements for the provision to the Manager or Connected Persons of goods and services which are of demonstrable benefit to the Unitholders provided that (i) the brokerage rates do not exceed customary institutional full service brokerage rates and the execution of transactions for a Fund is consistent with best execution standards, (ii) periodic disclosure is made in the annual report of the Fund or the relevant Fund in the form of a statement describing the soft dollar policies and practices of the Manager, including a description of goods and services received by it, and (iii) the availability of soft dollar arrangements is not the sole or primary purpose to perform or arrange transaction with such broker or dealer.

For the avoidance of doubt (and without prejudice to the generality of the foregoing) the following goods and services may be considered as of such benefit to unitholders: research and advisory services; economic and political analysis; portfolio analysis (including valuation and performance measurement); market analysis, data and quotation services; computer hardware and software incidental to the above goods and services; clearing and custodian services; and investment-related publications.

# Notes to the Financial Statements

The Manager, however, has discretion to accept such lower amount of minimum investment or minimum increase in investment in any sub funds.

Units in the sub-funds may normally be redeemed at the dealing price of the relevant series of units in the relevant sub-fund following receipt in writing of an application to the Manager using a special redemption request form available from the Manager. Partial redemptions are allowed for a minimum fee as stated in the above, provided that the remaining balance of holdings of the relevant series are not less than the minimum holding requirement of the relevant series of the sub-funds. Redemption requests received after the dealing deadline on any dealing day are carried over to the next dealing day.

## 9 Distributions

The following table shows the distributions statement of the Hong Kong Dollar sub-fund.

	2024 HKD	2023 HKD
<b>Amount available for distribution brought forward</b>	113,977,013	26,552,815

\* Profit for the year available for distribution is the adjusted total comprehensive income for the year, for which the calculation basis is in accordance with the relevant clauses of the Trust Deed.

# Notes to the Financial Statements

## 10 Financial instruments and associated risks

The sub-funds maintain an investment portfolio in a variety of listed and unlisted financial instruments as dictated by their respective investment management strategies. The investment objective of the Fund is to preserve capital and provide daily liquidity together with an investment return that is comparable to normal market rate in the base currency of the sub-funds through investing in monetary instruments such as treasury bills, bills of exchange, commercial paper, certificates of deposit or interbank deposits.

The sub-funds' investing activities expose them to various types of risks that are associated with the financial instruments and markets in which they invest. The Manager and the Trustee have set out below the most important types of financial risks inherent in each type of financial instrument. The Manager and the Trustee would like to highlight that the following list of associated risks only sets out some of the risks but does not purport to constitute an exhaustive list of all the risks inherent in an investment in the sub-funds. Investors should note that additional information in respect of risks associated with financial instruments in the sub-funds can be found in the offering document of the relevant sub-funds.

The nature and extent of the financial instruments outstanding at the date of statement of financial position and the risk management policies employed by the sub-funds are discussed below:

### (a) Market price risk

Market price risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices, whether those changes are caused by factors specific to the individual instrument or factors affecting all instruments in the market.

The Manager manages the sub-funds' exposures to market risk by ensuring that the key characteristics of the portfolio. As at years/period ended 31 July 2024 and 2023, the overall market exposures were as follows:

	2023		
	HK Dollar sub-fund HKD		
	Fair value	Cost	% of net assets
Investments			
– Fixed income instruments	1,069,406,772	930,108,921	19.48

There was no investments held by US dollar sub-fund that was issued by a single issuer with market value exceeding 10% of the sub-fund's net asset value as at years ended 31 July 2024 and 2023.

# Notes to the Financial Statements

## (b) Interest rate risk

Interest rate risk arises from changes in interest rates which may affect the value of fixed income instruments and therefore result in potential gain or loss to the sub-funds. The sub-funds' interest rate risk is managed on an ongoing basis by the Manager.

The following table indicates the period in which the interest-bearing assets mature at as years/period ended 31 July 2024 and 2023:

	2024	2023
	HK Dollar sub-fund HKD'000	HK Dollar sub-fund HKD'000
	1 year or less	1 year or less
<b>Assets</b>		
Financial assets at fair value through profit or loss	4,719,152	1,069,407
Fixed deposits with original maturity more than three months	1,250,000	1,680,000
Cash and cash equivalents	3,712,238	2,865,367

Total interest-bearing assets	1,031,997	673,558
Interest sensitivity gap	1,031,997	673,558

### Interest rate sensitivity

At the date of the statement of financial position, assuming all other factors unchanged, it is estimated that an increase in interest rates of 100 basis points (2023: 100 basis points) would result in a decrease in the net assets attributable to unitholders as follows; an equal change in the opposite direction would result in an increase in the net assets attributable to unitholders by an approximately equal amount.

	<b>Change in net assets if interest rate increased by 100 (2023:100) basis points</b>	
	2024	2023
HK Dollar sub-fund	HKD (1,566,768)	HKD (2,248,275)
US Dollar sub-fund	USD (112,718)	USD (192,915)
Renminbi sub-fund	RMB (215,539)	RMB (353,281)

## (c) Currency risk

Each of the sub-funds does not invest in financial instruments or enter into transactions that are denominated in currencies other than its functional currency. All investments will be settled in the functional currency of the respective sub-fund at the maturity date. Consequently, the sub-funds are exposed to minimal currency risk.

# Notes to the Financial Statements

## (d) Credit risk

- (i) Analysis of credit policy and concentration of credit risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the sub-funds. The sub-funds' exposure to credit risk is monitored by the Manager on an ongoing basis.

As at 31 July 2024 and 2023, all of the sub-funds' financial assets were exposed to credit risk. These include financial assets at fair value through profit or loss, interest receivable, other receivables, fixed deposits with original maturity more than three months and cash and cash equivalents placed with banks and the custodian.

At the date of the statement of financial position, the sub-funds invested in fixed income instruments with the following credit quality, as determined by Moody's, expressed as a percentage of total fixed income instrument.

	2024 HK Dollar sub-fund %	2023 HK Dollar sub-fund %
<b>Rating (Moody's)</b>		
A1	5.82	9.21
A2	5.21	–
Aa2	8.11	7.39
Aa3	4.93	13.65
P-1	73.61	69.75
P-2	2.32	–
Total	100.00	100.00

	2024 US Dollar sub-fund %	2023 US Dollar sub-fund %
<b>Rating (Moody's)</b>		
A1	3.32	3.89
Aa2	9.45	–
Aa3	8.85	7.64
Aaa	5.62	–
P-1	61.58	73.75
P-2	5.57	–
NR	5.61	14.72
Total	100.00	100.00

	2024 Renminbi sub-fund %	2023 Renminbi sub-fund %
<b>Rating (Moody's)</b>		
A1	9.05	–
Aa2	3.63	–
Aa3	–	10.42
P-1	61.88	89.58
P-2	25.44	–
Total	100.00	100.00

Credit risk is managed by reviewing and monitoring the credit quality of fixed income instruments or the issuers of the fixed income instruments held by the sub-funds on an ongoing basis.

Credit risk arising on transactions with brokers relates to transactions awaiting settlement. Risk relating to unsettled transactions is considered small due to the short settlement period involved and the high credit quality of the brokers used.

All of the cash held by the sub-funds are placed with banks. Bankruptcy or insolvency of the banks may cause the sub-funds' rights with respect to the cash held by the banks to be delayed or limited. The Manager monitors the credit rating and financial position of the banks on an ongoing basis.

Substantially all of the assets of the sub-funds are held by HSBC Institutional Trust Services (Asia) Limited (the "Custodian"). Bankruptcy or insolvency of the Custodian may cause the sub-funds' rights with respect to securities held by the Custodian to be delayed or limited. The Custodian is a group company of HSBC, for which the long-term credit rating is Aa2 (2023: Aa2), as determined by Moody's.

The carrying amounts of the financial assets best represent the maximum credit risk exposure at the date of the statement of financial position.

There were no other significant concentrations of credit risk as at both years/period ended 31 July 2024 and 2023 other than outlined above.

# Notes to the Financial Statements

## (ii) Amounts arising from ECL

Impairment on interest receivable, other receivables, fixed deposits with original maturity more than three months and cash and cash equivalents has been measured on a 12-month expected loss basis and reflects the short maturities of the exposures. The sub-funds consider that these exposures have low credit risk based on the external credit ratings and/or review result of the counterparties.

The Manager of the sub-funds monitors changes in credit risk on these exposures by tracking published external credit ratings of the counterparties and/or performed ongoing review of the counterparties.

The Manager considers the probability of default to be minimal as the counterparties have a strong capacity to meet their contractual obligations in the near term. There is no impairment allowance recognised on other receivable, interest receivable, fixed deposits with original maturity more than three months and cash and cash equivalents. The amount of the loss allowance did not change during the years/period ended 31 July 2024 and 2023.

## (e) **Liquidity risk**

Liquidity risk arises from the risk that the Manager may not be able to convert investments into cash to meet liquidity needs in a timely manner. The sub-funds are exposed to daily liquidity risk on redemption of units.

The sub-funds' policy is to regularly monitor current and expected liquidity requirements to ensure that it maintains sufficient reserves of cash and readily realisable marketable securities to meet its liquidity requirements in the short and longer term.

The Manager aims to maintain an average portfolio maturity of not exceeding 90 days, therefore the sub-funds are not subject to a significant liquidity risk.

The sub-funds invest in unlisted fixed income instruments, which are not publicly traded on exchanges and may be illiquid.

As at 31 July 2024 and 2023, the sub-funds' financial liabilities are due within three months.

## (f) **Capital management**

The sub-funds' capital as at the years end date is represented by their redeemable units.

The objective of each sub-fund in managing the capital is to ensure a stable and strong base to select high grade monetary instruments to achieve the highest possible return and, to manage liquidity risk arising from the redemptions. The Manager manages the capital of the sub-funds in accordance with the sub-funds' investment objectives and policies stated in the Fund's Explanatory Memorandum.

There were no changes in the policies and procedures during the years with respect to the sub-funds' approach to their capital management.

The amount and the movement of net assets attributable to unitholders are stated in the statement of changes in net assets attributable to unitholders. As the redeemable units are redeemed on demand at the unitholders' option, the actual level of redemption may differ significantly from historical experience.

## 11 **Fair value information**

The sub-funds' financial instruments are measured at fair value on the date of the statement of financial position. Fair value estimates are made at a specified point in time, based on market conditions and information about the financial instruments. Usually, fair values can be reliably determined within a reasonable range of estimates. For certain other financial instruments, including cash and cash equivalents, Fixed deposits with original maturity more than three months" and "other receivables interest receivable, redemptions payable, amounts due to brokers and other payables, the carrying amounts approximate fair values due to the intermediate or short-term nature of these financial instruments.

# Notes to the Financial Statements

## Valuation of financial instruments

The sub-funds' accounting policy on fair value measurements is detailed in note(e)(iv).

The sub-funds measure fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements.

- Level 1: Inputs that are quoted market prices (unadjusted) in active markets for identical instruments.
- Level 2: Inputs other than quoted prices included within level 1 that are observable either directly (i.e. as prices) or indirectly (i.e. derived from prices). The category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques in which all significant inputs are directly or indirectly observable from market data.
- Level 3: Inputs that are unobservable. This category includes all instruments for which the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments but for which significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

When fair values of debt securities at the reporting date represent quoted prices in markets that are considered less than active or consensus prices derived by third parties using valuation techniques where all significant inputs are directly or indirectly observable from market data, those debt securities are included within level 2 of the hierarchy. For all other financial instruments, the sub-funds determine fair value using valuation techniques.

The sub-funds use widely recognised valuation models for determining the fair value of the debt securities which do not have quoted market prices in active markets. Valuation techniques include net present value, discounted cash flow models, comparison to similar instruments for which market observable prices exist, comparison to quoted prices for identical instruments that are considered less than active and other valuation models.

The following analyses financial assets at fair value at the date of the statement of financial position, by the level in the fair value hierarchy into which the fair value measurement is categorised.

*Financial instruments at fair value through profit or loss*

### HK Dollar sub-fund

#### 2024

	Level 1 HKD	Level 2 HKD	Level 3 HKD	Total HKD
Unlisted fixed income instruments	- 4,719,152,103		- 4,719,152,103

Unlisted fixed income instruments	- 123,484,024		- 123,484,024	
	- 128,484,024		- 128,484,024	

# Notes to the Financial Statements

## Renminbi sub-fund

### 2024

	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
Listed fixed income instruments	-	255,315,596	-	255,315,596
Unlisted fixed income instruments	-	297,438,816	-	297,438,816
	-	552,754,412	-	552,754,412

### 2023

	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
Listed fixed income instruments	-	115,763,273	-	115,763,273
Unlisted fixed income instruments	-	192,134,076	-	192,134,076
	-	307,897,349	-	307,897,349

There was no transfers of financial instruments between the fair value hierarchy levels during the years/period ended 31 July 2024 and 2023.

#### Valuation of financial instruments not measured at fair value

The financial instruments not measured at fair value through profit or loss are short term financial assets and financial liabilities whose carrying amounts approximate their fair value.

## 12 Segment information

The Manager makes the strategic resource allocation on behalf of the sub-funds and determines the operating segments based on the internal reporting used to make strategic decisions.

The Manager's asset allocation decisions are based on one single and integrated investment strategy, and the sub-funds' performance is evaluated on an overall basis. Accordingly the Manager considers that the sub-funds have one single operating segment which is investing in a portfolio of financial instruments to generate investment returns in accordance with the investment objective stipulated in its Explanatory Memorandum of the Fund. There were no changes in the reportable operating segment during the years/period ended 31 July 2024 and 2023.

All revenues generated from investments by the sub-funds are disclosed in note 3. The segment information provided to the Manager is the same as that disclosed in the statement of comprehensive income and statement of financial position.

The sub-funds are domiciled in Hong Kong. All income from investments in HK Dollar sub-fund, US Dollar sub-fund and Renminbi sub-fund are linked to HK dollars, United States dollars and Renminbi respectively.

## 13 Possible impact of amendments, new standards and interpretations issued but not yet effective for the year ended 31 July 2024

Up to the date of issue of these financial statements, the HKICPA has issued a number of amendments and a new standard, which are not yet effective for the year ended 31 July 2024 and which have not been adopted in these financial statements.

Of these developments, the following may be relevant to the sub-funds' operations and financial statements:

### Effective for accounting periods beginning on or after

Amendments to HKAS 1, <i>Presentation of financial statements: Classification of liabilities as current or non-current</i>	1 January 2024
Amendments to HKAS 21, <i>The effects of changes in foreign exchange rates: Lack of exchangeability</i>	1 January 2025

The sub-funds are in the process of making an assessment of what the impact of these developments are expected to be in the period of initial application. So far they have concluded that the adoption of them is unlikely to have a significant impact on the financial statements of the sub-funds.

# Notes to the Financial Statements

## **14 Event occurring after year-end date**

In preparing these financial statements, the Manager and the Trustee have evaluated all significant events up to the date the financial statements are approved and authorized for issue. There were no subsequent events that would require adjustment or disclosure to these financial statements.

## **15 Approval of financial statements**

The financial statements were approved by the Manager and the Trustee on 29 November 2024.

The Manager of the sub-funds has been issuing and redeeming units at the same bid and ask prices for the years ended 31 July 2024, 2023, 2022, 2021, 2020, 2019 and 2018. As such, the above records have not shown the bid and offer prices separately.

# SFC ESG related disclosure for the year ended 31 July 2024 (Unaudited)

## (a) HSBC Global Money Funds' Carbon Footprint including formula

Corporate Carbon Footprint*	Carbon Footprint	Coverage	Holdings Weight
HK Dollar sub-fund	0.53	35%	23%
US Dollar sub-fund	1.66	50%	37%
Renminbi sub-fund	1.57	47%	24%

\* Expressed in CO2e/USDm invested using Scope 1+2 Carbon Emissions, source from S&P Trucost

## (b) Corporate Carbon Footprint (tonnes CO2e/USDm):

The GHG emissions apportioned to the portfolio per million USD owned by the portfolio. Each holding's contribution to the carbon footprint of the portfolio is calculated on an equity ownership basis using the Enterprise Value (EVIC) of the companies. The carbon footprint of the fund is the sum of these contributions, normalised by amount owned.

$$\frac{\sum_i \left( \frac{\text{current value of investment}_i}{\text{investee company's enterprise value}_i} \times \text{investee company's Scope 1 and 2 GHG emissions}_i \right)}{\text{current value of all investments (USDm)}}$$

Coverage: This indicates the proportion of the fund for which data can be sourced.

## (c) Assumption/data limitation

This GHG consists to sum of the carbon emissions (scope 1, 2 and 3) of issuer divided by enterprise value, multiplied by the weight of the investment. Enterprise Value, including cash (EVIC) in million Euro are sourced from AM's reporting vendor FactSet. It is a measure of carbon emissions ownership, as it takes into account the proportion of emissions per investment, relative to the total size of the issuer value. However, carbon footprint can fluctuate without a change in carbon emissions as a result of changes in issuer value. Total carbon footprint is the sum of all issuer carbon footprint, divided by the value of the portfolio.

Data limitation: Carbon emissions (Scope 1, 2 & 3) are primarily based on company carbon disclosures, or estimated by S&P Trucost in the absence of company reports. It is worth noting the lack of coverage of scope 3 GHG emissions and some niche asset classes (such as Small Caps, High Yield or emerging markets issuers). These gaps are due to companies not reporting emissions and it is not appropriate to estimate non-reported emissions for niche asset classes or sub-industries.

SFC ESG related disclosure for the year ended 31 July 2024 (Unaudited) (Continued)

It is important to note that we decided to zero down the carbon emission for internally approved green bonds – i.e. green bonds for which “greenness” has been ascertained and approved by a fully-fledged HSBC AM committee. This option has been set in the absence of a more accurate and systematic assessment which would consist in applying to the concerned bond a reduced CHG emissions based on the financed projects/use of proceeds. The same abatement (“zeroing”) will apply similarly to portfolio position and corresponding benchmark components.
