

HSBC Collective Investment Trust

HSBC Global Sustainable Multi-Asset Income Fund

Monthly report 31 July 2025 | Share class AM30-EUR

Fund center

Risk Disclosure

- The Fund invests mainly in a diversified portfolio of global assets that form part of sustainable investment strategies ("Sustainable Assets").
- The fund invests its asset based on certain ESG and sustainable investment strategies. The use of Sustainable Criteria may affect the Fund's performance and result in a loss to the Fund.
- Change in sustainable investment strategies may involve rebalancing of the investments of the Fund and therefore the Fund may incur greater transaction costs than a fund employing a buy-and-hold allocation strategy.
- The Fund may invest in financial derivative instruments for investment purpose which may lead to higher volatility to its net asset value.
- The Fund may pay dividends/payouts out of capital or gross of expenses. Dividend/payout is not guaranteed and may result in capital erosion and reduction in net asset value.
- The Fund's investments may involve substantial credit, credit rating, currency, volatility, liquidity, interest rate, valuation, emerging markets, tax and political risks and risks related to general equity market, general debt securities, sovereign debt, investment strategy, mainland China market, small/mid-capitalisation companies, non-investment grade and unrated debt securities, convertible securities and investment in other collective investment schemes. Investors may suffer substantial loss of their investments in the Fund
- Base Currency Hedged Share Classes and RMB denominated Class are subject to higher currency and exchange rate risks.
- Investors should not invest solely based on factsheet and should read the offering documents for details.

Investment objective

The Fund aims to provide income with moderate capital growth through investment in a diversified portfolio of global assets that form part of sustainable investment strategies ("Sustainable Assets"). Through investment in Sustainable Assets, the Fund aims to invest in a portfolio with a higher weighted average environmental, social and governance ("ESG") score ("ESG Score") and lower weighted average carbon intensity ratings ("Carbon Intensity Ratings") than if it invested in an equivalent portfolio of standard market capitalisation indices ("Sustainability Reference Comparator").

Investment strategy

In normal market conditions a minimum of 70% of the Fund's net asset value will be invested in Sustainable Assets such as equities and equity equivalent securities, fixed income securities, money market and cash instruments and other instruments, such as convertible bonds, asset backed securities, asset-backed commercial papers and mortgage backed securities, related to both developed and emerging markets. The Fund may invest its remaining net asset value in assets similar to the aforementioned but which are not considered Sustainable Assets.

Share Class Details

Key metrics
