Risk Disclosure

- The Fund is a passively managed index fund that aims to track the Bloomberg China Treasury + Policy Bank Index (total return). There is no guarantee or assurance of exact replication of the Index. The manager will not have the discretion to adapt to market changes due to the inherent investment nature of the Fund. A fall in the index will result in a similar fall in the net asset value of the Fund.
- The Fund is subject to emerging markets risk, concentration risks (Mainland China) and may invest substantially in securities issued by a single sovereign issuer (the PRC).
- The credit rating and/or credit quality of a debt instrument or its issuer (e.g. the PRC) may decline and become Non-Investment Grade or unrated. In the event of such decline, the value of the Fund may be adversely affected.

- The Fund's investments may involve substantial credit, currency, volatility, liquidity, general debt securities, interest rate, tax, sovereign debt, index concentration risk, new index risk, Mainland Chinese debt risk, risks associated with CIBM and Bond Connect, Mainland China tax, RMB conversion and currency risks, Mainland China market risks, and political risks. Investors may suffer substantial loss of their investments in the Fund.
- Investors should not invest in the Fund solely based on the information provided in this document.

Investment objective

The Fund aims to provide regular income and capital growth by tracking as closely as possible the performance of the Bloomberg China Treasury + Policy Bank Index (total return) (the Index).

Investment strategy

The Index is comprised of Renminbi (CNY) denominated bonds that are listed on China Interbank Bond Market. The currency of the Index is US dollars (USD) and returns are unhedged. The Index includes fixed-rate government and policy bank bonds with a minimum outstanding amount of at least CNY 5 billion, and a maturity of at least one year. The Fund will be passively managed and will invest in CNY denominated bonds. The Fund will not necessarily invest in every Index constituent and may invest outside of the Index. The Fund may invest up to 10% in funds, up to 100% in non-investment grade bonds, up to 100% in government bonds issued by a single government issuer and up to 20% in securities issued by the same non-government issuer. The average credit ratings of the Fund's underlying investments are expected to be in-line with that of the Index. See the Prospectus for a full description of the investment objectives and derivative usage.
