Risk Disclosure

- The Fund aims to provide long term total return by investing in a portfolio of ASEAN equities.
- The Fund is subject to the geographic concentration and emerging market risks of investing in the region(s).
- The Fund may invest in financial derivative instruments for investment purpose which may lead to higher volatility to its net asset value.
- The Fund's investments may involve currency, volatility, liquidity, equity market risks, risk associated with small/mid-capitalisation companies, tax and political risks. Investors may suffer substantial loss of their investments in the Fund.
- Investors should not invest solely based on factsheet and should read the offering documents for details.

Investment objective

The Fund aims to provide long term capital growth and income by investing in a portfolio of ASEAN shares, while promoting environmental, social and governance (ESG) characteristics. The Fund qualifies under Article 8 of SFDR.

Investment strategy

The Fund is actively managed.

In normal market conditions, the Fund will invest at least 70% of its assets in shares (or securities similar to shares) of companies of any size, that are based in, or carry out most of their business in ASEAN countries.

The Fund includes the identification and analysis of a company's ESG Credentials as an integral part of the investment decision making process to help assess risks and potential returns.

Companies and/or issuers considered for inclusion within the Fund's portfolio will be subject to excluded activities in accordance with HSBC Asset Management's Responsible Investment Policies, which may change from time to time.

The Fund may invest up to 10% in other funds, up to 10% in Real Estate Investment Trusts and may also invest in bank deposits and money market instruments for treasury purposes.

See the Prospectus for a full description of the investment objectives and derivative usage.

The MSCI ESG Key Issue Score is the numerical, weighted average of MSCI's E, S, and G pillar scores. A higher number indicates a more favourable ESG profile in the view of MSCI.

The weighted averages of the Key Issue Scores are aggregated and companies' scores are normalized by their industries. After any overrides are factored in, each company's Final Industry-Adjusted Score corresponds to a rating.

Benchmark disclosure

The Investment Advisor will use its discretion to invest in securities not included in the reference benchmark based on active investment management strategies and specific investment opportunities. It is foreseen that a significant percentage of the Fund's investments will be components of the reference benchmark. However, their weightings may deviate materially from those of the reference benchmark. Any deviations with respect to the benchmark are monitored within a comprehensive risk framework, which includes monitoring at security and sector level. The deviation of the Fund's performance relative to the benchmark is monitored, but not constrained, to a defined range.
