Risk Disclosure

- The Fund invests mainly in emerging markets equities.
- The Fund is subject to the risks of investing in emerging markets.
- The Fund may invest in onshore Chinese securities through various market access schemes and China A-shares Access Products. Such investments involve additional risks, including the risks associated with China's tax rules and practices.
- The Fund may invest in financial derivative instruments for investment purpose which may lead to higher volatility to its net asset value.
- The Fund's investments may involve currency, volatility, liquidity, equity market, geographic concentration, risk associated with small/mid-capitalisation companies, China A-shares/B-shares and China A-share access products, tax and political risks. Investors may suffer substantial loss of their investments in the Fund.
- Investors should not invest solely based on factsheet and should read the offering documents for details.

Investment objective

The Fund aims to provide long term capital growth and income by investing in a portfolio of emerging market shares, while promoting environmental, social and governance (ESG) characteristics. The Fund qualifies under Article 8 of SFDR.

Investment strategy

The Fund is actively managed. In normal market conditions, the Fund will invest at least 90% of its assets in shares (or securities similar to shares) of companies of any size that are based in emerging markets. The Fund includes the identification and analysis of a company's environmental and social factors and corporate governance practices as an integral part of the investment decision making process. Companies considered for inclusion within the Fund's portfolio will be subject to excluded activities in accordance with HSBC Asset Management's Responsible Investment Policies, which may change from time to time. The Fund may invest up to 40% in China A and China B-shares, up to 10% in Real Estate Investment Trusts, up to 10% in other funds, up to 15% in convertible securities, and may invest in bank deposits and money market instruments for treasury purposes. See the Prospectus for a full description of the investment objectives and derivative usage.

The MSCI ESG Key Issue Score is the numerical, weighted average of MSCI's E, S, and G pillar scores. A higher number indicates a more favourable ESG profile in the view of MSCI.

The weighted averages of the Key Issue Scores are aggregated and companies' scores are normalized by their industries. After any overrides are factored in, each company's Final Industry-Adjusted Score corresponds to a rating.

Benchmark disclosure

The Investment Advisor will use its discretion to invest in securities not included in the reference benchmark based on active investment management strategies and specific investment opportunities. It is foreseen that a significant percentage of the Fund's investments will be components of the reference benchmark. However, their weightings may deviate materially from those of the reference benchmark. Any deviations with respect to the benchmark are monitored within a comprehensive risk framework, which includes monitoring at security and country level. The deviation of the Fund's performance relative to the benchmark is monitored, but not constrained, to a defined range.
